Into Your Head 301: Thursday's breakfast Show - guest hosted by BRIAN JUDE! (6/3/10) 13:41 [801]

The original version of this episode cut off suddenly at the end. It was assumed by NEAL to be a deliberate and excellent joke, but the truth is even better. It was not the end. Not BRIAN's fault - An Internet problem at the Irish end appears to have conspired.

Here now is the full version of Thursday's Into Your Head Temporarily Almost Daily Breakfast Show, Guest hosted and produced by BRIAN JUDE.

Some of you know BRIAN from his works, including THE BRIAN JUDE SHOW at BRIANJUDESHOW.blogspot.com and the eponymous @BRIANJUDE Twitter feed

About Into Your Head podcast

For 20 years Irish born amateur humourist, self-facing raconteur, universal unknown, socially awkward cat obsessive, energy drinks misuser and husband Neal O'Carroll has honed the art of starting comedic ramblings with no idea how the first sentence will end, never mind what he will say.

And to what end?

Irish comedy podcast Into Your Head's roots include O'Carroll's long enjoyment of classic BBC Radio panel game Just a Minute. From an early age (27) he was starting sentences with "Two Cats walk into a Bar" more frequently than the average man, initially in early 2000s nonsense humour blog Neal's Belch on his original

Newsburp website, which spawned the unscripted yet dialogue-laden Matchstick Cats webomics. By 2006, soon to be former moped operator O'Carroll had noticed saying stuff is easier than writing, and the rest is history. Particularly the first 400 shows which he insists are dreadful. Luckily the show evolved over seventeen years and another 400 speisodes to become the free-flowing sream of unconciousness humour show it is today.*

O'Carroll's 2023 reversal of the show's retirement followed a reinvigorating reboot of Matchstick Cats, adapting to ongoing sight loss from Retinitis Pigmentosa, even abandoning long trusted MS Paint for MS Paint 3D, although he admits it's relevance the audio podcast is yet to be understood. And now so can you.

**No connection to the much later Newsburp podcast, another Irish comedy show that later occupied that domain.*

Disambiguations: Into Your Head / BB Max / Sháinne Greoige / Wikis

Please note that the 2002 album Into Your Head by the boy band BB Max was nothing to do with returning Irish comedy podcast Into Your Head. I hear they might be getting back together too, and wish them well in their endeavours. In fact, as of Christmas 2023 it has come to light that at least three musical acts have now had albums called Into Your Head. I worry that the market may become over-saturated. However, I wish them all well in their endeavours.

Please note that the fictional news anchor Sháinne Greoige, who has presented occasional segments, most notably Athy Weekly World News, on Into Your Head podcast, protrayed by my wife Joanne, bears no connection to television's Gráinne Seoige. We wish her well in her endeavours and those of whoever plays her.

Please note that this page is not a Wiki, and your attempts to edit it are further diminishing you in the eyes of your cats.

GunkCast 17: In The Fish (April 2012) 1:12:19 [731] Welcome GunkCast to The Overnightscape Underground! ¶ Show notes: While you wait for the much anticipated part# 2 of Space Trek, check out the adventures of Byron and a certain legendary New Jersey podcaster as they had a meetup on the streets of Chicago. We don't want to give alot away about the identity of our surprise guest…but clues may be found in a couple alternate titles Byron had thought of for this episode: "A Gunkcast Special Delivery" or "Byron Meets The Champler" (but the actual title we used in the end came from quite an unexpected source)! You'll just have to listen for all the answers & much more! Cheers!…

Gunkcast 16: Space Trek Part I (March 2012) 27:16 [731] "Space Trek (Part I): Those Guys vs Double-J Raygun" ¶ The title should say it all! But to sum up briefly… ¶ The villainous Double-J Raygun is trying to reboot the franchise. He went to the extreme measures of kidnapping Captain Jerk & destroying First Officer Sock's home planet of Toucan. Can Dr. Stones M'Boy & the crew of the Starship Arrow save the day? But they may need the help of someone who pilots a vessel know as The TARGIT…..! ¶ So Byron & a couple of his old friends got together here to bring back a skit they originally started when they were in high school (in the 80's) & doing a cable access show called Those Guys. The skit was a parody of a legendary & much beloved sci-fi TV series. But for this reunion we have brought quite a bit of an update to the original concept (along with many other surprise twists). ¶ Byron claims this is his biggest and most ambitious outing for Gunkcast to date (it actually has been over a year in the making)! So we are now proud to present Part#1 of an all out epic sci-fi comedy adventure from the warped minds behind this humble podcast!! ¶ Also, please share the love and listen to some of our favorite podcasts at—-Static Radio, Special Delivery, Onsug, & Insignificast!

Gunkcast 25: Bad Hair Day In The U.S.A. (Part 1) (October 2013) 1:06:18 [731] The retro journey begins! So how does an episode which starts with Byron walking his dog suddenly lead to a skydiving adventure, which in turn triggers a wild nostalgic trip to a certain past decade? You'll just have to tune in to find out these answers. This is one of the biggest (& definitely the longest schemed) outings for the podcast to date! So join Byron and several featured surprise guests as he hot-wires the old Delorean & takes us on a trip back….! ¶ Also to note, this episode is abound with much great music of a past era… as interpreted by not only our usual podcast house bands: The Gunk U.K. & Curmudgeon, but also by some of Byron's friends & family alike. Rumors are this Part #1 episode may include a vocal debut by Byron's wife Maggie Mae, as well as contributions by one of his earliest childhood friends who is now a dedicated musician himself…Stuart Chaseman. ¶ Also, please share the love and listen to some of our favorite podcasts at: Static Radio, Special Delivery, The Overnightscape, Insignificast, For Whatever Reason, & Letter Seventeen!

Gunkcast 26: Bad Hair Day 2: The 80's World Tour! (December 2013) 1:30:15 [731] "There's been a lot of talk about this next podcast…maybe, maybe too much talk!" Yes, Byron summons the podcast listeners to rally behind his cause with these immortal words which he utters live under a blood red sky. That is…before he pulls the parachute (wait…huh?)! ¶ To kick off the 2nd part of our big retro journey, we find Byron still plummeting towards the Earth on his skydive while he continues the nostalgic trip three decades into the past. But this time (& never-before-seen on Gunkcast) the show goes international for his first guest! Here Byron learns what a "scouser" really is, finds out the origins of this guest's great love of a certain Chicago sports team, & why he actually has tried to block the 80's out from his life! After this, Byron free-falls back to the U.S.A. & heads South for some friends (a hint at another podcast team) to vocalize their diverse opinions of the 80's. This is to quite hilarious results! Finally, the bomb is dropped. One of Byron's oldest pals stops by the studio with a box which

contains the ultimate secret from both of their dark (musical) pasts! ¶ As with the first part episode of Bad Hair Day, this one is abound with much great music of the 80's (as interpreted by several outstanding contributors)! Some of these include The Basement Lights, Letter Seventeen, The Negligible Nukes, The Flat-U-Ants, Phil 'Fingers McKraken'... as well as the regular Gunkcast house bands: Curmudgeon &The Gunk U.K.! ¶ Also, watch for one of the whackiest intros ever in the history of the podcast... & we strongly hint at (several) possible hidden endings which you definitely won't want to miss! In a nutshell, this one has it all folks! Cheers! ¶ And as always...please share the love and listen to some of our favorite podcasts at: Static Radio, Special Delivery, The Overnightscape, Insignificast, The Not New Review, For Whatever Reason, & Letter Seventeen!

Gunkcast 23: Vintage Lunchbox-Roadshow-Meetup (May 2013) 45:11 [731] Byron talks all things old school, takes the show on the road, & meets up with a couple surprise guests in "Vintage Lunchbox Roadshow Meetup!" ¶ "Vintage Lunchbox-Roadshow-Meetup" ¶ What happens when Byron starts off this episode wandering around a Chicago neighborhood on his lunch break from work rambling about items of nostalgic value from his past, but then changes gears & takes the show on the road South (& meeting up with a surprise couple of guests along the way)? ¶ Some extra hints about this episode may be found in a few alternate titles Byron originally had: Escape From Goose Island, Are We There Yet?, Byron Can't Drive 70, The Tampler, When (Podcast) Worlds Collide, Punk Rock Beach Wedding Invasion, Random Canadians & Internet People Are Cool! ¶ So join Byron, along with his family & band, on this rollicking adventure which treks from the streets of Chicago to the deep South and back (& featuring some great soundtrack music which includesCurmudgeon, The Gunk U.K. & Byron's surprise guest as well)! What more could possibly be packed in one episode outing? ¶ Also, please share the love and listen to some of our favorite podcasts at: Static Radio, Special Delivery, Onsug, Insignificast, For Whatever Reason, & Letter Seventeen! ¶

Gunkcast 29: From Primordial Soup... To The Barcode (May 2014) 23:51 [731] So what's exactly happening with Byron so far in 2014? Last time he took the podcast on a bit of an emotional roller coaster, & now he decides to get all philosophical(?)! While this may be some pretty uncharacteristic stuff for Gunkcast, we also strongly feel it is some of the best to come out yet! ¶ So here we find Byron kicking the whole thing off with a bit of a rant on punk fashion (with some help from a certain punk rock icon from the past), which then somehow leads to Byron's theories on evolution, revelations of long-lost music projects, & speculations on just where our final destination will be in the end! (Can it possibly involve a machine-readable code in the form of numbers and a pattern of parallel lines of varying widths??) ¶ Oh, and very noteworthy for this episode is the "secret music" from Byron's past we guarantee you've never heard before! Thanks for listening... cheers!

GunkCast 31: In The Fish 2 (September 2014) 1:25:33 [731] If you combine nightmarish train journeys, ballpark tours, & a podcast meetup on the streets of Chicago... it can only mean one thing. Yes it's the return of a famous New Jersey podcaster (along with his son) to Chi-Town for a 2nd live meeting with Byron! We welcome back Manny The Mailman! ¶ So Manny, his son Mike, & Byron reconvene at the same establishment from 2 years ago in attempt to locate the world's most knowledgeable beer server (who the podcasters claim to have met last time). Alas, he is nowhere to be found now...but this does not stop a very eventful meetup over dinner & several brews (with Byron later playing tour guide on a trip to Buckingham Fountain)! ¶ Some conversation topics include the horrifying side of travel via railway, other surprise meetups in the Midwest, the unnecessary re-naming of iconic national landmarks, scaling skyscrapers & arches, how people ever survived before cell phones, listening to celebrity podcasts, well wishes to Doc from Insignificast, talking Trek, many crazy ballpark tales, and how an unfortunate bmx bike accident led to this whole escapade for Manny & his son! ¶ Also (as if this episode couldn't get any better), we feature a very special musical debut for Gunkcast by Mike Fortunato! ¶ As always...please share the love and listen to some of our favorite podcasts at: Static Radio, Special Delivery, Onsug, Paunch Stevenson, &Insignificast!

GunkCast 32: Tales From The Gunkcast Crypt! (October 2014) 1:14:13 [731] The big seasonal celebration returns to the podcast.... Halloween 2014 is here! After a couple year's hiatus, Byron resurrects his scarefest for the podcast. Being that this is his 3rd episode as such (do we hear trilogy?), he decides to pull out all the stops & make this possibly the grandest ghouls night out yet! Of course to do this, he invites some surprise guests on the show to tell their real life tales of terror! ¶ So with this one, you truly get it all... horror, comedy, & a rocking soundtrack (with some great musical contributions from the likes of Letter Seventeen, Khemique, & Immortal Chorus)! We promise... by the end of this outing, you'll literally be screaming for more! Happy Halloween! ¶ Also, please share the love and listen to some of our favorite podcasts at: Static Radio, Special Delivery, Onsug, Letter Seventeen, & Insignificast!

GunkCast 33: A Christmas Trilogy (B/W: A New Year Chi-Town Rample) (December 2014) 41:44 [731] Just in time for your New Year 2015… we have our last episode from 2014 (but technically some of 2013 was also included)! Wait…huh?? To understand this, you must tune in for our long overdue return to the Yuletide celebration for the podcast! Here Byron plays out his "trilogy" of Christmas-related band recordings from over the years (do we hear a holiday e.p. for The Gunk U.K.?) & we also get a special bonus "B-Side" to this episode! So tune in for all the festivities! Happy holidaze from Gunkcast…cheers! ¶ And as always…please share the love and listen to some of our favorite podcasts at: Static Radio, Special Delivery, Onsug, Paunch Stevenson, Insignificast, & Letter Seventeen!

GunkCast 34: Technology Creeps & Roadshow 2 (April 2015) 37:59 [731] We are back with our long awaited 1st show of 2015! This time Byron starts off on the streets of Chicago going on a bit of a rant on the current era of technology, but then does a 180 & takes a surprise road journey South (& for the 2nd time in the history of the podcast). He just can't shake the overarching technology theme here as it seems to take on a mind of it's own & follow him all the while! As you can expect, Byron kept his recorder rolling for the whole adventure which is presented here for your audio pleasure. ¶ Also listen for another rocking soundtrack featuring a Curmudgeon classic & a new Gunk U.K. tune which Byron debuts in a special exclusive in-studio performance (a hint that you should stick around to the very end of this one)! What more can you ask for in a show? Cheers! ¶ Note: As promised in this episode, I am including this link (http://yedies.blogspot.com/2013/11/the-mouse-goes-rfid.html) for some further interesting info on something we encountered on our journey… which also should further your own technology creeps! Thanks again for tuning in! ¶ http://trashcanrock.com/media/gunkcast_34.0_April2015.mp3

GunkCast 36: Constellation-Reset-Review (7/4/15) 27:20 [731] If there ever was a show with an eclectic mix for Gunkcast this is the one! From unearthing forgotten music written for the cosmos above, to theories on life's reset switch & the subterranean world below, & then throwing in some current items of pop culture for review as well… what more can you want from a podcast show? So tune in for what we promise to be a pretty wild & random ride this time around kids! Cheers! ¶ Also, as promised in this episode (& if you are as big of conspiracy theory fans as we are!) here are several items for your further investigation: Anunnaki in the Antarctic?, Admiral Byrd's diary, Invisible Residents, UFO/USO's, & the hollow earth. ¶ Finally, further links for this show: Reality Overload (Byron's old music project for the featured intro song), the movie we reviewed, & a great classic indie rock band we saw live!

Gunkcast 37: Space Trek I (Revisited): Those Guys vs Double-J Raygun (September 2015) 36:49 [731] Original Earth Transmission Date: March 2012 ¶ Major podcast fame…is it the final frontier? This is the tale of how a humble show called Gunkcast decided to embark on what they had no idea would become a 3 year mission. To unwittingly cause pandemonium with a series of strange new shows. To seek out more listeners…(yeah, even from the competition). To boldly go where no podcast has ever gone before! ¶ What seems like a very short time ago we started something for our podcast that we never would have guessed would become a multi-part series of episodes spanning over three years! So now in preparation for our big grand finale of Space Trek, we are bringing back all the previously aired episodes in their sequential order (leading up to the forthcoming Part #6). However, we wanted to make this extra special. So in this "revisited" series of episodes we may just be loading them with a few extra bonus goodies. Take for example this 1st part… where we unearthed the original lost "Static" intro! We also are remixing & remastering it all for the ultimate bang for your buck! (wait… did we ever say we were charging you, our dedicated fans, for this quality entertainment?) Anyway, we hope you enjoy reliving all the lunacy with us! -—–Byron ¶ The villainous Double-J Raygun is trying to reboot the franchise. He went to the extreme measures of kidnapping Captain Jerk & destroying First Officer Sock's home planet of Toucan. Can Dr. Stones M'Boy & the crew of the Starship Arrow save the day? But they may need the help of someone who pilots a vessel know as The TARGIT…..! ¶ So Byron & a couple of his old friends got together here to bring back a skit they originally started when they were in high school (in the 80's) & doing a cable access show called Those Guys. The skit was a parody of a legendary & much beloved sci-fi TV series. But for this reunion we have brought quite a bit of an update to the original concept (along with many other surprise twists). We also enlisted the talents of a few podcast cronies of ours for this whole event (hints at the links below)! So we are now proud to present Part #1 of an all out epic sci-fi comedy adventure from the warped minds behind this humble podcast!! ¶ Also, please share the love and listen to some of our favorite podcasts at—Static Radio, Special Delivery, & Onsug!

Gunkcast 38: Space Trek II (Revisited): Of Time & Impossible Moss! (11/14/15) 58:15 [731] [gunkcast_space-trek-Pt2_revisitedOriginal Earth Transmission Date: June 2012] ¶ "Space…the final frontier. These are the voyages of the Starship Arrow. It's never ending mission to explore strange living rooms. To seek out new

viewers & better plots. To boldly go where no series will ever go!" With these immortal words a certain cable access show launched itself into (self proclaimed) underground cult status fame about 30 years ago. So in this next edition of our 'revisited' series of episodes for Gunkcast (leading up to our promised grand finale), we have included a new & very special intro segment from a certain podcast luminary! And if that isn't enough, additional bonus content as well as everything being remixed & remastered are just a few reasons to tune in for this unparalleled audio journey! Hey, what more can you ask for on a podcast? Again, thanks for reliving all the lunacy with us! ——Byron ¶ Here it is at last…the much anticipated 2nd part of the Space Trek saga! Learn what happens as Dr. Stones M'Boy, Sock, Checkout, Snotty, & the rest of the crew of the Starship Arrow embark on a perilous journey to rescue the missing Captain Jerk…who has been abducted and exiled through time & space by the villainous Double-J Raygun. With assistance from the mysterious character known as The Doc (& his TARGIT) they encounter some unexpected twists along the way, finding themselves in quite possibly the most harrowing predicament of all by the end of this most suspenseful & lunatic chapter of the epic sci-fi comedy adventure! Trust us…this one's a madhouse! ¶ Also, please share the love and listen to some of our favorite podcasts at—-Static Radio, Special Delivery, Onsug, & Insignificast!

Gunkcast 39: Space Trek III (Revisited): The Search For Jerk (11/25/15) 1:08:45 [731] [Original Earth Transmission Date: October 2012] ¶ The next in our "revisited" series of Space Trek episodes is here (leading up to the forthcoming Part #6)! As we have stated previously, we really strived to make these shows extra special by loading them with all sorts of bonus goodies! So in this 3rd part, we have another stellar new intro (can the rumors be true that it features the BIG MAN himself?)! Also there are hints of a new hidden ending which may further reveal Byron & his Those Guys crew's original high school shenanigans! Of course remixing & remastering this whole thing is just the icing on the cake. Again, we hope you enjoy reliving all the lunacy with us! -—–Byron ¶ A long time ago in a galaxy far, far… (oops… sorry, wrong show). A long time ago at a high school not too far away, Byron & a couple of his friends dreamt up an insane comedy cable access show called Those Guys. This spawned a skit called Space Trek, which has now been revived for an exclusive audio mini-series of episodes here on Gunkcast. Join Byron & a full ensemble cast of talent for the biggest, most action packed (& quite possibly the most lunatic) installment of our Space Trek series yet! ¶ Follow Dr. Leroy Stones M'Boy, Sock, Checkout, Snotty, & the rest of the crew of the Starship Arrow as they continue on their adventure which has guided them through time & space to rescue the missing Captain Jerk. While The Doc (piloting his TARGIT) attempts to hold off the hideous fleet of warships known as the Minions Of J (dispatched by the sinister Double-J Raygun himself), M'Boy & his crew now find themselves stranded on the Island of Impossible Moss as a result of a tiny slight detail they overlooked when they beamed down. But they soon discover they may not be alone on this strange & mysterious island… and the real rollercoaster ride starts here! Trust us, this 3rd part of the series has it all! And if you are wondering just how the U.K. vs. the U.S. shoe size fits into all of this, you'll just have to tune in & hear it for yourselves…cheers! ¶ Also, please share the love and listen to some of our favorite podcasts at—-Static Radio, Special Delivery, Onsug, & Insignificast!

Gunkcast 40: Space Trek IV (Revisited): The Trek Stigmata (12/15/15) 46:50 [731] [Original Earth Transmission Date: June 2013] ¶ Some years ago Byron was on a camping trip with his family & had a mishap while collecting firewood one night. He did not realize until too late that one of the logs he had picked up was covered with poison ivy vines! But perhaps what was most startling was that the resulting outbreak on Byron's left arm seemed to VERY closely resemble a certain classic sci-fi series logo! Yes…he fancied it to be the "trek stigmata!" This is the true & bizarre tale of the event that influenced this very episode title & which we are revealing now for this special revisited edition (at least for the "show notes" since Byron didn't remember to tell it during the actual recording)! ¶ So this next Space Trek 'revisited' episode for Gunkcast boasts another stellar new intro by an eminent podcast voice of the Onsug community (as well as possibly debuting another "hideous" new super villain)! Then after the main show, be sure to stick around for a special bonus behind the scenes segment which we are dubbing "Talking Trek" (featuring a couple old friends who may just happen to be Space Trek cast members & podcast legends themselves)! Note that we are nearing the end of the countdown to our BIG Trek finale… so dive right in now & enjoy reliving all the lunacy with us! Thanks again for listening! ——Byron ¶ At the end of Space Trek III we left you with a huge cliffhanger which has since caused much wild fan speculation & rumors buzzing around the web. The source of all this could be summed up with one simple question: "Who shot the Doc?" Well actually you should know who shot the Doc if you listened! But the bigger question is what do our heroes do now as the villainous Double-J Raygun (who is attempting to reboot the entire franchise) threatens to put an imminent end to them all on the Island of Impossible Moss? How can they overcome the odds weighing against them here & still recover the (unattended) Starship Arrow which has floated off into space? And just what does something possibly located on a certain starship captain's gluteus maximus have anything to do with all this? Find out all these answers & much more in this explosive continuation of the series! Fasten your seatbelts… this one's a real rollercoaster ride! ¶ To note, while you tune

in for this next chapter of our crazy sci-fi comedy adventure (from the eccentric minds behind the original Those Guys), also listen for a pretty kickin' tune from The Gunk U.K. which soundtracks this one…cheers! ¶ And as always, please share the love and listen to some of our favorite podcasts at—Static Radio, Special Delivery, Onsug, & Insignificast!

Gunkcast 41: Space Trek V (Revisited): Choose Your Own Trek! (12/31/15) 1:15:44 [731] [Original Earth Transmission Date: July 2014] ¶ Here it is folks… the last of our "revisited" series of episodes before our BIG grand finale for Space Trek! For this one we feature an all new very 'special (delivery)' style intro which kicks off one of the wildest rollicking adventures ever to be found on Gunkcast! Yes this one brings the whole Space Trek series to a fever pitch packed with more action, more thrills, more insane comedy, and (oh yes)…definitely more explosions! Simply put, this one has it all! Also being remixed & remastered for your audio pleasure truly takes the whole thing to "11″ (hey that's one louder… isn't it?)! Again, thanks for tuning in for our revisited series of Space Trek! We hope you enjoyed reliving all the lunacy with us! —-Byron ¶ So last time we left our fans waiting for answers in the aftermath of yet another huge episode cliffhanger ending. What was to become of Captain Jerk, Stones M'Boy, Sock, Checkout, Snotty, & the rest of the crew of the Starship Arrow when it was revealed that imminent disaster was about to strike as they prepared to beam up from the Island of Impossible Moss (after the big showdown with the villainous Double-J Raygun)? Well finally we are back with the long awaited answer…or shall we say "answers!" Yes, this time we are giving you (our dedicated listeners) the choice to make as to what the outcome of this most perilous situation could be! So what are you waiting for? Join us now for the 5th installment of a most epic sci-fi comedy adventure mini-series (brought to you by the eccentric minds behind the original Those Guys)! Remember, the success of the mission this time relies on your decision! ¶ And just when you think this episode can't get any better, you may want to also tune in for a classic track from one of our main Gunkcast house bands… Curmudgeon. Yes, this one truly has it all folks! ¶ Also, please share the love and listen to some of our favorite podcasts at—-Static Radio, Special Delivery, Onsug, & Insignificast!

Gunkcast 42: Space Trek VI: The Farce Awakens / The Final Load Of Laundry / Those Guys Take A Journey Home! (1/29/16) 1:08:55 [731] "The Farce is strong in the Gunkcast family. Byron has it. Smidge has it. Hell, just about all of the Space Trek cast have it! You have that power too…!" Oh sorry, wrong show (you ask)? But of course this is the right show! And with those immortal words our special guest intro announcer (courtesy of Bad Reboot Productions) kicks off our biggest episode to date! But let's leave the rest of that bit for your actual listening pleasure & carry on with what we planned here. So… A long time ago at a high school not too far away, Byron & a couple of his friends dreamt up an insane comedy cable access show called Those Guys. This spawned a skit called Space Trek, which has been revived for an exclusive audio mini-series of episodes here on Gunkcast. So please join Byron & his full ensemble cast of talent now for the BIG wrap up. That's right… the grand finale which has been so hyped & promised for so very long that many thought it simply was never going to happen. Yes, this finale has gotten so BIG that we decided we needed to bring it all to a close in the BIGGEST way we know how… obviously by making it three shows in one! (Wait…what)? ¶ But we're not going to spoil this for you. You'll just have to dive right in with us as the fuse(box) is lit to an explosive intro where we flashback through The Farce to the untold tale of how this whole adventure began! Yes, find out just how one final load of laundry set the chain of events in motion which led to our entire epic six part saga! Then join Byron & his co-host Dave Ryan in the studio as they talk all things Trek & set up the final part of our journey which reaches it's action packed conclusion here. And just when you think this can't get any better, we also hint that there may be an after-show party which features a few more surprises (as well as another kicking tune from one of our main house bands.. Curmudgeon)! ¶ As we close out our Captain's Log, we would like to humbly thank everyone who contributed to our shenanigans over the last several years of making this audio journey for Gunkcast (yes, you are all given ceremonious credit in this one)! The little skit we started as part of our cable access show back in high school has now reached the grand conclusion it deserves & we are ready for a final beam up! Cheers….! ¶ Also, please share the love and listen to some of our favorite podcasts at—-Static Radio, Onsug, Special Delivery, Fusebox, & Insignificast!

Gunkcast 43: A Normal Show? (March 2016) 33:35 [901] We are finally back from winter hibernation with a normal show. Wait… is there ever such a thing as a normal show for Gunkcast? You'll just have to tune in to figure that out for yourselves! We won't say too much here, but this one could actually be the biggest game changer for the podcast to date (as somebody is MIA & somebody steps in to take the show back)! ¶ Some key highlights for this one: Shout-outs to Doc from Insignificast & Jimbo from Onsug. Contributing to a show for Jimbo. A St. Patrick's Day flashback adventure. Our 2016 Grateful Dead & general 60's conspiracy rant (featuring a special guest)! R.I.P. David Bowie. Winter/Spring movie & TV review roundup. Cheers! ¶ As always…please share the love and listen to some of our favorite podcasts at—-Static Radio, Onsug, Special Delivery, & Insignificast!

Gunkcast 46: Halloween H2O (October 2016) 1:31:02 [907] The crypt has opened once again as the scarefest for the podcast returns for a big 2016 outing! This time Smidge decided to dedicate the show entirely to one of his favorite network of podcasters. That's right… it's a Halloween to Onsug! ¶ So for this ghouls night out we have invited as many of the great Onsug hosts to participate as possible. That being said, we received "seven" amazing contributions! Yes, these brave souls stepped up to relate their tales of terror which may just provide some extra thrills (& chills) to haunt you for your All-Hallows' Eve of 2016! And in our typical Halloween tradition for Gunkcast, we bring you all the tricks (or shall we say treats): creepy tales from our stalwart contributors, crazy comedy, more conspiracy freak outs, & a review! We crank those amps up (yeah, yeah…definitely past "11") & bring the show back in full swing as we dedicate this episode to the band behind the podcast! Yes, for this one we pay tribute to the legacy of The Gunk U.K.. Gunkcast 48: In The Fish 3 (Part 2) (May 2017) 1:04:04 [914] At last we are back with the conclusion of our BIG podcast meetup which recently took place on the streets of Chicago. Smidge is joined by Manny The Mailman (of Special Delivery) and Miles Tidal (of Static Radio) as they take refuge from some harsh Spring Windy City weather… but may just find themselves in an establishment which is (or at least once was) located in one of the most dangerous parts of Chi-Town! Yes…the good times and exciting conversation continues with topics which range from stories of late night celebrity run-ins, to certain podcast-related adventures, to just what the heck this episode title actually means! Laced with plenty of nostalgia & pop culture talk… this show is one not to be missed! So why don't you just dive right in and enjoy Part #2 of this meeting of the (podcast) minds! Gunkcast 49: Gunkcast Does The Hustle (Part 1) (August-October 2017) 1:00:40 [919] So 2017 seems to be the year of podcast meetups for Gunkcast! After a bit of a hiatus (we'll just call it an extended summer break), we are back with another BIG show! This time we have a special guest co-host in the studio to talk with us on the subject of all things music! His name is Jon Lamoreaux and he does a very cool podcast called The Hustle for which he seeks out musicians & bands who once had their moment of fame (a big note to those one-hit wonders of the mid-70's through early 90's). Many of the artists he has had on his show are pretty big names who you definitely will know, as well as some who have flown slightly under the commercial radar of success. So we had a very interesting discussion with Jon on how he approaches his show and he shares many fascinating stories regarding the artists he has interviewed. We also discuss many of the bands & artists we have a common passion for (& we may just offer up some suggestions for Jon for who we think he needs to get

on his show)! ¶ Although we were admittedly very tempted to include bits of all the great music we talked about in this episode, we have decided to honor copyrights & do the Onsug-friendly version here. So here are just a few links regarding some of the bands/artists we discuss in this Part #1 episode: The Chameleons (https://youtu.be/nGssYCWIV74 & https://youtu.be/4sL-wu5oa1w), Russ Ballard (https://youtu.be/FNrbrhQknLQ), The Mighty Lemon Drops (https://youtu.be/E5mltgsGEas), The A's (https://youtu.be/rdIkDWNWVIA), Real Life (https://youtu.be/jCHE0Tjw6MA), The Flowerpot Men (https://youtu.be/7kj5K3BxA6s), Robert Tepper (https://youtu.be/MwPb7g_BlXQ), Tim Capello (https://youtu.be/PdaaGlyu7EQ), Steven Wilson (https://youtu.be/ENfI942SJTY), Guided By Voices (https://youtu.be/-fm83rY2aWc), & Longwave (https://youtu.be/CLEZ8tyfA9A). These are besides the many more popular artists we also discussed. So enjoy the 1st part of quite the fascinating music discussion we had… we will be back with the 2nd part very soon! ¶ Also to note, we may be debuting a track off the upcoming (and long promised) e.p. from the band! So you may want to stick around for that here too! Cheers! ¶ Also, please share the love and listen to some of our favorite podcasts at: The Hustle, Onsug, Static Radio, Insignificast, The Not New Review, and Rock Solid!

Gunkcast 50: Gunkcast Does The Hustle (Part 2) (October 2017) 1:30:01 [920] Well this is it folks… the BIG 50th episode for the podcast! And what better way to celebrate it than to make it an all-out music extravaganza?! Yes, this is the 2nd part of our discussion with Jon Lamoreaux from The Hustle podcast. In this one we hear many more fascinating stories about the musicians he has interviewed (again ranging from fairly big celebrities to those who flew slightly under the radar of commercial success). ¶ Some quick notes on all the cool stories & discussion topics covered here: What happens when you accidentally walk in on your rock & roll idols changing backstage? Bands who hold a 25-year long grudge for their backstage chocolates being eaten! Half our concert-going country are obese! Your favorite studio musicians may just suck live! Adam Ant has gone Metal! Famous reunion tours which may have been instigated for not so noble reasons. Jon just needs to tap into the Australian music scene! ¶ Also we continue on with our request list of who we feel Jon needs to get on his show, as well as compare our concert-going intake for this year with him. Plus you won't want to miss Smidge's real life hair-raising tale which comes just in time for Halloween of 2017! Yes, these are some of the many reasons to tune in to this episode! And as if this couldn't get better, just stick around for a possible hidden ending featuring a backstage concert adventure for Smidge and his friends. What more could you want from a podcast? Cheers! ¶ Also (as always), please share the love and listen to some of our favorite podcasts at: The Hustle, Onsug, Static Radio, Insignificast, The Not New Review, and Rock Solid!

Gunkcast Thanksgiving Special (Flashback): Punk Talk 2010! (11/24/17) 40:49 [920] So this was a total last minute brainstorm idea for the Thanksgiving season of 2017… why not flashback to one of our oldest shows (which just so happened to be our 1st meetup as well)!? See originally this episode was numbered "002," but was technically sort of our 3rd release for the podcast, & was also commonly referred to as the pre-show for the episode #2 proper (wait, huh??)? Ok, yeah… whatever (this probably all made sense to Byron Duddle who was running the show back then)! Besides all of this, we very strongly feel this stands as a great episode for the podcast and are proud to introduce it to Onsug for the 1st time ever! Enjoy!! ¶ Original show notes: With the looming Gunkcast# 2 getting very near…Byron decided to release this as the pre-show (we'll just call it the Thanksgiving Special)! A couple of surprise guests made it to the studio for an all-out punk rock discussion and to share their own stories of how punk affected their lives. This included some startling revelations as to certain people's true family origins, and also a very timely Thanksgiving tale starring a punk icon of the past! Cheers! ¶ As always…please share the love and listen to some of our favorite podcasts at—-Static Radio, Onsug, Special Delivery, & Insignificast!

Gunkcast 51: Welcome To The Meltdown (September 2017 – June 2018) 1:02:58 [927] People have said they spotted something approaching… can it be true? Can a certain podcast be descending back to Earth from the deepest regions of space? Yes, here it is folks… the return of Gunkcast for 2018! After a very extended hiatus we are back with the long-promised episode, which features an even more long-promised album that has finally been released. Can a certain podcast be descending back to Earth from the deepest regions of space? Yes, here it is folks… the return of Gunkcast for 2018! After a very extended hiatus we are back with the long-promised episode, which features an even more long-promised album that has finally been released. Yes, we have decided to treat you (our dedicated fans) to an in-depth dissection of each of the songs from this new album & we are dedicating this episode to the 1st track:

“Welcome To The Meltdown.” ¶ And as if this couldn’t get any better, we also have jam packed this episode with all sorts of bonus content! We do our signature Gunkcast review of several pop culture movies, as well as a certain exclusive You Tube Red series (& take special note to stick around for a possible hidden ending featuring a certain very long overdue review)! Finally, we have recently unearthed some forgotten recordings which were done several years ago for an intended collaboration with Jimbo… we offer these in special tribute to his memory here. All of this plus our trademark crazy comedy and rocking soundtrack (provided by Smidge & the band)… what more could you possibly want from a podcast? Cheers! ¶ Also, please share the love and listen to some of our favorite podcasts at: Onsug, Static Radio, Insignificast, Letter Seventeen, & The Hustle!

Gunkcast 52: Byron Of The Dead (A Frightfest Double Feature!) (Halloween 2011-2018) 54:16 [932] We wanted to drop a most frightful last minute surprise with this one! A certain past Gunkcast show host is resurrected for All-Hallows’ Eve of 2018 as we combine our 1st two archival Halloween episodes for a very special Frightfest Double Feature! Originally released as “A Nightmare On Byron’s Street” (2011) and “Byron From The Grave” (2012), these two shows have never been broadcast previously on Onsug. So combine a double-whammy of terrifying classic episodes, add some new commentary from Smidge, & throw in a current pop culture review section to boot (trust us, it’s to die for)… what more can you possible want from a podcast? This one should definitley leave you screaming for more! Cheers! ¶ Also, please share the love and listen to some of our favorite podcasts at: Onsug, Static Radio, & Insignificast!

Gunkcast 53: We Gave This Our 21% (A Podcast Meetup!) (November 2018) 1:21:18 [932] In the history of Gunkcast, one thing we are particularly fond of is when a podcast meetup episode comes together. And here you have just that… a BIG meeting of the podcast minds for 2018! Join Smidge and his very special guest Bob LeMent (of Static Radio fame) as they meet for lunch in Chicagoland. Tune in for some fascinating discussion on the subject of all things pop culture! Some of the topics here include travel horror stories, being confused by all the technology improvements (& screw-ups!), why being an Uber/Lyft driver may not be your dream job, our Hollywood doppelgängers, past run-ins with Wil Wheaton & the Goo Goo Dolls, visiting Jim Morrison’s grave, Miles & Manny, having life-theatening podcast jobs, the college prankster years revisited, & following Bob’s most important rule in life… “just try to stay out of jail!” If you listen to just one meetup episode this year, this is one not to be missed! Cheers! ¶ A special note that the soundtrack to this episode is provided by a Tribute band Smidge is currently part (a hint to a blond-haired trio from the 80’s) called Invisible Sun. Look for them on the live scene very soon!! ¶ Also, please share the love and listen to some of our favorite podcasts at: Onsug, Static Radio, & Insignificast!

Yes it was the Star Wars Celebration 2019! Listen to Kurdlebaum Junior & Senior as they team up for a full podcast together for the very 1st time! Gunkcast 55: I Struggle Just To Say Your Name In Chicago: An Indie-Rock Memoir (Part 1) (May 2019) 1:46:24 [938] Join Smidge as he welcomes a very special guest to the show for an all-out music extravaganza! Michael Lenzi was one of the key members of a pivotal Chicago Indie-Rock band from the 90’s called Number One Cup. Hear the story of how a Bowie/punk rock fan from DC followed his music dream to Chicago, and ended up forming a band who found an audience very far away! Learn how mailing their 1st single to the legendary John Peel in the U.K. in the early 90’s changed everything for the band. From tales of being stranded out West on their 1st U.S. tour, to playing festivals throughout Europe, to onstage destruction of their instruments/gear, an encounter with Thom Yorke of Radiohead, to recording in the same famous studio used by Nirvana for their final LP (while former Husker Du drummer Grant Hart wandered in!)… this episode is packed with many fascinating stories of Michael’s music journey with Number One Cup! ¶ A special note that Michael & his wife

run their own independent record label called Sweet Pea Records, and all the music used to soundtrack this episode may be found & acquired through this site. Please also check out their Facebook page as well. Besides Number One Cup, many of the other music projects Michael has been part of can be found on Sweet Pea Records as well. Cheers! ¶ Also, please share the love and listen to some of our favorite podcasts at: Onsug, Static Radio, Insignificast, The Hustle, Rock Solid, The Not New Review, The Unblinking Ear, & The Pods & Sods Network.

Gunkcast 56: I Struggle Just To Say Your Name In Chicago: An Indie-Rock Memoir (Part 2) (August 2019) 1:24:51 [941] If you have been wondering where the podcast has been, Smidge has been trekking across Europe for much of this Summer (hinted at during a special intro here)! But now he's back and he brings you the long awaited follow-up episode to the all-out music extravaganza which began back in May. So if you did not hear Part #1, we highly recommend you go back and listen… because this second part hits the ground running right where we left off! ¶ Join Smidge as he continues his conversation with special guest Michael Lenzi (Chicago Indie-Rock musician and owner of Sweet Pea Records). While the first part episode focused on his musical journey with the band Number One Cup (from their rise, until their untimely end in the late 90's)… the story was not over for Michael by any means! While his former band was known for their catchy brand of Indie pop, Michael now desired to start something that had much more of a searing post-punk edge to it. So he joined forces again with former Number One Cup bandmate Seth Kim-Cohen & devised yet another brilliant Indie Rock project called The Fire Show. Michael tells how The Fire Show pushed their experimental & creative ambitions to the max over the course of three albums, during which they gained critical acclaim while never conforming to any music industry standard. ¶ Michael also chronicles his career following The Fire Show (from the early 2000's until the present) during which he has continued as a solo artist with a series of excellent albums released as Resplendent, LENZI, and Tough Solar. And now he has re-united once again with Seth Kim-Cohen for a brand new LP release as Nil/Resplendent. This episode is a must listen as we hear many fascinating stories and explore some extraordinary music! ¶ Also, please share the love and listen to some of our favorite podcasts at: Onsug, Static Radio, Insignificast, The Hustle, Rock Solid, & The Not New Review, The Unblinking Ear, & The Pods & Sods Network.

Gunkcast 57 – Humming Tunes On The Deck As The Ship Lay In Tatters: The Menthol Story (An Interview With Balthazar de Ley) (February 2020) 1:33:28 [947] Join Smidge as he brings in 2020 for Gunkcast with another all-out music extravaganza! Fot this one he meets with very special guest Balthazar de Ley in the studio. Balthazar was the frontman for (as some have referred to them) the greatest band you've never heard! Menthol came from the humble origins of a college town in Champaign-Urbana, IL. Originally know as Mother, they were part of the wave of bands on the scene following the explosion of grunge… when the likes Indie Rock, punk, & shoegaze all were finding a home together under the umbrella of "Alt Rock." Balthazar relates a fascinating tale of how the very unlikely chance that his band's demo ended up on a record label executive's desk in LA changed everything for the band. Suddenly Menthol found themselves thrust into the spotlight! Signed to a major label they released their big budget debut LP as Menthol and were off on a whirlwind tour for a few years (supporting some big name bands from that era)! Then came time for their follow-up LP, and Menthol (who were by then evolving as a band) went into the studio and fully finished an album inspired largely by a retro 80's New Wave sound. Hear the unbelievable account of what happened next. We don't want to give away too much here… so you will just have to listen! ¶ This episode is packed with many cool & interesting tales of what Balthazar encountered on his music journey. From taking music lessons from one of the members of REO Speedwagon in his youth, to playing bass in the band Hum, developing crazy guitar tunings as his signature sound, playing at the legendary CBGB's in NYC and running into a big-name actor in quite the unlikely spot in the famous punk bar, & working for Billy Corgan to maintain the studio equipment that the Smashing Pumpkins were doing their best to destroy! And just how could a series of bizarre events & Courtney Love have had an impact on how things played out for Menthol in the end? Yes, you will just have to tune-in to this episode for all these details & much more! ¶ Balthazar later became a sound engineer, played in another band called La Scala, was a studio repair tech, and presently designs and builds custom guitar amps with his Chicago-based biz called Balthazar Audio Systems. Also, the BIG news here is that Menthol are reuniting on May 24th this year for a reunion show! To find more on Menthol online you can find their music on Discogs, Amazon, & iTunes. Also

check out a Facebook Page as well as and another really cool podcast a guy named Marc with a C did several years ago! Cheers! ¶ Also, please share the love and listen to some of our favorite podcasts at: Onsug, Static Radio, Insignificast, The Hustle, Rock Solid, The Not New Review, & The Real Congregation.

Gunkcast 58: Quarantine This! (An Interview With Pat Francis) (May 2020) 1:26:34 [950] Here it is folks… the podcast episode which truly almost didn't happen (between pandemics & remote recording technology disasters)! But we were able to pull it all together and present here for you a blast of Quarantine fun! ¶ Join Smidge as he welcomes special guest Pat Francis to the show for a very timely episode! Pat hosts one of Smidge's favorite weekly music podcasts called Rock Solid. Pat tells the tale of his humble start in a small town in PA, to his successful career touring around the country as a stand-up comedian, to finally rooting himself in L.A. and becoming a popular podcast host. ¶ Hear how his insistence on only interviewing music guests in person have led to such things as trekking to Stewart Copeland's house, having the likes of Greg Kihn & Wang Chung come and jam at his podcast studio, how he made 3 legendary musicians cry (in his "Oprah" interview moments!), dealing with Rick Springfield's horrible handlers, witnessing the down-to-earth coolness of the "Red Rocker"… yes, many fascinating stories abound here! ¶ Also focused on is our current pandemic situation and how it is affecting the music scene on a global scale. Why do we really need new music more than ever right now? Just how are bands going to navigate the current scene when they are not able to play shows or tour for the foreseeable future? Why will Pat not invite Smidge to his house?? All the answers to these questions and much more are to be found here! ¶ Finally, Pat gives some valuable tips for people thinking of starting there own podcasts and Smidge debuts a very timely new song from his current band The GMO's! Simply put… this episode has it all folks! Cheers… and stay safe!! ¶ Also, please share the love and listen to some of our favorite podcasts at: Onsug, Static Radio, Insignificast, The Hustle, Rock Solid, The Not New Review, & The Pods & Sods Network.

Gunkcast 59: Shake Down All The Stars: An Interview With The Poster Children (Part 1) (October 2020) 1:36:00 [955] Join Smidge as he welcomes very special guests Rick Valentin & Rose Marshack to the show. They are the husband & wife team who are the core of the legendary Indie Rock band the Poster Children! Hear the story of their band which started on the local college scene of Champaign-Urbana (Illinois) in the mid-to late 80's. From the beginning they made it their goal to write & record the music they are passionate about and to play shows. They strived for longevity and not to fall victim to the corporate music machine which started snatching bands up (especially during the Grunge/Alt Rock explosion of the 90's). The tragedy was that many of those bands had their brief moment in the sun only to be unceremoniously dumped & forgotten. But by staying true to their music & figuring out how to survive making a living at it, Poster Children have weathered the (at many times turbulent) music scene over the course of 3 decades! ¶ So tune-in for the first part of our conversation with Rick and Rose. Many fascinating stories abound in this interview and you are in for a real treat here (especially if you are any kind of music fan)! We will be back with the second part of this interview very shortly! ¶ Also, please share the love and listen to some of our favorite podcasts at: Onsug, Static Radio, Insignificast, The Hustle, Rock Solid, The Not New Review, & Radio Zero.

Gunkcast 60: Shake Down All The Stars: An Interview With The Poster Children (Part 2) (October 2020) 1:34:25 [955] Join Smidge as he concludes his big two-part interview with Rick Valentin & Rose Marshack of the legendary Indie Rock band the Poster Children! [Stay tuned for a full detailed episode description….]. ¶ Also, please share the love and listen to some of our favorite podcasts at: Onsug, Static Radio, Insignificast, The Hustle, Rock Solid, The Not New Review, & Radio Zero.

Gunkcast 61: Superspreader, Cringecast, & Roadshow 3 (Part 1) (August 2021) 43:46 [965] In case you were wondering where the podcast has been, we are here to tell you that rumors of it's demise have been greatly exaggerated! That's right, Gunkcast is back for 2021 with an old school style rollicking road adventure for the show! Join Smidge and his two sons as they trek from Chicago back East to Washington D.C. & through to NYC. From the turnpikes of PA, to Gettysburg, to the nation's capital, side journeys to Baltimore & Philadelphia, & finally NYC! This episode has it all! ¶ Some random teaser notes for this episode: old school GPS technology still works, the turnpike tunnels of PA, Smidge's sons re-brand his podcast, Gettysburg & finding the abandoned

(zombie apocalypse) Eisenhower house, the big D.C. tour, Arlington Cemetery, Fort McHenry, the "Rocky Steps" in Philadelphia (& not seeing the Liberty Bell), the big NYC tour, Port Authority, Times Square, the Soup Nazi, Central Park, Lennon/Strawberry Fields, Rockefeller Center, the Staten Island Ferry, Uptown vs. Downtown, giant underground mall, & the emotionally overwhelming 911 Memorial. So much happened during this eventful road expedition that we are making this a two-part episode (for which the 2nd part includes a BIG surprise meetup)! ¶ Also to note, Smidge's current band The GMO's provide the soundtrack to this episode for your quality music entertainment! Featured are tracks from their latest 2021 e.p. called Superspreader (as well as bonus studio outtakes and live performances)! Further musical inclusions are classic & well-placed snippets from indie bands The Pulsars & Skanatra. ¶ Also, please share the love and listen to some of our favorite podcasts at: Onsug, Static Radio, The Hustle, & Rock Solid. A special intro tribute was done in this episode to the legacy of legendary podcaster Sam (from Insignificast & The Not New Review podcasts). He also is remembered and discussed extensively in a Static Radio episode done earlier this year (for which a group of us podcasters convened to take part in)… Farewell Sam.

Gunkcast 62: In The Fish 4 & Roadshow 3 (Part 2) (August-September 2021) 2:17:48 [967] We know everyone's been waiting and asking themselves the question: "Do we still know what Smidge did last Summer?" Ok, ok… that actually is the alternate title for this episode. But the point is we are back with the BIG conclusion of our recent travel extravaganza for the podcast! And what better way to conclude than with an even BIGGER meetup that happened on the streets of NYC? ¶ So join Smidge and sons as they meetup with two legendary podcasters here for a day spent trekking around NYC. Utilizing the likes of trams, trains, and ferries… this was a day filled with adventure that took the group from Times Square, to Roosevelt Island, to the South Street Seaport areas around NYC. Along with seeing the diversity of fascinating & historic sites, we also have much great conversation here (heavy on a plethora of pop culture themes). Simply put, this episode has it all! ¶ As with the first part episode, this one is also soundtracked by one of Smidge's current bands. Invisible Sun (which is a tribute to the music of The Police) is captured here both in the studio and live in performance for your quality musical entertainment! ¶ Also, please share the love and listen to some of our favorite podcasts at: Onsug, Static Radio, The Hustle, & Rock Solid.

PriorCaster – Frank Nora (10/24/21) 46:17 [967] Welcome a new show by Bob LeMent of Static Radio and Morning Commute. PriorCaster seeks to document the people who were the pioneers of audio on the internet. ¶ Our first PriorCaster is Frank Edward Nora. I have been in contact with Frank for over 20 years. He has been creating audio since a child and took to the new world of digital audio as soon as he could back in 1997 with his first foray, Blufftoons. ¶ Check out all his creations bridging the 20th and 21st centuries at his website theovernightscape.com. Be swept into a world that expands from childhood dabbling into mind expanding monologues delivered on the bustling streets of New York City. With over 1800 shows and counting, it is a cornucopia of audio from a one of a kind perspective.

PriorCaster – Scott Baker (11/5/21) 1:11:38 [968] PriorCaster, by Bob LeMent of Static Radio and Morning Commute, seeks to document the people who were the pioneers of audio on the internet. ¶ Scott Baker jumped into the world of internet audio right out of college and paid his dues at VStream digitizing content, both audio and video. He clawed his way up the ranks and hopped companies to be a producer for Boston.com at the advent of internet audiovisual content. ¶ You can hear him now via his latest adventure in online audio at artcrime.blog where he delves deep into a little known area of the crime genre, where artistic talent meets the underworld. ¶ artcrime.blog ¶ Scott Baker ¶ Host – artcrime ¶ Came from the lower decks of internet audio capture ¶ Hosted shows on StreamingMedia.com and traveled the world ¶ Currently heard on The artcrime.blog

PriorCaster – Sir John Hargrave (11/12/21) 1:11:38 [968] PriorCaster, by Bob LeMent of Static Radio and Morning Commute, seeks to document the people who were the pioneers of audio on the internet. ¶ The world was introduced to the comedic writings of Sir John Hargrave at Zug.com but his daily show Computer Stew was where he cut his hosting chops. ¶ He is all grown up now and running his company MediaShower.com, writing books, giving interviews on blockchain technology and investing advice. ¶ BitcoinMarketJournal ¶ Sir John Hargrave ¶ Host – Author – Business Person ¶ Pioneer for daily video on the internet ¶ Hosted Computer Stew at ZDNet ¶ Author of several books including "Prank the Monkey" and "MindHacking"

PriorCaster – C Peter Clough (12/16/21) 41:56 [969] PriorCaster, by Bob LeMent of Static Radio and Morning Commute, seeks to document the people who were the pioneers of audio on the internet. ¶ C Peter Clough started in audio media, via an 8-track and cassette tape sneaker-net operation back in the days of zines and no internet. ¶ His professional experience took him to radio and then onto the internet with his audio creations. Life got in the way and he needed to earn a living, but was lucky enough to land jobs in the earliest online marketing gigs of the day. ¶ The Independent Podcast Alliance ¶ C Peter Clough ¶ Founder at The Independent Podcast Alliance ¶ Sneaker-Net aficianado ¶ Online marketing pioneer ¶ Founder of the Independent Podcast Alliance

PriorCaster – Miles Tidal (1/9/22) 54:10 [970] PriorCaster, by Bob LeMent of Static Radio and Morning Commute, seeks to document the people who were the pioneers of audio on the internet. ¶ Miles Tidal is a reluctant internet radio pioneer. He joined his co-host Bob LeMent on their internet radio ride, with little to no technical knowledge. He just thought it would be fun. ¶ He dabbled in radio during college at Southern Illinois University at Carbondale and was asked to continue his role as co-host once graduated on StaticRadio.com. His day job has no technical or internet connections, other than what any job has now a days. He just enjoys telling funny stories. ¶ Static Radio ¶ Blue Lips ¶ Miles Tidal ¶ Founder and Co-host of StaticRadio.com ¶ Reluctant Internet Radio Pioneer ¶ Social Media Novice ¶ All Around Good Guy

PriorCaster – PQ Ribber (11/15/22) 32:08 [983] PriorCaster, by Bob LeMent of Static Radio and Morning Commute, seeks to document the people who were the pioneers of audio on the internet. ¶ PQ Ribber has a long history of creative merry-making, from audio to art, books to bands, PQ has given a creative spin to whatever interests him. ¶ Having roots on "real" (terrestrial) radio, PQ takes that knowledge and puts it to good use on The Overnightscape Central each week, as he shepherds the listener through various other voices as they expound on the topic du jour. ¶ He even protects the earth from outer space wackiness on the Quake Reversal Satellite. While strumming a tune with one of his various bands. ¶ The Overnightscape Underground ¶ Overnightscape Central ¶ Various other projects ¶ PQ Ribber ¶ Host, guitarist, bon vivant and all around good guy ¶ Artistic Dynamo ¶ Podcast Aficionado ¶ Sometime Busker

PriorCaster – James O'Brien (1/27/23) 1:40:09 [983] PriorCaster, by Bob LeMent of Static Radio and Morning Commute, seeks to document the people who were the pioneers of audio on the internet. ¶ James O'Brien has worn many hats, but I think his best one is independent media producer. He embodies the passion and drive that anyone who wants to produce their own media should look up to. ¶ Starting with Rant Radio, most likely the first 24/7 independent streaming radio station back in January 1999, onto Rant TV which did the same for video in 2003. His projects and passions for internet media were fierce and incredibly independent. ¶ As James has moved through his hobby of creating media, it has led to a kind of dream gig as an independent filmmaker, where he still explores the world for projects that fit his interests. ¶ RantMedia.ca ¶ IMDB Page ¶ Zero Page Homebrew ¶ James O'Brien ¶ Host, singer, producer, atari specialist and independent thinker. ¶ Rant Media King ¶ Independent Filmmaker ¶ Atari Aficionado

PriorCaster – Chad Bowers (2/4/23) 56:55 [983] PriorCaster, by Bob LeMent of Static Radio and Morning Commute, seeks to document the people who were the pioneers of audio on the internet. ¶ Chad Bowers has

taken the road less traveled on his lifelong journey to find interesting things to do and survive on. He has sold cell phones and ended up creating a website, he's directed anime films and found love, he's worked in terrestrial radio and found the internet. All these things have added up to a wild and interesting career of internet oddities. ¶ Chad was working in terrestrial radio when he fell into the task of making a website for the station during the Geocities era of internet content. This foray into creating something new and different made an impact on him. ¶ Selling cell phones though was probably the most creative job he could have had at the time, even though saying it doesn't seem right. It was through cell phone sales that he came up with his personal brand of internet strangeness, TITFOS, or The Incredible True Facts of Space. This houses his worse fears and craziest desires and has outlasted many others to be a definite stop for the world-weary and tormented internet traveler. ¶ TITFOS ¶ ONSUG.com ¶ Funimation ¶ Chad Bowers ¶ Monorail pilot, Writer of the strange and unusual, epic road tripper, and southern gentleman. ¶ Director ¶ Narrator ¶ Diet Coke Enthusiast

Join me and my friend, Maestro Tracy Glenn Murray, as we attend "Star Wars in Concert" at the Izod Center at the Meadowlands Sports Complex in East Rutherford, New Jersey. I recorded our commentary immediately after the show, and we met up with our friend P Jay and his sons, then I called my mother to thank her for getting us the tickets – none of which you'll hear, because I inadvertently deleted all of that! But you'll hear us talk about the concert on our way back to nearby Lyndhurst, New Jersey where I had to pick up my son.

The Brian Jude Show #13 - Oops I Did It Again (11/14/09) 28:13 [631]

Description from brianjudeshow.blogspot.com: After the last episode, I vowed never to leave the house without my iPod microphone, just in case I had the opportunity to record. Well, today I did remember to take it with me - but I left it at The Unitarian Universalist Congregation at Montclair (where I was heading later that night) and did NOT have it with me as once again I left my acting gig at Kaplan Medical even earlier than I did the other day! Too bad, because the trip via the Newark Light Rail and NJ Transit Bus #28 would have made for an excellent Rampler-esque episode! I will, however, offer the episode to Frank Nora for release on his Overnightscape Underground. Plugs include KillingBoxx.com (two films I produced made it to their Top 13 list!), The Fave and Natalie Gelman. Attribution: by Brian Jude - more info at brianjudeshow.blogspot.com and onsug.com

The Brian Jude Show #17 - There Ain't No Secrets in Jonestown (12/8/09) 56:16 [631]

Description from brianjudeshow.blogspot.com: Join me on my commute from New Jersey to Brooklyn for the shooting of the final scene of "The Jonestown Defense," followed by another trip to Shop Rite. I'll catch you up on all of the projects I've been working on, plus take you a little deeper into my personal situation, dealing with a bit of "seasonal depression" and the "Secret" I'm starting to learn about that might help me bring it all around. The Brian Jude Show: NON-SUG Bundle #3 (Nov. - Dec. 2009) 3:08:12 [631]

Just in time for Pagan Thanksgiving, here's the next in my series of episodes that were previously unreleased on the Overnightscape Underground channel. This was a very transformative period in my life. Check out the moment during which I realized and declare that I want to start working on a feature film, how my mentality changes after I discovered "The Secret," and my thoughts on 2010 being the Year of Abundance! But of course, it all starts with gratitude...

Also look for the supplemental video episode to follow – BJS016a: The Last Days of Frank Whyte (a short film with intro)!

This volume includes:
- BJS015: Rosencrantz and Guildenstern Are Thankful Pagans (Originally released 11/23/09)
If you listened to BJS002, you'll remember I picked up props for T. Schreiber Studios' production of "Rosencrantz and Guildenstern are Dead." Yesterday Melanie & I saw the show, and today I returned the props back to Anything But Costumes i Flemington, New Jersey. Later on, I attended the 19th annual Pagan Thanksgiving, hosted by two former college classmates – and Student Government Association presidents – of mine, Tony Susco and James "Appetite" Cotter.
- BJS016: Q&A at the Old Bridge Filmmakers Showcase (Originally released 11/28/09)
Three local New Jersey filmmakers participate in a Q&A session at the first installment of the Old Bridge Filmmakers Showcase at the Old Bridge Public Library. Hosted by Matt Helme, the filmmakers discuss their short films presented earlier in the afternoon. Marla Cukor discusses "The Masquerade" (directed by Natalia Garcia), a mystery thriller which she wrote, and which stars Christopher Masterson of TV's "Malcolm in the Middle." Jamal Hall talks about his short film "Strivin'," a stylistic story about an inner city kid who dreams of becoming a dancer while coping with an abusive father. I ramble on about "The Last Days of Frank Whyte," which I co-wrote, directed

and produced with the film's star Franklin Correa, and which tells the tale of a drug dealer's downward spiral of life. (If you haven't already, check out BJS016a – my first video episode which contains my film in its entirety.)
- BJS018: Crazy Nights (Originally released 12/14/09)
Join me as I talk about the Festival of Lights known as Hanukkah – the story behind it, our family's observance of it and what it means to me as a non-Jew. I also discuss my Paramount Pictures hat given to me by Joe "Joey Pants" Pantoliano, Jacob's "bad witch/good witch" dream, starting to live with "The Secret" and the controversy over "Happy Holidays." Music by the Unitarian Universalist Congregation at Montclair Choir.
- BJS019: I'll Be Elvish For Solstice (Originally released 12/21/09)
Listen as I join fellow members of the Unitarian Universalist Congregation at Montclair as we bring toys and books to the children of the Newton Street School in Newark, NJ, assisting Santa (as played by congregation member and television actor Andre Braugher). I interview fellow member Courtney Allen on our seven-year relationship with the school, and discuss the winter solstice, accepting the benefits of abundance, and New Moon rituals. Concludes with music by Mr. Steve and Miss Katie (used with permission).
- BJS020: Reflections on 2009 (Originally released 12/31/09)
I spend a few moments on the morning of New Year's Eve reflecting on the positive moments of 2009, and why it's critical to be grateful for the things we have in our life. I also discuss Facebook's "My Year in Photos" application, the Facebook group "I Claim 2010 As the Year of Abundance," and how the principals of Kwanzaa can apply to non-African-Americans as well.

In this episode I discuss the mysterious "27" phenomenon associated with "Weird Al," as well as my family's three-day trip to Virginia last week. I also announce officially that I am writing a screenplay based on the life of Morris E. Goodman, a.k.a. "The Miracle Man," (as seen in "The Secret"), and describe my meeting with him, which was one of the catalysts for my trip. I also remark how things are ironically happening about an hour earlier on this, the day before Daylight Savings Time begins. Talked about my involvement in the American Cancer Society’s Relay for Life, held last week at Montclair State University, on a team led by Cindi Merklee, plus the screening of a short film I produced, “The Collector’s Item,” and Q&A with director Bill Clemis. After a 15-year hiatus, I return to my old college radio station at Montclair State University with my former co-host, the lovely & talented Jill Knapp as we relive old times and talk about things we’re up to now. We discuss the history of The Cellular Toaster, how it evolved from the show Propaganda From Hell (and we take calls from former hosts Jim From Hell and Alter-Ego Pete), We Might Be Giants Too, Ralph the Word Guy, Jill’s band: Industrial Jazz Group, my work with Digital Cafe Tour and Friday’s Child, The Dead Milkmen (Bring Out Your Dead!), The Joe Trainor Trio, They Might Be Giants, Frank Zappa, “Weird Al” Yankovic, Fathom and more! Tremendous thanks to Jeff Knapp for being resourceful enough to record this, while my efforts to do so failed miserably! (Recorded Monday, May 10, 2010, 3pm-5pm.)

Brian Jude Show 32: The Real Neal - with guest host Neal from Ireland (6/9/10) 25:06 [631]

Description from brianjudeshow.blogspot.com:

Sorry that there's not been many updates from me lately, but, well, if you've been listening to my show lately, you'll know why! If not, my friend and guest host Neal from Ireland will explain it all to you! (Thank you, Neal, for covering me!) Neal talks about his "real" speaking voice, his "uniquely nonsensical improvised talk show" Into Your Head, being a cranky old man before his time, stopping uninvited sales calls at the door, gypsies, catering to the illiterate, the inexplicable overuse of the word "is," a scary neighborhood dog, Barack Obama, "The Secret" and positive thinking, cats, crap vs. carp. Neal's help in this endeavor is in return for my covering a recent episode of his show.

SPECIAL ANNOUNCEMENT: I and my wife will be directing and performing in A.R. Gurney's "The Dinning Room" at the Unitarian Universalist Congregation at Montclair, 67 Church Street, Montclair, New Jersey, on Saturday, June 12 at 8pm, Sunday June 13 at 3pm, and Satruday June 19 at 8pm. Suggested donation is $10, no advanced tickets will be sold. Hope you can make it!

The Brian Jude Show #33: BD (ONSUG Version) 39:10 [631]

Brian's show notes: I was going to call this episode "Between Doors," as several "doors" in my life have recently closed, and I'm awaiting some new ones to open. However, the day ended up being a "Beach Day," which was another appropriate title! So "BD" it is! My son Jacob & I went to the city of my birth, Long Branch, New Jersey, where my mother Nancy lives, and the three of us went to the beach. We also went to my other hometown, Howell, New Jersey, twice, visiting my friends Sabrina and Lynda! "Beach Day" topics include a bit of my personal history, "pool people" vs. "beach people," my grandparents' now abandoned buildings, my Mom's poodle Emily, mussels & my seafood allergies, The Mystery of Jetties, playgrounds, Jacob's report card & concert performance, airplane advertisements, Amy's Omelette House, helping my mom with computer stuff. "Between Doors" topics include finishing substitute teaching for the school year, the final performances of "The Dining Room," and finishing the first draft of the screenplay of "The Miracle Man" (NOTE: If you would like to read my draft, and provide feedback, e-mail me at brianjude27@gmail.com!), upcoming

jobs counting people and possibly demonstrating 3D TV's. Words of Wisdom: Be grateful for the best parts of your day, every day, and resolve to make each day the best day it can be! Attribution: by Brian Jude - more info at brianjudeshow.blogspot.com and onsug.com

The Brian Jude Show #45: Back to the Frajer (10/30/10) 30:02 [631]

Last week was the 25th anniversary of the date in which Marty McFly (well, the dog Einstein, actually) became the first time traveler in "Back to the Future." Melanie & I saw the remastered film in the theatre, and it still stands up after all these years. Makes me think about how our own realities can be shifted by simply putting your mind to it. A true example of that is my friend Jen Ponton, a most talented actress whose recent cameo/debut on NBC's "30 Rock" just aired, including a scene that is destined to be one of the series' most memorable moments. The Brian Jude Show – Ep. 60: Resort Town Gigs (6/29/11) 31:42 [631]

Recorded June 18 & 26, 2011.

It’s been a while – been keeping really busy between taking care of my wife, who is currently on bed rest, the boy, who just finished Kindergarten, a busy work schedule, “The Miracle Man” progress and other projects. I didn’t even have time to do post production until a few days after recording this…

In this episode, I take you along on two interesting gigs – first a long bus ride up to Lake George, NY – a great resort town where I march in a huge Fireman’s convention parade with the Tappan Zee Bridgemen, then a long drive south to Wildwood, NJ where I officiated a wedding. Topics include multiple units of the band, Six Flags Great Escape, marginal placenta previa, changing the baby’s “due” date, Jacob Celebrity Fashion Show and the Boys & Girl’s Club, camping in Wildwood in 1989,

had a video gig in Queens, drove through 4 out of the 5 boroughs of New York City, scouting the beach, Ontario license plates in Wildwood, enormous Ferris wheel, The Skyscraper, don't go to Seaside, finding a fenced pathway up a sand dune, Jacob's iPod Touch takes better pictures than my phone, waiting to hear back from a famous actor for "The Miracle Man," putting investment documents together, a brief review of the latest CD from "Weird Al" Yankovic, "Alpocalypse," I may start a new regularly published podcast on the Law of Attraction.

The Brian Jude Show #64: SECOND ANNIVERSARY EPISODE – Inexplicable Overpasses (9/26/11) 40:31 [631]

Recorded September 25, 2011.

It's been two years since I started my "rampling," and I'm ready to start Year Three!

I've been exceptionally busy lately, working a lot at my acting gig at Kaplan, video shoots, parades, substitute teaching and officiating weddings. Here I drive down the New Jersey Turnpike on my way to a wedding, where I have noticed a major-scale construction project, which includes about 7 overpasses that don't seem to lead to anything – mostly into woods and housing developments, with no road at either end. I worked in my son's school, my wife went back to work. Crazy things have been happening lately – my son lost his hearing aid, my iPod went on the fritz, the car battery died… almost like Mercury Retrograde, or is it because my energy is off from being so exhausted? Long time Friends of ONSUG Brandon General and JB Reed have a brand new music project – The Human Orchestra – listen to 5 of their tracks from their upcoming EP due out soon! Includes the track, "On With The Show," courtesy of Brandon General.

The Brian Jude Show #67: Little Shop of Hanukkah (12/16/2011) 43:29 [631]

Recorded December 16, 2011.

My son Jacob's latest obsession has been "Little Shop of Horrors" – the Off Broadway soundtrack, the movie, different performance clips on YouTube, you name it! So my wife Melanie and I surprised him with an early Hanukkah gift – we took him to the Repertory Company High School for the Theatre Arts, where they did a performance of the show! When the cast heard that we came in from Passiac to see it just because he loves the show, they had the director bring us backstage so they could meet him! Listen along to our adventure – one he'll treasure for the rest of his life! (Includes a couple vintage TV commercials from the original Broadway show!)

Manifesting Mastermind – Episode 2 (3/26/12) 46:19 [631]

Jen, Brian, Alicia & Kay meet at Chit Chat Diner in Hackensack, NJ to discuss the progress on the goals they are manifesting! Jen's getting recognized for her work, Alicia won concert tickets, is making steps toward getting a deal with her publisher, and made a new connection with children's television, Kay's house hunting and discovering the universe sometimes gives you more of a challenge than you expect, and Brian's a step closer to getting a lead for "The Miracle Man." Tip of the week: When you're not feeling in alignment with the universe, say, "I love you and I'm thankful that you're alive" to everyone who comes into your life – in your mind, or aloud if you dare! Manifesting Mastermind – Episode 3 (4/2/12) 37:13 [631]

Jen, Brian, Alicia & Kay meet at The Tick Tock Diner in Clifton, NJ for their weekly discussion on their progress on the goals they are manifesting. Kay auditioned for Stephen Sondheim's "Assassins" and opted to let go of fears and anxiety and, to her surprise, got cast! Alicia & her songwriting partner had a handful of great meetings and events, lining things up for when Mercury Retrograde ends. Jen's been doing her Bavinas and other spiritual practices and is been living in happiness simply for the moment, without attachment to any outcome. Brian has been able to manifest getting work done on "The Miracle Man" while working one of his day jobs as a substitute teacher, and while he didn't win the record-breaking lottery, he bought tickets without resistance and expects a payoff in some other way. What's the difference between "gut feelings" and resistance?

Manifesting Mastermind – Episode 4 (4/9/12) 44:57 [631]

Jen, Brian, Alicia & Kay return to the Chit Chat Diner in Hackensack, NJ for their weekly discussion on their progress on the goals they are manifesting. Jen is meeting more like-minded people who are helping her with her career. Kay attracted herself a new home! But is it the same one Alicia was trying to manifest? Brian has been dealing with some very challenging situations and has been trying to figure out the best ways to handle them positively so as to not repel what he is trying to manifest. Alicia's glad Mercury Retrograde is over, as it may have had an affect regarding a shady deal with a local car dealership, and money is coming her way!

What are dreams trying to tell us?

Tips this week: View your challenges as opportunities to grow, or understand that perhaps the universe may have something better in store for you. Have faith that all is well! FAITH = "Fully Allow It To Happen" (according to Jim Phillips). Always deal with people on their level – everyone is trying to do their best, regardless of the result.

Manifesting Mastermind – Episode 5 (4/16/12) 48:50 [631]

A very Muppety episode! Jen, Brian, Alicia & Kay try out Legends Diner in Secaucus, NJ to discuss Muppets, what they're manifesting, manifesting Muppets, and more and more Muppets. Jen had an opportunity to speak at her alma mater, Ramapo College, where she met the production coordinator for Sesame Street, who is now doing casting for the show! Jen may also be incorporating herself as an actress. Kay and her husband were able to see Jim Henson's Musical World at Carnegie Hall… twice! And they were able to meet some of their Muppeteer heros! Alicia may has some upcoming recording sessions with some great artists, plus car dealership fiasco is coming to a resolution. Brian got his business taxes done, and his other company's taxes are done much earlier, and he expects to manifest a tax rebate much sooner than anticipated, and after he completed his vision board, an opportunity for The Miracle Man appeared!

Jim Henson was such a great influence to our generation, and every generation that followed. He is the Law of Attraction personified! We have been discussing our love for the Muppets week after week, putting that energy out there… Could all four of us be working with Muppets in the future? The first step in using the Law of Attraction is to ask for what you want…

Tips this week: When you start to learn how to adopt the mindset that leads to manifesting things in your life, the universe often "tests" you to see how well you are learning the lessons, much like the

way Yoda tests Luke's patience in The Empire Strikes Back.

[Maniacal laugh…]

Manifesting Mastermind – Episode 6 (4/23/12) 53:11 [631]

Welcome listeners of The Overnightscape Underground, and thanks to Frank Edward Nora for suggesting we be a part of his channel as well!

This week Jen, Brian & Kay return to Legends Diner in Secaucus, NJ to discuss what they're manifesting, and how they're doing it. Alicia could not make it, as she has manifested her new car, as well as a resolution to the problem with the dealer! Jen was able to bring her husband and her "geese" to the red carpet premiere of Jack and Diane at the Tribecca Film Festival, and was inspired to cut her hair for the first time since her teen years. Kay has been getting rid of old stuff in preparation for her move to Hackensack. Brian completed his presentation and shooting schedule for The Miracle Man and stumbled across another fantastic potential source of funding for the film!

Tips this week: Purging of the old makes way for manifesting the new! What do you do when you're out of vibrational harmony with the universe? Do you "mute your strings," change your situation, or allow it to be?

Manifesting Mastermind – Episode 7 (4/30/12) 49:08 [631]

This week Jen, Brian, Alicia & Kay return to Legends Diner in Secaucus, NJ to discuss what they're manifesting, and how they're doing it. Playing the role of David is our "Fight Club" friend Melissa. Jen got booked on HBO's Boardwalk Empire. Kay's muppet now has a name – and a tail! Alicia did her own purging last week to make room for her step-son, who is now living with her. Brian finished the filmmakers' reel DVD and proposal for a grant to fund The Miracle Man and has been attracting the Namaste principle into his life in several ways.

Tips this week: Don't put negative thoughts such as rejection out there as your destiny. You deserve and have to be open to receive the inherent abundance in front of you. Vibroacoustics reveals scientific proof that thoughts produce sound waves that attract other sound waves to you.

Manifesting Mastermind – Episode 8 (5/7/12) 1:09:17 [631]

Jen, Brian, Alicia & Kay return to Legends Diner in Secaucus, NJ, along with our resident mime Melissa (a.k.a. Harpo), and introducing newcomer Matt Wilder to the show! (Looks like we're going to have to update our image to include his headshot!)

In our longest episode to date, this week we talk about the "miracles" we manifested, "Work Weeks" versus "Passion Weeks," being "on time, all the time," the Law of Attraction and kids, doing things with intention, more on the Namaste principle, letting go and allowing the universe to manifest itself to you, and thoughts and feelings and their impact on actions.

Manifesting Mastermind – Episode 9 (5/17/12) 1:12:31 [631]

Brian & Kay returned to Legends Diner in Secaucus, NJ… but ended up meeting Jen, Alicia, Matt & Melissa at Tick Tock Diner in Clifton, NJ. Apparently Brian wanted to manifest a salad bar, Alicia wanted to manifest an alcoholic beverage, and the universe responded in kind!

In this episode, we discuss what to do when negativity shows up in your life, if things can manifest instantly and how to change negative thoughts into positive thoughts.

WE ARE CREATING A CHILDREN'S TELEVISION SHOW! Using our talents for acting, music, and film/video production, and combined with passion for all things positive as well as puppetry, we have been planning a "secret" project designed to teach positive thinking, visualization, and other Law of Attraction techniques to kids! Perhaps as a pilot to pitch to a television network, or as a stand-alone DVD… we're not quite sure yet, but we are planning this now! YOU CAN HELP MAKE THIS HAPPEN! Brian's company Dragon Rider Productions has been entered into Chase's Mission: Small Business program for a chance to win a $250K grant which will help fund this new project, as well as Brian's film The Miracle Man! Manifesting Mastermind – Episode 10 (5/29/12) 1:00:03 [631]

Jen, Brian, Alicia, Kay, Matt & Melissa return to Legends Diner in Secaucus, NJ, once again with Brian's son David. In this episode, we discuss changing your thoughts from lack to abundance, how the universe/your higher self has already had your goal set for you since before you were born, being in your truth, how much of our resistance comes from the subconscious level and the importance of keeping still and being happy.

Tips of the Week: Keep a Mental Bank log for everything you do that helps you further your goals, and mentally "bill" for that time, including meetings, social events, etc. and keep track of how much money you "earn" for such time. Also, keep a symbol for the universe to remind you that you're right on track.

Manifesting Mastermind - Episode 11 (6/5/12) 58:39 [631]

Jen, Brian, Alicia, Kay, Matt & Melissa return to Chit Chat Diner in Hackensack, NJ. Kay and Jen are

manifesting muppets galore and much more! Alicia, Brian and Matt have been experiencing a mixture of blessings and apparent challenges and have been looking for the lessons within them.

As Melissa brought up a few weeks ago, Dr. Masaru Emoto conducted experiments with frozen water crystals and positive and negative words. (See link for video below.) If written words can do this to water, what do our positive and negative thoughts to do us? If you're experiencing too many challenges in a situation, do you need to remove yourself from that situation? Do you need to experience the same challenges over and over again like in the movie "Groundhog Day" in order to learn a lesson? Can you keep your own energy when confronted with a seemingly negative person? How do you react to a negative situation in a positive way and move forward? What is the distinction between feeling negative emotions and expressing negative emotions?

Tips of the Week: Live in your truth. Ask the right questions to the right people when you are in need. Ask G-d/The Universe questions, and be still and listen for the answers.

Manifesting Mastermind - Episode 12 (6/26/12) 1:00:31 [631]

After a three-week break, we have returned in a bit of a new way. Kay & Alicia join Brian in his living

room, while "Cyber" Matt Skypes himself in! (Jen & Melissa could not make it this week - but Happy Jen Day!)

Kay has been in the final stages of her move and getting ready to get things set up for more puppet fun! Matt is in the process of manifesting a move into New York City while many summer hosting gigs are popping up. Lili is currently homele... er... "on tour," as she has discovered she was not living in her truth with her recent relationship. She's been adjusting her Bhavanas accordingly, and seeing some great things come into fruition as a result! Brian's in summer mode with his boys, as the school year is over and his "Fight Club" membership is currently on hold, allowing him much more time to focus on The Miracle Man, and things have finally been jump-started after a long lull!

Tips of the week: When things are crazy, be sure to take time to do what has to be done, even if it's just a small amount of time. Making daily lists can help you prioritize what needs to be done right away, and what can be set aside for later. Set goals that are realistic enough so that they resonate with good feelings - sometimes setting too high a goal creates fear and negative feelings, which create resistance. If you're not feeling goodness and joy, you are out of alignment with the goals set by your higher self. When you fear something, change the word "fear" to "love!"

Manifesting Mastermind – Episode 13 (7/5/12) 47:43 [631]

Kay, Alicia, Matt & Melissa once again join Brian in his living room. (Jen bought a one-way ticket to L.A. and is making magic happen for her! We hope she will Skype in for an episode soon if she stays out there longer!)

Kay is finally out of her old apartment and is working the puppety connections. Matt's gigs are going well and keeping him busy as he sets his sights on living in NYC. Brian has been busy preparing for David's first birthday, while making some significant moves in casting for The Miracle Man. The Alicia Angel "Tour" is going well, as she enjoyed a recording session for one of the songs she wrote for Dora the Explorer and is getting ready for a retreat to Idaho next week with the great Brandie Hinen.

Tip of the week: The great Dr. Joe Vitale, among many things, teaches the practice of Ho'oponopono, a Hawaiian practice of "clearing and cleaning" through reconciliation and forgiveness by uttering the mantra, "I'm sorry. Please forgive me. Thank you. I love you." or any variation thereof. The concept behind it is that we are responsible for everything that shows up in our lives, including negative situations and negative people, and when they do show up, we need to heal the part of ourselves that attracted the negative people and situations.

Success Odyssey – Ep. 4: What is the Law of Abundance? (4/4/12) 24:29 [631]

The Law of Abundance is a principle that all that we need exists in this universe, and that there is no lack of anything for anyone. If we are experiencing lack, it is simply because our own perception has made it so.

Success Odyssey – Ep. 5: Mentor Sessions: Vision Boards (4/13/12) 49:05 [631]

Before the launch of the Inspirational Internet Radio Network, I asked my friends Jen Ponton & Alicia Angel to help me create a vision board, and thought it would make great material for a podcast! Turned out to be so good, we kept meeting week after week, added Kay Koch to the mix and created Manifesting Mastermind!

Tips they shared include making a focused goal-oriented board vs. an all-inclusive style board, sources from inspirational magazines such as O & financial magazines such as Money, lifestyle magazines such as Condé Nast Traveler, images of people whose career paths you want to emulate, things you want to attract in your life, etc. Jen explains how her goal-oriented board in 2011 helped her manifest exactly the things she intended to attract. Alicia explains how her life is already changing after making her 2012 vision board.

Afterward, I describe my vision board for 2012, as seen in the show art above. (Click on it to see a bigger version.)

Success Odyssey – Ep. 6: My Five Reiki Principles (4/18/12) 18:23 [631]

As a Reiki Master, I have learned its founder Dr. Mikao Usui’s Five Reiki Principles, and made them my daily mantra:

Just for today, I will not be angry.
Just for today, I will not worry.
Just for today, I will be grateful.
Just for today, I will do my work honestly.
Just for today, I will be kind to every living thing.

After studying the Law of Attraction, and particularly the teachings of Abraham-Hicks, and understanding the idea that you want to focus on positive ideas instead of negative ones, and focus your thoughts in a way that makes your goals and desires present, rather than in the future, I began to modify them in a way in which I am more comfortable:

Just for today, I am choosing to focus on thoughts that manifest happiness.
Just for today, I am open to and allowing myself to receive all of the abundance of joy and goodness in the universe that G-d has to offer.
Just for today, I give thanks for all that I am, all that I have, all that I am receiving and all that I am becoming.
Just for today, I am living in truth and clarity; each day I understand more and more about the true nature of All That Is.
Just for today, I honor and respect the divine nature in myself and in all others, and I act accordingly.

Success Odyssey – Ep. 7: K+(A*(T+F))=8 (5/2/12) 22:42 [631]

Dr. Rob Gilbert, who teaches Sports Psychology and Yoga at Montclair State University, started Success Hotline as a way to help motivate his students during the Spring semester of 1992. 20 years later, Dr. Gilbert is STILL recording a new message on Success Hotline, every single day! One of my favorite lessons of his is the equation K-A=0 – Knowledge minus Action equals NOTHING. But in analyzing the equation and incorporating principals of the Law of Attraction, I may have stumbled upon another equation…

Inspirational author Tom Ufert joins us today to discuss his book, Adversity Builds Character: An Inspirational True Life Story of Disability, Addiction and Acceptance. While coping with these three disabilities, Tom sought solace in what became addictions to alcohol, drugs and sex. After experiencing one close call too many, Tom finally put into practice what he knew all of his life – that he could let his adversities destroy his life, or enrich his life, and others' as well. Into Your Head 301: Thursday's breakfast Show - guest hosted by BRIAN JUDE! (6/3/10) 13:41 [801]

The original version of this episode cut off suddenly at the end. It was assumed by NEAL to be a deliberate and excellent joke, but the truth is even better. It was not the end. Not BRIAN's fault - An Internet problem at the Irish end appears to have conspired.

Here now is the full version of Thursday's Into Your Head Temporarily Almost Daily Breakfast Show, Guest hosted and produced by BRIAN JUDE.

Some of you know BRIAN from his works, including THE BRIAN JUDE SHOW at BRIANJUDESHOW.blogspot.com and the eponymous @BRIANJUDE Twitter feed
---
BRIAN JUDE also acts, teaches, writes screens, makes movies, directs plays, is a bandmember who plays instruments properly, and was the first man ever to podcast from space. It is widely believe

that he does not know how to sleep.

BRIAN JUDE is standing in for NEAL today after volunteering to do Thursday's IYH at very short notice. Thanks BRIAN.

The Obtuse Angle

2005-2007
Hosted by Steve Dupont

"A man with one functional brain cell expounds upon life, liberty and the pursuit of coherence."

"Steve Dupont was known for his rants on the Obtuse Angle podcast. After publishing his debut novel Therein Lies the Problem in 2007, Steve left the literary world behind, returning to graduate school and ultimately becoming a Registered Dietitian/Nutritionist."

Steve Dupont, from Birmingham, Alabama, produced his podcast, The Obtuse Angle, from May 2005 to June 2007. After the show ended, Steve pursued a new career as a registered dietitian. You can still find him today at stevedupont.com

In those early days of podcasting, I was a fan of The Obtuse Angle, and Steve also listened to my show, The Overnightscape. We would mention each other's shows, send in comments and emails, and occasionally record audio for the other show.

A few months back, I thought of The Obtuse Angle and started looking to see if any of the episodes were preserved. I was immensely pleased to find that a near-complete archive had been posted to The Internet Archive by archivist "apphands" in December 2021. I found few early episodes which were missing, in another archive posted by archivist Sketch the Cow in March 2019. Then, using the Wayback Machine, I was able to build a full list of episodes, along with show notes. In the end, the archive was complete, except for four episodes. If anyone has copies of these episodes, let me know, and I will add them to the archive.

I contacted Steve Dupont, and he gave his blessing to this new collected archive of The Obtuse Angle.

The show fits in extremely well with the other shows here in Onsug Radio, and I am thrilled to preserve The Obtuse Angle for future generations.

FOR IMMEDIATE RELEASE May 18, 2005 New Podcast Exposes Perils of Brain Damage (Birmingham, Alabama) – The rapidly expanding universe of podcasting grew yet larger today – but not necessarily brighter – with the official launch of The Obtuse Angle, a soliloquy-based program hosted by failed writer/bootlegger Steve Dupont. “It’s a tremendous opportunity for me to … to leverage the sort of … you know what’s weird about leverage?” said Dupont. “Like in judo, a little tiny dude can flip a big huge dude over his back … Hey! You remember that TV show called Sidekicks? Where that little Chinese kid helped Buck Rogers fight crime with his martial arts prowess? That was [expletive deleted] awesome!” Known widely in fringe medical circles as the “Single-Celled Sensation,” because of his remarkable ability to function independently with only one brain cell, Steve Dupont has astounded neurologists for years with his vacuous, yet prolific, ramblings on everything from aardvarks to xenophobia (rarely does he discuss topics beginning with Y or Z, the one notable exception being yuletide cheer and other yuletide-related byproducts). “He demonstrates remarkably little knowledge or expertise in a vast number of arenas,” said Frederick Houthoffengarten, MD, who’s also the founder of The Steve Dupont Project, a medical task force assembled in 1973 to study this unprecedented neurological anomaly. “In spite of its disjointed and altogether illogical nature, Mr. Dupont’s level of cognition far exceeds what many of us ever expected. That is, from an individual whose IQ essentially mirrors that of a PEZ candy dispenser.” Having decided to launch 10 installments of The Obtuse Angle all at once, Dupont posted four longish shows instead and

called it a day. In the first episode, entitled “Colin Powell’s Penis,” Dupont shares a rather bizarre conspiracy theory pertaining to the former Secretary of State’s genitalia. In episode two, called “Hotel Room Hole-Up,” he locks himself in a posh Chicago hotel room only to pace frantically and babble on about fetuses, starfish and Jon Bon Jovi’s henchmen. Show number three, “Faux-Bachelor Beachcombing Bonanza,” takes us to the Florida panhandle, where Dupont goes for a long walk on the beach by himself, preoccupied with utopia, scurvy and teenage girls. Then, in show number four, “Full Throttle Stupidity” we bear witness to the mental regression brought on by whiskey and taurine-infused energy drink cocktails, including Dupont’s insistence that trees are not made out of wood, as commonly believed, but dirt. “There’s a real abundance of well-structured, professional, intelligent podcasts out there,” said Donovan Forte of Wired magazine. “And clearly, this isn’t one of them.” To experience The Obtuse Angle podcast, visit: http://obtuseangle.libsyn.com. Due to its caustic psychological effects, however, The National Institutes of Health (NIH) advises against this. # # #

The Obtuse Angle – Mango Madness (6/23/05) 28:33 Podcast 9 ½ – 13.1 MB / 28 min. The Obtuse Angle – Worldwide Excellence in Stupidity (8/11/05) 20:48 14.3 MB / 21 min. The Obtuse Angle – Slippery Slopes (8/15/05) 21:25 14.8 MB / 21 min. What starts out as a wild ride over choppy mental waters turns into a rather grounded clinic in phone mismanagement. The Obtuse Angle – TOA #42: No Horse Beating Allowed (12/14/05) 39:26 27.1 MB / 39 min. An audio incarnation of Porsley, memory metaphors, business clichees, beating live horses and play-by-play of Skinemax's blockbuster hit, Bikini Cave Girl, plus a sneak peak at Attention. Deficit. Disorder., the debut novel by my friend Brad Listi ... Unfinished thoughts include: 1) Machines creating art. What if ... I had a software program into which I could feed all my previous episodes, so it could "learn" the various techniques employed in post production. And then I could feed it raw recordings and have it produce shows indistinguishable from the manually produced shows. Would this be a lesser art form by virtue of automation? 2) The epicenter of girls who enjoy watching porn is, without question, Princeton University in New Jersey. Trust me on this one. 3) The conclusion to Bikini Cave Girl: Well, I didn't watch the whole thing, but I do know that both the male and female archeologists have sex with the Cave Girl, at different times, and the female archeologist has a steamy three-way with the Cave Girl and Cave Man. ¶ Direct download: Obtuse_Angle_42.mp3 ¶ Category: podcasts -- posted at: 7:50 PM

The Obtuse Angle – TOA #61: Mexican Mongrel Militias (5/22/06) 24:21 17 MB / 24 min. I've got a solution to the immigration problem if anyone in Washington is listening. We could do it without mongrels, but the MMM does have a ring to it, yes? And this is important in the political arena. Things must have rings. Of course this conversation is all in good fun, as opposed to the end of the show, which is a real downer. My bad on that one. The Obtuse Angle – TOA Special Edition: Beachcombing Bonanza Redux (5/25/06) 36:42 25.3 MB / 37 min. A special holiday treat for Memorial Day weekend! I am headed to the beach myself, so thought it apropos to give you the third and final lost episode of TOA. Originally TOA number 3 entitled Faux Bachelor Beachcombing Bonanza, this is a preamble followed by a flashback to an April 2005 stroll along the beach during which I discuss utopia, scurvy and teenage girls. I also plan the infiltration of a certain unfinished beach mansion (pictured). All compliments of the DM-1 of course, so the sound quality is a little coarse to say the least. The Obtuse Angle – TOA #62: Are You Ready For Some Football? (6/1/06) 48:03 33 MB / 48 min. Sometimes I just have to ask myself: Steve, what in the hell are you doing? Revisiting the pseudo organic nature of things. Within the strings there are strings! I am the supreme being! I put my cats on leashes, okay? Repelling attackers in the backyard oasis. The Obtuse Angle – TOA Special Edition: CampCast Part 1 (7/24/06) 23:00 15.8 MB / 23 min. The first in a four part series chronicling a weekend camping trip to Cheeha State Park here in Alabama. I made several recordings over the two days, and decided to present them in reverse order. Memento-style, if you will. So every time you hear the harp flashback sound, we are going back in time. Also, I have done minimal editing and not included sound clips as usual to keep the experience as natural, or organic, as possible. As a result, these episodes are not the fast-paced TOA you have become accustomed to, so I might suggest whittling or stacking cordwood whilst listening to pass the time. The Obtuse Angle – TOA 2.dash.13: Drinking Mammoth Blood (1/29/07) 48:39 33.5 MB / 48 min. At time of show notes writing I honestly can't remember the beginning of this episode, which has been edited slothfully by the Obtuse Angle Corporation's editing team. Well over a week it's taken, but I must say I'm pleased with the ending, if nothing else. ¶ I'm resolved to write more in this area down here. See, that part above might have been passed off as show notes, like we've been doing recently. But really it's a blog, is my point, so I should engage in blogging. They have a blog going at Skull and Bones Publishing by the way, not sure what those guys are up to, but I'd venture to say it involves fighting Scurvy. With vigor. ¶ More. More. I know the sign language for More. It's made like this [NEED LINK] [THERE IS NO LINK]. Shit. You mean I have to use more words? Well, it's made by touching all the fingers together at a point, as if around a tiny globe, and tapping the fingers together twice consecutively. Does that make sense? Speaking of globes, specifically events that have taken place on the globe, have you heard of the Port Chicago disaster? 1945, a munitions ship explodes in California, killing the entire crew, who, just so happened to be 100% black. AND, most intriguingly, some scholars now believe the explosion was caused by a nuclear device. Which would have made it the first nuke ever tested by Uncle Sam. Anyway, it's buried inside 12+ hours of material on the 911Sychronicity podcast entitled Excitement Begets Energy and The Benefits of Under-Standing Your Square Roots. As with every other episode I've listened to, it's a rousing mindfuck for sure. That's blogging, see. Mixing primary and secondary sources across reality platforms. I mean, you do more than just tell about your day and stuff. ¶ Like earlier today when I thought to myself, and then said aloud immediately after: "I'd like to engage in the chewing of gum now." ¶ Right, so the episode mentions something about Mammoth's Blood. That's right, I talk all about the Mammoth Shooting Preserve I want to establish and fail to see the Jurassic Parkian reference until quite a bit later in the dialogue. Dialogue? Myself and myself, I guess you could say. Plus, probably a couple more myself(s) for good measure. ¶ Yeah, so maybe the ending isn't even good, I don't know. One simply cannot judge his own media immediately. Say that three times fast. Anecdotally, at least, my opinion is that the show built momentum and energy as it went along, then imploded at the end. I can tell, the editing team wanted it to implode and I think it did. ¶ Metaphorically speaking, of course. So what else is going on around the Obtuse Angle Corporation? Well, we had some Japanese people by the other day. Not sure where they were from. Someone decided it would be appropriate to serve them Hawaiian food. Maybe it's just me, but I think that's IN-appropriate. ¶ You don't want to EX-pire. You want to INs-pire! ¶ Yeah, the little S really f--ks that up, doesn't it? ¶ SHIT. ¶ It doesn't? Cause it does sound quite nice out of the yapper, doesn't it? Seriously though, there's no other phrase like that on the Internets? I mean, seriously though. Nobody famous said that? I'm not saying that makes me famous, it's just sorta cool:) ¶ Direct download: TOA_2dash13.mp3 ¶ Category: podcasts -- posted at: 9:32 PM

The Obtuse Angle – TOA 2.dash.14: Morons (2/5/07) 17:18 12 MB / 17 min. This is a terrible episode, but at least it's short. Basically I'm in the car – this is, like, November of last year – and there's lots of annoying wind noise and Future Steve calls in a few times and he's really annoying. So there you go. ¶ Let's blog a little, shall we? Talk about some CURRENT events, eh? ¶ The Super Bowl just happened, and I always take in interest both in the game itself and the commercials, so I'm going to talk about that. More so the commercials than the game, however. The Colts won the game 28-17 and although I predicted (to myself) a 27-17 Colts victory, I have bubkiss to show for it. It was a decent game, made all the more interesting by a monsoon-like rain that made the ball quite slippery and difficult to handle. So much so, that one of my cohorts at the party I attended exclaimed "FUMBLE!!!" on nearly every play from scrimmage. ¶ Scrimmage is a peculiar word, isn't it? Let's look that up: ¶ 1 a: a minor battle : skirmish b: a confused fight : scuffle 2 a: the interplay between two football teams that begins with the snap of the ball and continues until the ball is dead b: practice play (as in football or basketball) between two squads ¶ My general impression of the commercials was that they sucked (although I missed a lot of them, much of the time being spent watching my son, and trying to keep him from swallowing things he wasn't supposed to swallow). Which, on one hand is surprising, because you'd think these companies would want to get the biggest bang for their millions of bucks (they said it was $2.6 Million for a 30-sec. spot this year – so including production you're looking at $3 Million, easy). On the other hand, having been in the advertising industry for

some years, I know the general rule of thumb. The more money being spent on the campaign/spot, the more high-level executive types want to get involved. In my experience, these people tend to have no creative vision whatsoever, so what you end up with is watered-down, lowest-common-denominator GARBAGE. ¶ I always think it's sad when a no-name company puts out a cheap, amateurish ad in hopes of getting noticed. This year is was some company peddling "Sales Leads." What the hell does that mean, anyway? Like, the Glengarry leads? The spot was just horrible. People smiling while polishing their sports cars, etc., to show you how successful the "Sales Leads" made them. But, again, you really have to feel sorry for these people. They're hacks, with bad taste in advertising. ¶ Now, it's the BIG BOYS for whom there's really no excuse. Thank god Pepsi stayed on the sidelines, having stunk the place up for as long as I can remember. Although, stepping into the void this year was Chevrolet, with their ghastly montage of crap-ass songs from different musical genres sung poorly, in some cases by loser B-celebrities like ... well, I didn't know who any of those damned people were. You had muscle car dude, surfer dude, hip hop dude, NASCAR dude. I understand what they're trying to get across – that Chevy has vehicles for every walk of life – but come on, guys. That commercial made me want to smash something with a baseball bat. A Chevy, for example. ¶ Then you have the "Play it Safers" who stuck to their usual playbooks. Budweiser with sophomoric physical gags – namely people getting hit in the face and/or balls with something – and GoDaddy.com with gratuitous titties. ¶ In the good category, my comedy award goes to Sierra Mist. Shit, that's Pepsi, isn't it? Well, whatever. The "Combover" ad was really funny, mainly because both guys who starred in the ad are really funny character actors. Weren't they both on Ed? Remember the show Ed, about the guy who owned a bowling alley? Pretty funny. ¶ Finally, my Best in Show goes to Coke for the "Video Game" ad, which was a parody of Grand Theft Auto where the character goes around helping everybody and doling out Cokes instead of shooting them. Very clever. Slightly humorous, and it even made you feel kind of warm and fuzzy inside. Maybe not quite as anthemic, but much better overall than "I'd like to give the world a Coke" or "Coke is it." ¶ So no more football until August, then. ¶ Bollocks. ¶ Direct download: TOA_2dash14.mp3 ¶ Category: podcasts -- posted at: 9:24 PM

The Obtuse Angle – TOA 2.dash.15: Skullduggery (2/12/07) 48:31 34.1 MB / 48 min. In this episode, proudly sponsored by Skull & Bones Publishing, it is only apropos that we discuss various forms of skullduggery and, in fact, predict specific future attempts of skullduggery on the part of _____. ¶ Now, in the spirit of continuing to fulfill my promise to be all current and relevant and whatnot, some news of the day, blogstyle: ¶ We have two stories dominating the news this week: Iran and Obama. ¶ Obama, as in Barack Obama, Illinois senator and the latest Democrat to announce his candidacy for president. While I am hesitant to overhype an already-overhyped story, this news is extraordinarily exciting to me. In my opinion, Obama may very well be the ONLY politician who can rescue our nation from its current partisan morass (my only complaint is that he's not running as an Independent). Moreover, because he has spent very little time in Washington, I am hopeful that he can resist the corrupting influence of Big Business on U.S. policy, both foreign and domestic, and truly do what Bush promised he would do way back in the 2000 campaign: restore integrity to the office of the president (no joke, W said that!). ¶ In other words, and again, at risk of putting all my proverbial eggs in one basket, I think Barack Obama may be our ONLY HOPE. That is why I plan to give him my full support as he wages his 2008 campaign. ¶ Next up, Iran. If you indeed live in America and have been paying any attention to the news in recent weeks, you have surely noticed a significant ratcheting-up of the rhetoric over Iran and its suspected meddling in Iraq. And if you have any remaining doubt as to the blatant propagandizing on TV news specifically, let me just clear that up for you right now. ¶ This is how it works: The "Pentagon" or "The White House" or "The State Department" issues a press release to the news media. The headline might be something like, 170 U.S. COMBAT DEATHS LINKED TO IRAN. The story (notice the choice of words) goes on to explain how roadside bombs used to attack American forces have been traced to Iran, yada yada. Okay, so then the TV producers gather up some B-roll (stock video) from Iraq, cars burning in the street and whatnot, and they get someone to ostensibly retype the press release. This text is then fed into the teleprompter and your most trusted news personality looks into the camera and reads it. ¶ Case in point, I turn on the TV in my Memphis hotel room on Sunday morning (we took the boy to Graceland, he being a huge Elvis fan already) and flipping around the dial I stopped on all the major cable networks for about 10 seconds apiece. ALL WERE TALKING ABOUT IRAN. ¶ On one hand, sure, it makes perfect sense that Iran would be trying to further destabilize Iraq and drive the U.S. out of there. In fact, it seems likely they've been involved since the beginning of the war. It's just the timing that seems a bit coincidental, seeing as though we're about to send 20-some-odd

thousand more troops into the fray ... ¶ On the other hand, back in 2002 it made perfect sense that Iraq had weapons of mass destruction and that Saddam intended to sell them to terrorists. Because that's what the government/media was telling us, and they seemed pretty sure of themselves. ¶ So is this a case of the little boy crying wolf? Or is it the truth? ¶ I just don't know what to believe anymore. ¶ Direct download: TOA_2dash15.mp3 ¶ Category: podcasts -- posted at: 6:42 PM

The Obtuse Angle – TOA 2.dash.16: Serial Killer Guy (2/19/07) 25:19 17.4 MB / 25 min. Walking round the pond observing a possible serial killer while making other observations and likely being observed, as well. Guerilla cell phone marketing, math problems, Jimmy Carter, cement trucks, bedraggled and more. ¶ Today is Presidents Day here in the U.S. (this is Present Steve talking to you now), and so I would like to take this opportunity to shine a proverbial spotlight on the hypocrisy of our current national holiday system (granted, not everyone gets the day off on Presidents Day – me, for example – but nevertheless ...). ¶ My BEEF is this: We have Presidents Day to pay homage to the service of past presidents. Mainly the Founding Father types – Washington and Jefferson being the two most invoked by current politicians blowing hot air into the media's whorish microphones. We have Memorial Day to remember the men and women who served in our military and purchased farmland so our children can plant their seeds of freedom and whatnot. We have July 4 to celebrate our independence from the Big Bad British Empire (BBBE). We have Labor Day for no apparent reason other than to give families one last summer hurrah at the beach before school starts again. Then we have a number of additional holidays primarily recognized by bankers and government employees, such as Martin Luther King, Jr. Day, Flag Day and Veteran's Day. ¶ AND YET, neither our politicians in Washington nor at the individual state level find it appropriate to designate ONE DAY EVERY TWO YEARS for a National Election Day. ¶ This, of course, stands in blatant contradiction to THE RHETORIC, namely that our right to vote is the backbone of democracy – a means of exercising our freedom, and so on. Granting an election day holiday would certainly make it easier to be a good patriotic citizen, and without question result in higher voter turnout. I mean, is this a NO BRAINER, or what? ¶ WHAT, apparently. ¶ The question is: WHY? ¶ One can only assume that a significant number of politicians feel it wouldn't be in their best interest for THE OTHER HALF of the population to vote. Pun intended, yes, but it also refers to the actual statistics. In the 2000 presidential election, for example – arguably the most important election in our country's history – turnout was 51.3 percent. And, keep in mind, that's a percentage of REGISTERED VOTERS. I'm not going to do the math, but we can safely assume that well under half of the total population is going to the polls. ¶ So, again, who in society would benefit most from an election day holiday? The corporate executive, who can easily push his meetings back to 10 am? Or the employee of the slaughter house, who has to be clocked in and slicing chicken gizzards by 7 am or else he's docked pay? Hmmm ... okay, so clearly the lower class, working class folks will be the most likely to vote, if they were not in the habit of voting before ... ¶ Low wage, low skill workers are who we're talking about, here. And if I'm not mistaken, these are the types of jobs that have been shifting in recent years – either to illegal immigrants or nations overseas. China, for example. In other words, many of these "working class" people have been laid off, which probably makes them rather unhappy with their elected officials. More likely to vote for a challenger, as opposed to an incumbent. ¶ So, by this logic, it would not seem a partisan issue, as many democrats in particular would attest, but another classic example of the ever-rising dominance of corporations over public policy. ¶ Corporations give money to politicians who, in turn, grease the rails for outsourcing low wage jobs (while promising they'll help keep jobs at home). The white collar people are happy, because they have cushy jobs and their 401Ks are growing nicely. So they tend to vote for incumbents – democrat, republican or otherwise. So everyone's happy. ¶ NOT. ¶ Well, those in the lower tax brackets will always have the military, I suppose. After all, it seems WAR will continue to be a growth industry for decades to come ... ¶ Direct download: TOA_2dash16.mp3 ¶ Category: podcasts -- posted at: 12:26 PM

Release notes (by Frank Edward Nora, November 2021): In September 2021, Jeff contacted me about archiving The Meandering Mouse in The Onsug. I was happy to do it, as I've known Jeff for a long time, and his rambling, wandering style fits in well with The Onsug. And I'm also a lifelong Disney Parks fan. I converted the MMCTV videos to audio, but the originals can still be seen on YouTube. Enjoy this amazing archive!

The Meandering Mouse – Meanderings of Scary Orlando Tourist Trap Diners (2/21/06) 9:28 [823] Here's a "quickie cast" since I'm packing for my Disneyland trip which occurs tomorrow. While cleaning off my laptop I found this small soundseeing tour of a really scary tourist trap restaurant in Orlando. This explains why I stay onsite while visiting WDW. This stuff is funny so I thought I would share. *Warning* Please note that it is slightly un-family friendly in nature towards the end. Not too bad though ;) How bout' a steak?

The Meandering Mouse – Cali Adventure Chew Chew Train Meanderings (2/28/06) 12:05 [823] This second Meandering Mouse episode of the week is meant to keep the whackiness of the show in balance since our last episode was a special event of sorts. The Meandering Mouse – Meanderings of a Disney Cast Member Part 1 (3/4/06) 42:33 [823] This is part 1 of an interview I did with a very important Disney Cast Member. No, it's not an Imagineer and it's not a Disney Exec. This interview was done with the most important of all cast members. This is the person that has worked the front lines in the parks and has had constant guest interaction. In my opinion, the magic at Disney is created by cast members like this. These are the people responsible for working quite hard to make your Disney Resort trips a special one. Since this is another "special event" episode, look for another show to be released soon that features the normal crazy meanderings you're getting used to here at the podcast. After that, I will release part 2 of this wonderful interview. Thanks to everyone for subscribing and listening! Headphones Suggested for this Episode Join your host, Jeff from Houston, as he wanders around Toontown in Disneyland exploring all the whacky distractions and sounds in the area. Afterwards, get your bags packed for a cross country trip to Florida where I visit EPCOT Center's Universe of Energy / Ellen's Energy Adventure. This underappreciated pavilion at EPCOT is top notch in my book and needs no commentary. Therefore, I keep my big mouth shut during this great ride thru. Hear Ellen and Bill Nye the Science Guy as they travel through time experiencing The Big Bang and a bunch of Dinosaurs. Last, our new weekly feature, which highlights those special details found in the Disney parks, is presented. Send in your favorite special Disney park details and comments about the show. The Meandering Mouse – Expedition Everest Meanderings - An Encore (3/17/06) 30:26 [823]
This episode is a special encore presentation of my Expedition Everest soundseeing tour I took during the Annual Passholder Preview of the attraction. It originally aired on The Trapped on Vacation show since that's where I started my podcasting adventure. There have been many new listeners to the Meandering Mouse and I consider this one of my best audio pieces to date. Given all that, I want to make sure all listeners of the show have a chance to hear this tour. Join your host, Jeff from Houston, as he experiences Expedition Everest for the very first time. This stereo audio journey takes you from the airport right into Serka Zong for an exploration of, both, the area around the new attraction and the ride itself. Be looking forward to more crazy fun when a normal episode of The Meandering Mouse airs by the start of the new week. The Meandering Mouse – Remember... Dreams Come True Meanderings (4/23/06) 28:54 [823] *Headphones HIGHLY Suggested* I'm on a Walt Disney World vacation this week but decided to post an abbreviated episode of The Meandering Mouse for everyone. Join me on Main Street in Disneyland as we experience one of Disney's greatest night time shows ever produced. The stereo audio quality of this show is quite impressive. Take special notice of the explosions timed to the musical soundscape. I'll be back next week with a "normal" episode for everyone to enjoy! The Meandering Mouse – Kilimanjaro Safari and Disney World Day 1 Meanderings (4/30/06) 58:44 [823] *Headphones Suggested* I'm back from my recent Walt Disney World vacation this week and have a trip report from day one which includes sounds live from the experience at the park that day. Wander the parks with me and my travel bud, Patrick, as we visit EPCOT and Earl from The Trapped on Vacation Podcast. Next, take a wonderful Kilimanjaro Safari with us over at Disney's Animal Kingdom. In closing, we explore a few sound oddities picked up at EPCOT. The Meandering Mouse #17 – Splash Mountain, Haunted Mansion, and WDW Day 2 Meanderings (5/7/06) 1:20:40 [823] *Headphones HIGHLY Suggested* This show wll begin with a summary and audio of my second day of my recent Walt Disney World Trip. It's an Animal Kingdom Morning and a visit to ALL FOUR DISNEY PARKS in one day! During the trip report, I comment on all the changes I noticed on Pirates of the Caribbean since it re-opened for a month after the first phase of rehab. Next up, by popular demand, I feature an insane ride thru of Splash Mountain. I say insane because we had visited ALL FOUR DISNEY PARKS before riding Splash at 1:30 in the morning!!!! We were sorta loopy from walking 15 to 20 some miles and going that long in the Disney parks. I've also got some wild news. My friend Patrick ran into Saul the Unsuspecting and Overly Enthusiastic Tourist while visiting the Haunted Mansion!!! Can you

believe it?? Join Saul and my bud, Patrick, for one heck of a goofy time as they journey through the cobwebs and spookiness of The Haunted Mansion. The show ends with some GREAT listener feedback so stay tuned. The Meandering Mouse #18 – Wishes, Test Track, and WDW Day 3 Meanderings (5/13/06) 1:16:01 [823] *Headphones Suggested* This episode begins with an introduction to The Meandering Minnie Mouse who I will be taking to Walt Disney World this coming week. She tells us what she is looking forward to and we get into some general shenanigans...it's a good laugh for sure. Next up is day three of my ongoing Disney trip report series. I start that with an EPCOT morning which includes a close call with an auto collision while entering EPCOT's parking lot and, of course, the EPCOT rope drop. Come along with us as we are herded like Disney tourist cattle into The Land pavilion in order to retrieve a FastPass for Soarin'. After a morning meandering with me and my pal, experience a ride thru of Test Track and some Disney sound oddities from the Manatee tank at the Living Seas. The last bit of audio weirdness is compliments of Earl from Trapped on Vacation as we hang out at The American Adventure. This show closes with a hustled entry into the Magic Kingdom for a spot on the Tomorrowland bridge to view the Wishes fireworks show above Conderella's castle. The Meandering Mouse #19 – WDW Space Mt, Stitch's Great Escape, and WDW Trip Report Meanderings (5/25/06) 59:01 [823] *Headphones Suggested* This show will begin by wrapping up my April Disney World trip report with my bud Patrick. We visit the Magic Kingdom for a crazy Disney park morning ride on Space Mountain, take in some Magic Kingdom sounds, walk around with Earl from Trapped on Vacation as he tells us some goofy and interesting cast member stories, hear The Carousel of Progress during a nasty technical glitch, take a walk through Disney's Pleasure Island construction zone at night while experiencing some of the worst music. Next up, The Meandering Minnie joins us to summarize our recent May trip to Disney World. We discuss our stay at Disney's Animal Kingdom Lodge, meeting some Disney Podcast Network members out at the parks, and experience everyone's favorite Disney attraction: Stitch's Great Escape. The show ends with some great listener voice mail including an amazing surprise for The Meandering Mouse. The Meandering Mouse #20 – Special Edition – Disneyland Cast Member Meandering Part TWO (5/29/06) 32:34 [823] *Show is RATED PG-13* Okay, I've gotten many emails and have seen many

requests on the forums for part two of my interview with my Disneyland cast member friend. I sat down with my buddy out at Disneyland's Grand Californian / California Adventure one afternoon in February and we spoke about his 11 year history with the company. Part one of the interview posted on The Meandering Mouse on March 4, 2006. I find this part of the interview to be MUCH MORE interesting as my friend talks about the current job conditions at Disneyland and how things have changed since the inception of "presenteism." We also discuss something a bit less serious...his favorite and least favorite park attractions. As stated in the topic title, this is a special episode of The Meandering Mouse so there are no soundseeing experiences or goofyness. Enjoy these more serious meanderings as a change of pace for the show. Forum member "Toast" is the person being interviewed. He is an active member at The Disney Podcast Network. Therefore, if you have any questions, post away and I'm sure he will be happy to answer. The Meandering Mouse #21 – Philharmagic, Sailing Ship Columbia, Scary Orlando Souvenir Meanderings (6/5/06) 1:08:20 [823] **Rated PG-Headphones Suggested** This episode begins with the RETURN OF SAUL and his Disney park adventures. Join Saul as he experiences a trip through Florida's Fantasyland. Of course, Saul's journey through Fantasyland is a tad short on the fantasy and we can safely say that he visited something more like Scaryland. Next, The Meandering Minnie and I enjoy Philharmagic where we experience a bit more fantasy than poor ole' Saul. After leaving Fantasyland, we travel outside of the Disney bubble and hit the streets of Orlando to explore the creepiness of off-property souvenir shops. No comforting or pleasant souvenirs are found. Instead, we discover some of the oddest objects on Earth. Last, The Meandering Mouse returns to DISNEYLAND to explore some sound oddities and take a ride on The Sailing Ship Columbia. In the sound oddity portion of the Disneyland audio, we stumble upon Maynard, the rather famous but odd Disneyland cast member, as he tells us a really weird story on Main Street. We also stop in New Orleans Square and discover that Californians have NO rhythm whatsoever while we listen to a live street act. This episode is packed full of goodies so get ready for some fun!!! The Meandering Mouse #22 – JUST Disneyland Meanderings – Special Retrospective (6/12/06) 1:09:21 [823] **Rated PG-Headphones Suggested** This special edition of the Meandering Mouse takes on a different and somewhat of a reflective tone as I prepare my mind and spirit for an upcoming Disneyland trip at the end of August. The audio featured on this episode of The Meandering Mouse is 100% from

Disneyland...the original that started it all! First, we revisit some of the very first audio clips I took while I first meandered through Disneyland back in October of 2005. The Meandering Mouse wasn't even thought of at this point because I didn't have a podcast. This type of audio is RARE...I don't know of any other Disney podcasters that have audio recorded of themselves experiencing Disneyland for the very first time. It really takes me back to that special feeling I had walking around alone in Walt's original park for the very first time on a chilly evening in October...I even get LOST which is funny to hear now that I know the parks on both coasts like the back of my hand. The other neat thing in regards to these recordings is that you can hear how the quality of my meanderings have improved over time. To be honest, the quality is quite rough on these early recordings...levels are all over the place and there are some spots with some REALLY NASTY wind and vibration. It is quite listenable though...no doubt about that. After the early first steps into Disneyland recordings, I shift gears and play some newer audio from my trip to DL this past Feb. However, the audio is just of me literally meandering through the park with no purpose. It's fun to come along with me as I take in my surroundings and point out certain details I notice along the way. Next, we visit The Sorcerer's Workshop at The Animation Building in Cali Adventure where myself and my Disneyland Cast Member friend (Toast) take Disney personality tests using the enchanted books in the Beauty and the Beast Library. Last, I leave you with a high quality and fun experience over at Monsters Inc. I think this is one of my best recordings of one of the newest attraction at DL. I finally captured one of my favorite gags and details of the attraction while making my way through the queue area. The Meandering Mouse #23 – Festival of the Lion King and More Disney Bathroom Meanderings (6/18/06) 1:11:55 [823] **Headphones Suggested** This show begins with some truly unique WDW sound oddities. Come along with me as I explore one of the wackiest Disney World attractions: The audio pumped into the different restrooms around the resort. Don't worry because no offensive sounds are heard; just weird audio that accompanies you on your business trips while at the world. There are some other Disney park sound oddities thrown in as a surprise! Next, experience The Festival of the Lion King at Disney's Animal Kingdom. The Meandering Minnie and I check the show out for the very first time on our last trip and you're there with us enjoying the show! The audio truly shines for this wonderful live performance. Last, stick around for some great listener feedback...there has been a lot of it lately. This week's show picture is the infamous women's chair toilet up in Disneyland's Club33. The Meandering Mouse #24 – Tower of Terror, Millionaire Play it!, Muppets Pre-Show Meanderings (6/25/06) 1:10:40 [823]
Headphones HIGHLY Suggested This episode is for all those Disney-MGM Studios lovers out there. We begin with a morning meandering over to the park, ride the parking lot tram to the front gates, and experience the rope drop. Once in the park, Patrick runs into Saul during the Star Tours pre-show. We find out that Saul is somewhat of a Star Wars nerd and a fastpass is issued for a fist fight between the two tourists (take special notice Patrick's deadpan reaction to the madness). To continue with the odd humor, we head next door to take in the Muppets 3D Pre-Show which is my favorite part of the entire attraction. Next up, we hitch a ride on that crazy old cursed elevator at The Tower of Terror Meandering Mouse style. Last at the Studios, The Meandering Minnie and I take a whack at Who Wants to be a Millionaire, Play it! Come along with us and test your ability in regurgitating useless knowledge. The Meandering Mouse #25 – Disneyland Tom Sawyer and Pirate Meanderings (7/1/06) 1:09:59 [823] **Headphones HIGHLY Suggested** Well, I made it to episode 25. Just WOW! On this show, we first celebrate The Disney Podcast Network and all its members with Saul. Next, we come full circle and experience an audio meandering of Disneyland's Tom Sawyer Island as my very first Meandering Mouse show featured a tour of Disney World's version. After our Island adventure, we take in Pirates of the Carribean at Walt Disney World with Earl and Patrick right after its first phase of refurb. This is obviously a nod to the grand re-opening of Pirates this month. To round out this show, we explore a few Disney sound oddities. My 25th show just wouldn't be complete without some whacky sounds and odd meanderings out at the Disney parks. Last, don't miss a special voice mail which came into The Meandering Mouse comment line direct from Monstropolis!! The Meandering Mouse #26 – HORIZONS – Cronkite SpaceShip Earth Meanderings (7/10/06) 1:11:25 [823] **SERIOUSLY-Headphones HIGHLY Suggested** Join me for a different sort of show as I provide some personal meanderings, musings, and memories of what EPCOT used to be all about. First, I'll provide a brief history of my all time favorite Disney attraction: Horizons. I'll present some interesting details about the attraction along with some RARE audio. To end the Horizons portion of the show, I will play one of the most fascinating pieces of audio I've ever heard dealing with Horizons...a mixdown of source audio which presents a completely accurate ride through of the attraction. Last, we will take a look back on the last remaining great dark ride at EPCOT: Spaceship Earth. We will take a ride thru of the attraction in it's golden days featuring audio narration by Walter Cronkite. I've been waiting a LONG TIME to do a HORIZONS based show as the memory of that attraction is one of the best Disney Park attraction memories I have from my childhood days spent in the parks. I hope this show does it justice. Special Thanks to Martin Smith and George W. (not Bush) for some of the material used in this show. The Meandering Mouse #27 – Star Tunnel, Vacation Beginnings, and Kungaloosh Meanderings (7/22/06) 1:20:18 [823] This show begins with the Meandering Minnie and I making a Kungaloosh in the studio to celebrate one heck of a busy week being done with. After our tasty adult beverage, we review Lou Mongello's latest Disney World Trivia book as his publisher was nice enough to provide us podcasters with a free copy. Before the Meandering Minnie leaves the studio, we feature some in park audio of a few cast members we talked to, learn a bit about the Reedy Creek District, and the C.H.I.P. hotline. As I take the mic solo for the remainder of the show, I discuss that special feeling you have when you first arrive at the parks and feature some great park audio of my buddy Quenton and I arriving at the Disneyland Resort for the first time. We walk down Main Street and end our audio meandering with Quenton's first ride on Space Mountain. He had a great time to say the least and you'll hear that in the ride-thru. Next up, we experience the queue at Space Mountain in Florida. I meander through the Star Tunnel and then play the music featured in both the entrance and exit of the attraction since it is some of my favorite music heard at WDW's Magic Kingdom. One of the tracks I stumbled upon was tagged, "Space Mountain - Impressions" and I ask YOU from which Space Mountain the track comes from. To round things out we visit the Space Mountain launch pad where a GOOD FRIEND seems to have gotten stuck in the space capsule which is ready to blast off! Somebody get a wrench and FAST! Last, we read a few listener emails as the last Horizons episode caused my inbox to be slammed with some amazing feedback. Thanks to everyone that has made donations to The

The Meandering Mouse #28 – The ORIGINAL Journey Into Imagination Meanderings (8/3/06) 57:25 [823] **WEAR HEADPHONES OR SUFFER ;)**Back by massively POPULAR DEMAND is my retrospective series covering EPCOT's golden era. On this show, I feature the ORIGINAL Journey into Imagination attraction (1983-1998). The past and present of the attraction will be explored along with a detailed ride description before taking another amazing stereo audio ride thru which is similar to the Horizons ride thru I played on a previous episode. I share my personal memories and feelings over what was one of the most fascinating and somewhat abstract dark rides ever conceived by The Disney company. The Meandering Mouse #29 – Adventureland and Jungle Jet Ski Cruise Meanderings (8/12/06) 1:13:35 [823] **PG-13 WARNING** TO SEE PICS of the Jungle Jet Ski area heard during the audio tour-GOTO The Disney Podcast Network Forums show notes. Something quite different.....along with something familiar. The Meandering Mouse emerges from the more serious side as heard on the EPCOT retrospective series and returns with its irreverent commentary, biting sarcasm, and wildly creative take on the Disney podcast. Get your Adventurer's gear and first join us for some Disneyland Adventureland Meanderings. We take the original Jungle Cruise right at closing time and then explore Tarzan's Treehouse. During the featured audio of this episode, The Meandering Mouse and his buddy, Quenton, imagineer their own version of the Jungle Cruise and feature the audio ride-thru for this special show. It took one 3 seat 1100cc 125 H.P. Jet Ski, two adventurous souls, some microphones, a bunch of water bound natives, some REAL wildlife sightings, and a lot of noise out on the open water to build this E-ticket attraction of insanity. **WARNING** The Meandering Jungle Jet Ski Cruise part of the show is not for the kiddies and not for those sound quality snobs. This is extreme outdoor and impromptu soundseeing podcasting at its finest. Recording at a moment's notice sans windscreen while, occasionally, flying across the water at over 50MPH isn't pretty at times but we do slow down and explore the countryside for most of the experience. Fascinating stuff edited and cleaned up just a bit. Bring your sense of humor to this show or make use of that fast forward feature. This Epsiode's Photo Art Courtesy of The Meandering Minnie. The Meandering Mouse #30 – EPCOT Retrospective 3 – World of Motion Meanderings (8/19/06) 1:27:21 [823] **Lookie Mom! HEADPHONES** Join me for part three of my recent EPCOT Retrospective Series. This show will cover The World of Motion and MUCH MORE!! First up, I devote some time to some wonderful listener comments and voice mail. I've been quite appreciative over all the positive response to the show as of lately. Next, we take a "Magic Journey" back in time to explore The World of Motion. In my typical EPCOT retro style, I go over the history of the attraction, some technical specs, how I felt about it, and I then feature a special segment about Marc Davis since his infamous AA "sight gags" filled The World of Motion. Soon after that we board our Omnimovers and take our stereo ride thru of the entire attraction. To end the show, I let you in on my personal feelings over what EPCOT has become and what's truly able to still strike a chord within me at the park. Stay until the end...you'll want to. The Meandering Mouse #31 – Disney World Magic Kingdom Morning Meanderings (8/26/06) 1:14:17 [823] **HEADPHONES R Ur Friends** The Meandering Mouse returns from another EPCOT retro show and does what its known for best: Meandering throughout the Walt Disney World Resort. Join me for a complete audio journey of a somewhat typical morning at Disney World. We begin at EPCOT's monorail station where we take a ride to the TTC and then hop onto the express Monorail to The Magic Kingdom. While Meandering down Main Street, we notice some charming details. Next, enjoy the transition into Tomorrowland and meet up with an old friend for a wild ride on Space Mountain. Once we make our way into Fantasyland, Peter Pan's Flight is on our must-do list before heading over for a wonderful sounding ride through The Haunted Mansion. Our morning at The Magic Kingdom comes to an end at The Frontierland Train Station. It begins to rain and Lou from Beyond Main Street just happens to be headed into the same station we're waiting at for the train. An odd coincidence for sure! To end our audio adventure, we hop back onto The Monorail for a trip around EPCOT where we finish back at the start of it all. Stick around for some wonderful audio feedback sent in by a listener. The Meandering Mouse #32 – Special – Live from Disneyland Meanderings Part 1 (9/2/06) 35:06

[823] **MUST HAVE HEADPHONES-Re-Uploaded version-Turn up your treble if vocals are too bass heavy and hard to understand** This is a special LIVE FROM DISNEYLAND Meandering Mouse podcast: Part One. Recorded on September 1 2006. I'm sitting here in my hotel room at the Anaheim Resort area as I post this. I changed my flight plans and added an extra day to my little vacation out here. Yesterday I experimented with recording an entire show at the park. I meandered around during a gorgeous Friday morning and you will be along for the ride. No editing was done to this piece of audio. The Meandering Mouse #33 – Special – PART 2 – Live from Disneyland Meanderings (9/7/06) 1:13:00 [823] **MUST HAVE HEADPHONES** I finish my live in park podcast taken during my trip last week with this show. Please make sure you have already listened to part 1 as to complete the audio experience. This final part of the special series is twice as long as the first part because I am home with more time on my hands to work on the show. Part 1 was thrown together from my hotel room in Anaheim. There is a little more babbling by me going on here since I find myself back tracking a bit while trying to decide what to do with my morning. Below is the list of attractions I hit while Meandering around the park on this second and final part of my podcast in the park morning. Yes, I know we've done some of these attractions before but this two part show was meant to highlight a complete and somewhat typical morning for me as I left the mics run as much as possible while I had some fun. The best part? Your are along for the journey! Space Mountain Ride Thru (best audio of this one yet due to new field equipment - no more insane distortion), It's a Small World, Push the Trashcan (Best EVAR), Roger Rabbit's Toontown Queue exploration and Ride Thru, Toon Town Meanderings, Big Thunder Mountain, and The Haunted Mansion. The Meandering Mouse #34 – Meanderings of Odds and Ends (9/17/06) 53:07 [823] **HEADPHONES Rock** This episode is for all those little orphan audio clips taken at the parks. They have no sensible home for a sensible formatted show. Therefore, we experience many Disney park sound oddities out at Disney World and just have some fun. Highlights include: Meandering Minnie Meanderings, Animal Kingdom / Animal Kingdom Lodge sound oddities, and Magic Kingdom sound oddities Purchase opening music from ITunes: Angelina and Armand's - Disney Freaks - Thanks to an old friend Chet P. for bringing it to my attention. The Meandering Mouse #35 – Meandering Mimi and No Place Like World Showcase (9/24/06) 1:16:08 [823] **Made for HEADPHONES** We start this episode with probably the most endearing / special piece of audio I've ever taken. I interviewed my 96 year old Grandmother while I was in Pittsburgh. Why you ask? It's simple. The Meandering Mimi was responsible for taking my Sister and I to Walt Disney World's Magic Kingdom for the very first time back in 1983 when I was 8 years old! This recorded discussion is our attempt at digging up all those magical memories which occured way back when. As you'll hear, it wasn't easy! Next up, we continue in the way back machine and explore some of the first EPCOT Center music ever presented to the public as a listener chimes in on the subject of EPCOT's BGM loops. The feature of the show will be an audio adventure around the World Showcase lagoon with my buddy, Patrick, and Earl from Trapped on Vacation. We meander around one evening experiencing The World Showcase exactly as it should be experienced: With no particular agenda other than to explore and take it all in. The audio wraps up with rides on Norway's Maelstrom and Mexico's El Rio Del Tiempo. Check out the DPN website changes going on now. More great things to come. The Meandering Mouse #36 – *re-post* – EPCOT Retrospective 4-Universe of Energy (10/8/06) 1:14:29 [823] **Headphone Friendly** In this episode of The Meandering Mouse, I continue my EPCOT retrospective series and highlight the original Universe of Energy. We discover that the departure of the original Universe of Energy in 1994 marks a great change in the general theme of EPCOT's Future World. A piece of EPCOT's original mission is also left behind with the re-imagineering of the pavillion. While I still consider the re-themed attraction (Ellen's Energy Adventure) to be a very well done and entertaining replacement, it's always interesting to take a look back. Highlights of this show include full commentary discussing the energy pavillion's history, the design, its principles, and an edited audio ride thru of the attraction. Universe of Energy should play at the finale vs. Energy, you make the world go round.

The Meandering Mouse #37 – TODAY I am at Disneyland Meanderings (10/15/06) 1:19:58 [823] **Headphones Needed 4 this one** Recorded Sunday Oct. 15th. Thats right. I'm at Disneyland again and recorded a live in the park show for you all and am posting it on the same day the audio was taken. Join me for some laid back meanderings throughout the park. The Meandering Mouse #38 – Jedi Academy and Not too Scary Meanderings (10/22/06) 1:25:07 [823] **Headphones Suggested** I, of course, have more material from Disneyland this week since I was there for 5 full days. Furthermore, I want to roll out as much of the Halloween material I have before it becomes stale. The Halloweentime celebration at Disneyland was a welcome addition to the park experience in my opinion. I'll be back with more Disney World material before you know it. Highlights for this show include: -The New Jedi Training Academy at Tomorrowland Terrace -Main Street Pumpkin Festival -Golden Screams -The Scariest Place in all of Disneyland as experienced by Myself, JohnDUB, and Burnt Toast -Listener Feedback - Earl's last ride on Journey into Imagination Thanks to everyone that has made donations to The Meandering Mouse and The Disney Podcast Network thru the show website! The Meandering Mouse #39 – Park Hauntings and DCA Halloween Meanderings (10/29/06) 1:05:21 [823] **Headphones Suggested** This show begins with a real life haunted story from Disneyland told by a seasoned cast member. Next, I feature one last live in-the-park meandering from Disneyland before we head back to Walt Disney World in Florida. Join Greg (Micecast / Imagineering My Way) and I in Disneyland's California Adventure one evening as we explore some of the new Halloween decorations around the Hollywood Tower of Terror. Last, what spooky night in the park would be complete without a ride on Monsters. There is a little overlap of the Today I am at Disneyland show (episode 37) as I describe the Esplanade Halloween Decor once again while walking into the park....I provide a little more detail since it was my first time seeing the decor lit at night. The Meandering Mouse #40 – Being a Kid at Disneyland Meanderings (11/5/06) 1:03:04 [823] **Headphones A Must** I didn't think I was going to put a show out this week. Why? Because the Meandering Mouse is, once again, on the road. This show is being posted from The Walt Disney World Resort as I'm here for a full week! That means we will be starting a run of podcasts taken at WDW before you know it. Even though we are back at Disneyland live once again on this show, you will find this to be quite relaxing and entertaining. I decided to act like a big kid one morning at Disneyland and take in nothing but kiddie rides. Come along with me on a glorious morning at Walt's original park and feel like a child all over

again. The Meandering Mouse #41 – RP – Finding Nemo The Musical REPOST (11/11/06) 43:41 [823] **Headphones A Must** Repost due to small gap in first posting. Finding Nemo - The Musical began sneak previews this week at Disney's Animal Kingdom. Earl, from Trapped on Vacation, The Bleepin' Wife, and I got a sneak peak of Finding Nemo The Musical at Disney's Animal Kingdom this past week. The show was quite impressive considering it is in "BETA" at the moment. The original music written for the show,the actors, and use of puppetry all worked together very well. I would have to say it is the best live show in the parks I've seen at Disney World and it will only get better as they iron out the wrinkles. Earl will be posting a binaural version of the show so you can also check his out...there will, most likely, be a variation in the sound but you'll have to decide for yourself. I may be wrong but I believe we are the first to podcast this show. Since I'm out on vacation it's hard to keep up with what's going on around the net. Enjoy this sneak peek posted from Walt Disney World. Thanks to everyone that has made donations to The Meandering Mouse and The Disney Podcast Network thru the show website! The Meandering Mouse #42 – Live Animal Kingdom at Night-Food and Wine Meanderings (11/22/06) 1:26:45 [823] **Headphones A Must** Be Sure to listen to the VERY END of this one. It's time for some live from Walt Disney World Meanderings!! This has to be my all-time favorite live in the park meandering show as it covers Disney's Animal Kingdom at night along with a walk around The World Showcase promenade for some reviews of The Food and Wine Festival. That's right, it's your chance to drink and eat your way around the world with The Meandering Mouse. This show ends with the best recording I've ever captured of Illuminations: Reflections of Earth. It's an wonderful piece of audio that you will really enjoy. At the VERY END of this show you'll hear me get stopped in the park by a fan once again...great stuff!! It was really windy at The Animal Kingdom that night and I was turning my head quite a bit while narrating....I apologize for that but the material more than makes up for it...trust me on this. The Meandering Mouse #43 – Being Goofy, Insane, and Having Fun at WDW Meanderings (12/3/06) 54:26 [823] I'm back in the studio right before I leave town for Mousfest in order to put in a full production of Meandering Mouse goodness! This show is all about some of the weirdest and goofiest sound clips taken at the parks that I could dig up. Highlights Include: -Lots of Meandering Minnie park weirdness and fun in lieu of her birthday this week. -Saul takes two DPN forum members to his special public storage unit. -Disney's version of Borat or The Crazy Russian Guy on Disney's Boardwalk. -Earl and I hustling at Pop Century Resort or the resort I call, "The Disney Dorm Room" (Sorry Scopa Towers Lovers...it's The Disney Dorm Room in my book). Extra thanks to everyone at The DPN Community who has helped prepare everything for Mousefest. I'll see everyone planning to attend down at WDW starting on Thursday the 7th. The Meandering Mouse #44 – Monsters Inc. Laugh Floor Comedy Club (12/12/06) 28:24 [823] Here's a Sneak Preview of Monsters Inc. Laugh Floor Comedy Club at WDW's Magic Kingdom. Posted live from Walt Disney World's Coronado Springs. I was able to catch some of the first sneak previews of Monster's Inc. Laugh Floor Comedy Club here at Walt Disney World's Magic Kingdom today. The imagineers are testing the attraction and working the bugs out. So far, I'd say the attraction is coming along fairly well and is a somewhat welcome addition to The Magic Kingdom. I'm still on the fence as to whether or not it truly fits into Tomorrowland, though. The show uses similar technology seen at Turtle Talk. There are three Monster comedians who take the stage and interact with the audience. The entire show is projected on three different video screens and one

screen is used to pick people out of the crowd as they do in Turtle Talk. Cast Members wander the room with a mic to catch guests interacting with the comedians. Each guest interaction and the gags to go with it help fill the laugh canister which resides on the right side of the stage. The theming in the attraction is well done for the most part. The seating area is clever given that it really looks like a comedy club or lounge. They even have small lounge lamps mounted in front of the seats which sometimes flash with the laughs. My only complaint would be the quality of the animation seems to be lacking a bit. Turtle Talk is animated much more fluid and the images on the screen are more vivid. The projections at Laugh Floor appeared washed out a bit. MANY imagineers were on hand for the previews and were standing in the back of the theater throughout the show. They took a small audience survey at the end of the performance to gauge reaction to the new original characters. The Meandering Mouse #45 – Mousefest and Holiday Meanderings (12/22/06) 1:27:03 [823] **Headphones Highly Suggested** I made it back alive from Mousefest. After spending seven days at Walt Disney World with little sleep, my head is still spinning. Mousefest was an incredible experience filled with memories and time spent with good people. I was also able to grab a lot of fun audio from the gathering. I'll be sharing some of that audio on this show and letting you in on what it was like to be right in the middle of the madness. Last but not least, it's the holiday season and what better way to celebrate than hanging out with the DPN gang at Mickey's Very Merry Christmas Party. Most of The DPN gang along with some friends parked ourselves curbside in the hub of The Magic Kingdom on a chilly evening to take in the amazing Christmas parade. Come gather with us in the holday spirit using your earbuds. As a finale to this show, I present the incredible 4 minute Holiday Illuminations. You'll get to experience the explosive mayhem which caps off Reflections of Earth each night during this special season. My mics actually held up to the assault. It's a Christmas miracle! The Meandering Mouse #47 – Meandering Micecast Recorded at Disneyland (1/16/07) 54:03 [823] The Micecast Disney podcast has consistently been one of my favorite Disney podcasts for a quite some time. If you are familiar with Mike and Greg's show and banter, you are accustomed to their off-the-cuff and tangent filled discussion style. They cover anything Disney and whatever else pops up...sometimes it's insightful, sometimes it's funny, sometimes they talk about nothing remotely close to Disney subject matter, and sometimes it's even off-color and politically incorrect. However, it's always an honest take and a good time. These guys, no doubt, have a passion for the parks. I spoke with Mike from Micecast recently and found out he was heading out of town for a solid week for a family funeral and tend to all the business that comes with such a tough experience. Therefore, I'm presenting this special edition of The Meandering Mouse Podcast in true Micecast style as a tribute to the show and to fill that void which will be left while Mike tends to important family business. This round table discussion took place at Disneyland's Rancho Del Zocalo one crisp Fall evening. Myself, Mike, Greg, and DPN forum member, Burnt Toast, took some time to discuss being part of the Disney cast member family. All three of the guys were Disney cast members at one point in their life. Toast spent around 12 years with the company. I couldn't have thought of a better topic to cover than working as a cast member as I was surrounded with so many friends who have shared the experience. My sympathies go out to Mike and his family this week. This one's for you, my friend. Please stay until the end of the show to play LTAD Jeopardy for your chance to win the T-Shirt which was signed by all the Disney podcasters at Mousefest 2006. The Meandering Mouse #48 – Meandering Minnie Mask Room Madness (1/24/07) 51:06 [823] *Headphones Suggested*To start this episode, I air my grievances over people not understanding why we all enjoy the Disney parks so much. Do you have to field questions when you tell friends and family that you are headed to the parks again? At the parks, we join the Meandering Minnie at Fort Langhorn's Rifle Roost to pick off tourist fashion faux pauxs. Not many people survive the onslaught. Next, find out a little something about WDW horticulturists, visit Norway gone wild, and join us at the Adventurers Club for your last dose of madness in the amazing and enchanting mask room. Please visit www.mousepod.com. The very first Disney podcast to hit the scene is back! Good luck, Jesse. The Meandering Mouse #49 – Pirate and Princess Party Meanderings (1/31/07) 47:27 [823] *You REALLY NEED Headphones for This Show* Join me and my buddy Q for the brand new Pirates and Princess Party at The Magic Kingdom in Florida. The main feature of this show is the Magic, Music, and Mayhem Fireworks show. This show was recorded live from the WDW resort and begins at the TTC. You'll follow us into the park, down Main Street USA, and take a quick ride on the TTA before we grab some hot cocoa and enjoy the most amazing fireworks show I've seen in quite some time. This new show doesn't hold the same appeal for me as Illuminations but it is the most impressive fireworks show I've ever seen with the castle as the backdrop. In my opinion, this this was more or as impressive as the Remember Dreams Come True fireworks display at Disneyland. It was great fun and great audio. The Meandering Mouse #50 – WDW Trip Report Meanderings with Q – Rated PG (2/16/07) 1:32:19 [823] *Rated PG* Well, this show was delayed because I have been slammed with work since I got back from WDW. Heck, I was working while out at the resort that week. Given all this, I have no super special 50th show. However, The Meandering Mouse and The DPN will turn 1 year old this month. I have plans for a celebratory show but I'm going to need some time to get everything together. On this show, I have some important announcements to make. Afterwards, Q and I sit down to talk about our crazy WDW trip as of lately. It was a great time full of first time experiences that, for some reason, involved insane amounts of food. I've always wanted to do a strict trip report show since I enjoy hearing trip reports from other podcasters so much. Well, here's my chance to share a great trip report with all of you! Warning...I'm tagging this with PG as Q and I were cutting up and having a good time talking about our trip. It's all in good fun but a little warning is in order here. The Meandering Mouse #51 – MM and DPN 1 Year Anniversary Special (3/3/07) 1:54:20 [823] The Meandering Mouse podcast and The Disney Podcast Network were conceived a year ago this Feb. It has been an interesting, challenging, and rewarding run so far. Most of all, it has been a lot of fun and has given me the opportunity to interact with so many new people in my life. Both projects have brought me great new friends. Something we all could use more of. Furthermore, being part of bringing so many other good people together has given me so many wonderful feelings. In short, that experience alone has been magical. This show is dedicated to all those people that make both The Meandering Mouse and The DPN a success: The listeners and other Disney podcasters out there. I simply asked people to send in audio clips with whatever content they saw fit. Whether it be a ride-thru made in the parks, a congratulatory remark made in honor of the podcast / network, or something completely goofy, it will be showcased here on this special show. I expect this show to be a long one based on the number of audio files sent to me. Kinda interesting....this show was produced while traveling across the entire country, a huge portion of The Pacific Ocean, and on two different islands which are the most isolated on Earth. The music I used / mixed together with all the segments in order to provide a smooth flow to the show was inspired / chosen by me after I toted my Ipod 37 miles up into an active volcanic crater. The 37 miles you travel to get to the summit of Haleakala in Maui is the greatest elevation gain in shortest distance that you can experience on Earth. I meandered up the mountain and 2.5 miles down into the crater by my lonesome on March 1st. I had my Ipod on the entire time and most of the tracks I experienced on that lonely but fascinating journey were used in my 1 yr anniversary show....inspired to say the least. I sat on the edge of a volcanic cone and stared at the clouds rolling in BELOW me for about an hour....just listening to music and pondering my tiny place in this world while all alone in that desolate, alien-like, but beautiful place. It really made me feel insignificant but, sometimes, you've got to blast down the walls of your ego in order to better yourself and discover your true place on this Earth. Here is the lineup of audio clip submissions in the order as they occur: 1 - Brian Sommer as the UPS man 2 - Intro 3 - Show opener by Jonathan Dicther 4 - Mr. Mark 5 - DPN Gang VM from EPCOT - MattfromPA - Sean (Silvrwolf2006) - Artjaro - Jackey - Kira714 and Family - Steve (steafan) - Barb - Steven - Sean (Silvrwolf2006) 6 - WTTM's Paul Barrie 7 - Gary Chambers - Mouse Lounge 8 - VM - DPN'er Ryan D. 9 - VM - DPN'er NickMonte (Pete) 10 - Lou Mongello 11 - Beyond Main Street 12 - Chris - The Big D Vidcast 13 - Brad from Bringing Disneyland Home Vidcast 14 - Let's Talk About Disney / Bare Necessities Crew 15 - Saul's Sister - DPN'er Patrokls 16 - Brian Sommer 17 - pdxmickey (David B.) - Matterhorn Ride-Thru 18 - Jackie O. The Meandering Mouse #52 – Virtual Tokyo Disneyland and Space Flight Meanderings (3/16/07) 1:01:10 [823] *Headphones* This week I introduce a new member / guest host of the Meandering Mouse podcast. DPN forum member Doug aka DisneyParkHopper has started to produce some excellent "virtual meandering" tours of the Tokyo Disney Resort just for the Meandering Mouse. This show will feature his first piece which takes you on an amazing sound tour through Tokyo Disneyland. You won't want to miss this one and headphones are a must!! I've also got a ride thru which I truly labored over. Mission Space is one tough attraction to record well but I finally nailed it while Q and I were on a zany space flight to nowhere. This has to be one of my favorite little pieces of audio that I've taken with my buddy Q. It took MANY tries to get this one sounding right. We had the entire space pod to ourselves which left us to carry on like mad while pushing buttons and flipping switches. Fasten your seatbelt. It's a wild ride! The Meandering Mouse #53 – First Unofficial Westfest Meanderings at Disneyland *PG* (3/28/07) 1:28:57 [823] ***Show is RATED PG*** For this show, I dug out all my audio from the first Westfest. This stuff was taken before the little gathering even had a name. My aim here is to let you in on what my experience was like for the very first large gathering of DPN'ers which occurred at Disneyland during the tail end of Summer 2006. You'll actually be along with me via audio as I meet new friends for the very first time, take crazy rides with crazy people, generally get to know strange Internet people, and have a bunch of fun. This is meant to be your Westfest primer as The DPN's first officially organized park event will be occurring this April. As the founder of The DPN, I'll share my personal thoughts and feelings of what I feel Westfest should be after experiencing many in park meets with A LOT of DPN'ers. Remember, your Westfest experience, if you are planning to attend, will help shape the event. Even if you are not attending, this show will give you the experience as well as I can provide it through the magic of audio and editing. We will also get to compare the first tiny Westfest with what promises to be a much larger and more significant gathering this year since everyone will be coming back from this year's event with much audio to share on their podcasts. Here are some features included in this show: -Burnt / Bitter Toast verbally abuses me -My first time meet with DPN'er JohnDUB -JohnDUB and I meet DPN'er Coco Wireless in the park. -Myself, JohnDUB, and Coco Wireless take a ride on Indiana Jones. -My first time meet with DPN'er MouseketeerGreg. -Mike from Micecast and MouseketeerGreg and show me something dirty. -Toast and I do a live Restroom Refurb Review in Fantasyland. -Mike from Micecast takes me on a hot date on Autopia. -I meet with Paul Barrie and crew. -The Drunken DPN Heimlich Chew Chew Train Ride - 11 DPN'ers fill a pirates boat at park close. The Meandering Mouse #54 – Virtual Tokyo DISNEYSEA Meanderings (4/11/07) 1:21:33 [823] ***Headphones a Must***One of the newest members of The Meandering Mouse, Doug aka DisneyParkHopper, is back with another awesome production which will transport you to what is arguably the most detailed and elaborate Disney theme park on Earth: Tokyo's DisneySea!!! Through the magic of sound and your own imagination you'll be put right in the middle of the park for the grand tour starting with a ride around Tokyo Bay on the monorail to the park's station. Can't make the trek to Tokyo yourself? Well, here's your chance to travel to the park....virtually. Headphones are a must for this experience. The virtual Tokyo meanderings completed by Doug will serve as an excellent primer and introduction for my actual meanderings to be taken at the Tokyo parks. Yup! The Meandering Mouse will be headed to the Tokyo Disneyland Resort in June of 2007 and I'll be

sharing my experience with you! Next week, I'll be introducing a new segment which will become a regular for The Meandering Mouse Podcast. That's right! I have yet another addition to The Meandering Mouse team. The Penny Press, produced by DPN'ers ProudMonkey and HaleobyDesign, presents real Disney news presented in a style completely unique to the Disney pod-o-sphere. When I say unique, I mean unique. It's funny in the style of SNL / The Daily Show, smart, a bit sarcastic, under 10 mins long, and, most importantly, flat and worthless. With all the new and unique additions to The Meandering Mouse Podcast, this promises to be an exciting 2nd year for the show. Have fun and enjoy! The Meandering Mouse #55 – REPOST – Flat and Worthless DL Meanderings (4/23/07) 1:13:08 [823] *REPOSTED** *RatedPG Headphones Suggested* On this somewhat sarcastic episode of The Meandering Mouse, I take you along with me as I discover some of those "not so awesome" attractions and park moments around The Disneyland Resort. You know, those things in the park that simply leave you feeling flat and worthless kinda how those souvenir Penny Presses leave your hard earned money feeling. Not to worry though....I do leave you with some park sounds that are sure to make you feel fat and sassy. Afterall, it can't all be bad. To end the show, I feature a new segment for The Meandering Mouse which showcases the real meaning behind this week's show title. I am honored to have DPN'ers ProudMonkey and Haleobydesign on board as the creators of the phrase, "flat and worthless" and the talent behind The Penny Press. The Penny Press is a 10 minute romp through real Disney news done in the sarcastic style of Saturday Night Live's Weekend Update / The Daily Show. They aren't trying to present the Disney news in a timely and dry fashion as we are used to hearing it. Rather, The Penny Press delivers the Disney news to you the only way they know how, "Flat and Worthless." Wow, there's that phrase again. Look for t-shirts soon ;) Please provide ProudMonkey and Haleobydesign with feedback over their segment. They are very focused on making the audience happy with their production efforts and request that all feedback be posted to the DPN show thread so they can field it. All feedback they get will only help the segment get better. Thanks as always for the support guys and gals! Please visit www.myfavoritemouse.com for all you Disney travel needs. The Meandering Mouse #56 – Disneyland Dark Ride Suite and Westfest Meanderings (5/6/07) 1:37:22 [823] *HEADPHONES A MUST FOR THIS ONE - Rated PG** This show features my classic styled in park meanderings taken live during my Disneyland Westfest trip. I literally had less than 4 hours in the parks alone over the course of 7 days due to all the social engagements at Westfest. I gathered very little usable audio. However, one morning, I used my 3 day Parkhopper for early morning entry into Disneyland and I take you along for the entire Fantasyland Dark Ride Suite and a little more. The Meandering Mouse #59 – Odd Tokyo Shops and CattleMover Virtual Meanderings (6/19/07) 1:10:50 [823] As my send off to a far, far away land and the mysteries of The Orient, join Doug (aka DisneyParkHopper) on another virtual journey thru Tokyo. This time he takes us to a somewhat benign area of The Tokyo Disneyland Resort: Ikspiari. His soundseeing adventure will take on a creative twist and is sure to entertain. Enjoy your tour of "Shops Lost in Translation." To end the show, join Doug on a tour of a beloved extinct attraction: Disneyland's Peoplemover. Doug's tour quickly gets derailed by an old friend. This segment was produced for the Westfest Banquet Dinner. However, the sound system at the event choked during playback. MMCTV EP0105 – Hong Kong Meanderings / Video tour (8/31/07) 36:51 [823] Meandering Mouse Club TV - Disney Park Video Adventures from Around the World! n this episode of Meandering Mouse Club TV join Joel, Coconut Wireless from the DPN boards and the man behind

Frikitiki productions, as he explores Disney's newest Asia park: Hong Kong Disneyland. Starting along Main Street USA and heading into Fantasyland, take in the sights before heading over to Adventureland that has been captured and over run by pirates. See how the pirates have "decorated" the place now that they now control. Maybe a jungle river cruise will relax us first before we attempt to get past more pirates to get back to the safety of Main Street USA. To hear more details of Hong Kong Disneyland and Joel's trip there, check out The Meandering Mouse Podcast EP#65 where he, Jeff from Houston, and Jesse from Mousepod have a discussion about the trip. The Meandering Mouse #66 – Celebrating 25 Years of EPCOT Meanderings (9/11/07) 1:44:08 [823] **The MM Show is Made for Headphones** EPCOT is a theme park like no other on earth and is celebrating it's 25th year this Fall. Disney saw fit not to greet this landmark with fanfare typical of this type of event in the parks so we in the Disney fan community have chosen to acknowledge the EPCOT legacy on our own. This edition of The Meandering Mouse will reflect upon EPCOT's story. Millions of people from around the world have graced it's pavement and attractions over the last 25 years and the park has an interesting history to present. In this show, I will reflect upon EPCOT along with sharing my personal thoughts and feelings over the park in celebration of it's birthday. Special guests for this show will be doing the same: -Lou Mongello from WDW Radio shares what makes the park special for him -DPN'er and MMCTV producer, Joel (Coconut Wireless), shares many details about his stint as a cast member working at EPCOT back in it's golden years of the late 80's. -DPN'er Artjaro shares his thoughts and feelings over the park as a former cast member at the Disney resort. As the main feature of the show, Doug aka Disneyparkhopper has prepared a spectacular "backstage meandering" through spaceship earth. We look at the backstory, history, and evolution of spaceship earth. The beginning of this piece will also present some EPCOT history since Spaceship Earth is the icon of this 25 year old theme park jewel. Tokyo Disneyland Summer 2007 special park event / overlay. Stitch's Huli Huli Bash Parade. Produced in association with Frikitiki Productions. There was a lot of talk on the Meandering Mouse Podcast about the Tokyo Disneyland Stitch park overlay that happened during the MM crew's trip to the Tokyo Disney Resort in June. Well, this episode of Meandering Mouse Club TV presents the centerpiece attraction of the Summer 2007 celebration at Tokyo Disneyland. Join Stitch and all his friends in the Huli Huli Bash Parade at Tokyo Disneyland. Tokyo takes it's themed park events very serious and this special parade gives you a taste of these special happenings which occur year round at the Tokyo Disney Resort. The Meandering Mouse #69 – Jeff n Q Wreck Disneysea and Penny Meanderings (11/21/07) 1:19:00 [823] *PG-13 WARNING* *Headphones R Good!* Happy Turkey Day for Those Listeners that Celebrate the Holiday! We start this show with an oldie but goodie edition of The Penny Press. In fact, I think it's the funniest one the guys have produced as they answer an actual DPN'er email during IMHO. Be forewarned though, this one is a little edgy. PG-13 for sure. Soooo, open your mind, your ears, and just freakin laugh or I'll sic monkey on yo bottom. Next up, follow Q and I into Tokyo Disneysea as Q gets his first taste of the Tokyo parks. This is an odd meandering because the commentary was completely natural and, uhh, almost silent. Q had lost his ability to speak once he walked into Disneysea and rightfully so. Disneysea is the type of place that truly knocks the wind out of you when you first see it. So expect this meandering to start off a but slow as we move into the park. You'll get to enjoy some of the ambiance with us and laugh at Q when he starts sounding drunk and unable to form sentences. After the initial walk into the park, you'll come along for the following: -An Inebriated dunk on 20,000 Leagues Under the Sea with Equally Drunk Sea Monkey Aliens -Q's first ride on one of my very favorite Tokyo Disney attractions - Sinbad's Storybook Voyage To end the show, we continue with another edition of the Penny Press because I don't want monkey pooping on my lawn for falling behind. The Meandering Mouse #73 – Backstage PeopleMover Meanderings (1/20/08) 1:16:18 [823] **Made for Headphones** Since the Meandering Mouse has some life changing tasks on his plate to deal with right now, Doug, aka DisneyParkHopper on the DPN forums, has stepped up to the plate to fill in with some more great material. You'll hear from the ole' Meandering Mouse in the intro as usual, but Doug takes on the meat and potatoes here. During this episode of The Meandering Mouse, you will get the full facts on Disneyland's now extinct PeopleMover. Doug tried to cover this attraction last year but was insanely de-railed by an unsuspecting and overly enthusiastic tourist. Enjoy the history and magic of this missed attraction as Doug masterfully guides you through an informative and entertaining soundscape of Disneyland's beloved PeopleMover. Have fun and enjoy! The Meandering Mouse #74 – EPCOT Evening Meanderings (2/1/08) 51:06 [823] *PG* **Made for Headphones** Flight delays threw me for a loop and my arrival day at WDW didn't turn out as I had planned for this live show. I was surprised I even made it into the parks before they closed the place for the night. However, I did turn out a recording and mange to post it about 4 hours after it was made here at Walt Disney World. Meander along with me as I enter EPCOT's World Showcase via the Boardwalk and enjoy Mo' Rockin and Illuminations. My colorful commentary is in tow and this is simply a stream of consciousness ride through a short evening at EPCOT. Have fun and enjoy! That's the Monster's Inc. Laugh Floor for those that haven't figured it out. And yes, that is funny :) And no, it's not my fault that they named it that way. What a bunch of dirty birdies. myself and DPN'er Lorien aka Auntie Lo aka The Queen of The DPN Island as we go over our February of 2008 Walt Disney World trip. Fun was had by all but, oddly enough, we didn't bother riding much at all during the entire week. It just goes to show that being with good friends at the Disney parks causes the attractions to take a back seat to the good times you can have simply spending time with loved ones. This one clocks in at about 2 hours so get comfortable. Have fun and enjoy! Thanks to everyone that has made donations to The Meandering Mouse and The Disney Podcast Network thru the website! The Meandering Mouse #77 – Disneyland Paris Meanderings (4/10/08) 1:12:49 [823] **Made for Headphones** The Meandering Mouse has been buried in moving boxes for the past few weeks. Thus, Jeff from Houston is on hiatus. Luckily, Doug turns in another amazing sound seeing experience as he shares with us his recent Disneyland Paris experience full of his personal audio from the park. This show will only contain Doug's audio production...no intro by me...no audio bumpers...we just get on with the show. Thanks for the patience as I deal with a major change in my life. -Jeff from Houston ********** In this episode Doug (aka DisneyParkHopper) concludes his trip report from visiting the Disneyland Paris Resort last summer. This time, he will cover the

Disneyland Paris Park. This trip report will include plenty of ambient park audio and audio sightseeing commentary. It will also include full ride thrus of the Fantasyland suite, as well as pirates of the Caribbean and phantom manor. Enjoy this glimpse into one of the most beautiful magic kingdom's in the world.Have fun and enjoy! The Meandering Mouse #78 – Full Circle First Steps into Disneyland Meanderings (5/7/08) 1:21:16 [823] **Made for Headphones** **PG-13 WARNING** The Meandering Mouse is back with a bang after being on hiatus for a handful of weeks! The MM show and The DPN all started with an email to the Trapped on Vacation podcast. I wrote in telling the host, now known as Earl, that I would be taking my first steps into Disneyland and would experiment by sending him some audio of my experience. He played the audio of my first steps into the park and my podcasting adventure began. Soon after that, I founded The Disney Podcast Network. We now come full circle just before The DPN's Westfest 2008 begins with myself following Earl and his Bleepin' Wife into Disneyland as they take their very first steps down Main Street. The reactions are captured here and I won't soon forget the moment I had with my close friends. Earl was recording his experience as well so you will hear him narrating his show as I narrate mine. It's quite interesting if not a bit odd. I also throw in some highlights of meeting up with a large number of DPN'ers for the first time during this year's Westfest. There are good vibes all around as I'm re-united with friends right before almost a dozen of us take a ride on The Matterhorn. The show closes with my experience on Disneyland's submarine voyage with a few fellow DPN'ers. MMCTV EP0112 – First Entry into Hong Kong Disneyland (5/20/08) 15:21 [823] Meandering Mouse Club TV - Disney Park Video Adventures from Around the World! First Entry into HONG KONG DISNEYLAND. Produced in association with Frikitiki Productions. Well, there has been some feedback that asked to show more of the Hong Kong park. Join me as we walk from the park's entry sign up through Sleeping Beauty's castle. We make a short stop into the exhibit in the Opera House. What was interesting about the display is that Disney is a new entity in that part of the world. While we grew up with Disney, they didn't so the Opera House is set up to tell guests about Disney the man and the Company. You'll see the two shows and some of the displays inside. I hope you enjoy the show! For the contest, I'm making it really simple. In the video I talk in front of a water feature, tell me who it is in the feature and what they are on. Send your answer to mmctvpodcast (at) gmail.com by 11:59pm HST on Saturday, June 14, 2008. The

prize will be the limited print henley shirt that has the embroidery in the front and the print in the back. Please send feedback to mmctvpodcast @ gmail.com and please rate the show over at i-tunes. The main portion of this show truly is a stream of consciousness. Classic Meanderings...just things sorta unfolding around me and you all are along for the ride. Follow me into Disneyland on a Saturday Morning for the first official Westfest day as DPN podcasters and fans gather at Carnation Plaza to grab schwag, reunite with old friends, make new friends, and kick off Westfest. MMCTV EP0201 – Disney's New DVC Resort Hawaii Site Footage (6/8/08) 12:59 [823] Meandering Mouse Club TV - Disney Park Video Adventures from Around the World! Disney's New DVC Resort Hawaii Site Footage. Produced in association with Frikitiki Productions. After it was announced in October 2007 that The Walt Disney Company was going to build a new Disney Vacation Club resort in Hawaii, Joel went out to the site in Oahu and took some video of the plot of land and surrounding area so you can see where the resort is going to be built. Well....This is the footage and give you a little tour. If you happened to have seen Joel's Chief Magic Official video entry, there is some footage of the area in that video too. In the video the degrees, minutes and seconds coordinated are given so you can put them into Google Earth and get a satellite view. Here's hoping that they put in an Adventures Club into the resort. Give it a South Pacific theme and boo-ya, we might have a winner! During the same time frame the Lion King touring company was in Hawaii for a 13 week run (according to Disney this was the longest stay in any one city for one of the traveling tour companies) and they put some of the masks

from the show on public display outside of the area of the concert hall where they were performing. You'll get to see them close up. The Meandering Mouse #80 – Jeff, Q, and Superdry's Tokyo Adventures (Trip report) (6/17/08) 2:41:52 [823] **RATED PG - Made for Headphones** My good buddy Quenton (Q) and I visited Tokyo for 9 days about 8 months ago. We, of course, spent some good time at the Tokyo Disney resort but also had many weird and wonderful experiences across the Tokyo landscape. We share a somewhat rambling day to day account of our adventures but tie in our experience with staying at The Mira Costa, one of Disney's most luxurious resorts (if not the most luxurious), with DPN'er Superdry's odd letter writing bout with the same hotel. Superdry loves The Mira Costa but has one huge problem with the place. Quenton and I discovered the same problem which led to one the wackiest nights out on the streets of Japan. I am even pretty sure we terribly broke the law by accident. Superdry's first letter of concern and return correspondence with the The Mira Costa occurred a full year ago. A promise was made to occur one year later so he sent another follow-up letter this year. Yesterday Superdry received another letter from the Japanese people at the hotel. The letter has remained unopened until the recording of a segment to be included in this show. We head to one of Houston's weirdest Japanese Karaoke bars called Genji, have some Japanese beers, record Superdry's story, and finally open the letter he received via air mail to see what their response to the second of his zany letters may be. This will be an interesting and long show. Thanks to everyone that has made donations to The Meandering Mouse and The Disney Podcast Network thru the website! Real simple...We find our odd tourist out at Tokyo Disneyland with his Uncle Coconut. Uncle Coconut tries to sell Saul some prime real estate in the form of a Haunted Mansion and let's just say that I don't think the moving van ever made it to Saul's joint after his tour of the spooky house. The Meandering Mouse #82 – Retrospective of Rockets and Alien Encounters (6/27/08) 1:28:58 [823] **Made for Headphones** Doug aka DisneyParkHopper turns in another behind the scenes look at Disney attractions or what we like to call backstage meanderings: From DisneyParkHopper: In this Backstage Meandering, I take you through the history of two similar locations in Disneyland and the Magic Kingdom at Walt Disney World. We look at the space currently occupied by Redd Rocket's Pizza Port and Stitch's Great Escape. The history of these locations can be traced all the way back to the opening of Disneyland. So, come with me as we use ride audio and audio from television specials to explore A Retrospective of Rockets and Alien Encounters. Have fun on your trip! The Meandering Mouse #83 – Arriving in Tokyo and live BraviSEAmo Meanderings (7/6/08) 1:51:52 [823] **HEADPHONES A MUST FOR THIS ONE - TRUST ME - UNCOMPRESSED** On this show, I start with a simple stream of consciousness taken in the bathroom of a Boeing 777 while crossing the Pacific Ocean heading for Japan. We then journey from Narita airport to Maihama station as we make our way to the most fascinating Disney park on Earth. Tokyo DisneySEA. Meander with me jet lagged and lost in translation as I make my way through my Tokyo arrival day. The show finale presents a pristine live recording of DisneySEA's night time spectacular BraviSEAmo which I've been trying to capture successfully during all my travels to Tokyo...it just never worked out the way I wanted it to until this presentation. This is your chance to follow me as I cross the globe using planes, trains, and 4 wheeled luggage. It's exciting, it's an adventure, and I'm happy to share it with all of you. MMCTV EP0202 – Sindbad's Storybook Voyage (7/15/08) 18:34 [823] Meandering Mouse Club TV - Disney Park Video Adventures from Around the World! Tokyo DisneySEA's Sinbad's Storybook Voyage. Video taken in June 2007. Produced in association with Frikitiki Productions. At Toyko DisneySEA, there an attraction that I consider to be one of my favorite attractions across all of the nine Disney parks that I have visited globally. In the Arabian Coast section of the park is Sindbad's Storybook Voyage. It's a boat ride like Pirates of the Caribbean or Small World and some people have compared it to Small World. The comparison ends at it being a boat ride, though. While it might look like small dolls, they are full animatronic figures with great motion capabilities. When Jeff and I visited in June 2007, the ride had just come off of rehab. The imagineers had given the attraction a new storyline. Alan Menken of "Little Mermaid" along with Glen Slater created the song "Compass of your Heart" which follows you throughout your voyage with SIndbad and his loyal tiger cub, Chandu. I was fully captivated by the ride. Mermaids, genies, thugs, giant birds, dancing monkeys...this attraction has it all! It is fully original, the song is catchy, the sets are detailed, and the animatronic figures are amazing (just watch for the belly dancers!). Too bad they didn't sell Chandu plushes. Before we take the ride, you get to see some of the Oasis area of the Arabian Coast that is next to the Lost River Delta. This area was seen briefly in MMCTV EP0111, Musica Mexicana. Playing in the background is the Port Theme Song for the Arabian Coast which is taken from the Tokyo DisneySEA 5th Anniversary Music Album CD. (http://www.amazon.com/Tokyo-Disney-Sea-Anniversary-Celebration/dp/B000GPIHQ8).

Special thanks to Jeff for letting me use some of his pictures of the attraction in the video. I hope you enjoy this trip into Sindbad's Storybook Voyage. Please rate the podcast at I-Tunes. The Meandering Mouse #84 – Tokyo Honey, Haunted, and Splash Mt. Meanderings (7/23/08) 1:10:49 [823] *HEADPHONES STRONGLY RECOMMENDED* *NEWS* Head over to The DPN and pay a visit to our newest official DPN podcaster. I'd like to welcome Keegan from The Adventures of a Teenage Disney Geek Podcast to The DPN Roster. Tokyo Disneyland Morning Meandering Photos Taken by The Meandering Mouse in Tokyo - found at http://www.flickr.com/photos/meanderingmouse - Check them out! This show will open with an in-park recording of Tokyo's special 25th Anniversary Theme Song. I was captivated by this song during my entire Tokyo Disney experience. They played this song throughout the parks on many occasions especially after parades and shows. Unfortunately, the CD single of this song I purchased in the park came only in Japanese and doesn't sound nearly as enchanting. The clapping you hear is coming from guests as each of the Fab Five passes in front of Lido Isle on floats to conclude DisneySEA's Legend of Mythica. Listen closely to the girl FREAKING OUT when Minnie waved to her. It was an oddly funny moment and insight into how serious the Japanese are over the Disney Characters. And for the main portion of the show....Join myself, Superdry, and Matt from Dallas for a relaxing morning at Tokyo Disneyland. We first take in, arguably, one of Disney's best attractions with Pooh's Hunny Hunt. Then we head over to the Haunted Mansion which is oddly located in Fantasyland along with Pooh. To finish things off, we take in my favorite version of Splash Mountain in Tokyo's Critter Country. Overall, it's a well-rounded offering of Tokyo e-ticket attractions. The Meandering Mouse #85 – EPCOT Wonders of Life Virtual Meandering / Retrospective (8/2/08) 1:21:27 [823] Join Doug aka DisneyParkHopper for another look back at a classic EPCOT Attraction that has since closed its doors. As usual, you will get behind the scenes facts and great audio from the pavilion and attractions inside. One of my favorite and most underrated Disney attractions, Cranium Command, is featured on this show: From Doug: In this show, we take a virtual meander through a now extinct pavilion - and it's not Horizons. This pavilion is used for special events and exhibits, but its original form was truly one of fun and learning. So, come with me as we visit Goofy About Health, Body Wars, Cranium Command and others in this virtual meander through the now extinct pavilion from Epcot Center - The Wonders Of Life. Join myself, DPN'er Superdry, and Matt from Dallas as we meander around Tokyo's DisneySEA one morning. This show features a journey to the park aboard the Resort Liner, a Journey Into the Center of the Earth, and a journey under the sea with Ariel and friends. It took me 3 trips to Tokyo to finally experience one of the top stage shows at the resort. Join me and my friends at DisneySEA's

Mermaid Lagoon Theater as we experience "Liquid Theater." To be truthful, I didn't expect much from the Mermaid Lagoon Theater. As per usual at the Tokyo Disney Resort, I was pleasantly surprised. What I found inside was one of the most impressive special effects oriented stage shows Disney has ever produced. The costumes were stunning, the stage rigging and props were beyond impressive, and the sound was filled with live singing by Ariel herself. Overall, it was a wonderful morning at DisneySEA and you are along for the ride. About the only thing these three videos don't have is the Kitchen Sink (ate one of those by myself in August 2006...Don't believe me, check out my flickr pictures Kitchen Sink set) This video covers my last day on the trip after the official end of Mousefest. For me, this has been the best day ever that I spent at a Disney park. It was a totally relaxed day. Even though I did a lot, it wasn't a totally blow out rushed day. I love the streetmosphere over at Disney MGM Studios, now the Disney Hollywood Studios and some of my funnest experiences are captured here. Starting at the Studios, going over to Epcot and then finishing up at the Polynesian, this was just an awesome day.

I hope you enjoyed hanging out with me on my Mousefest 2007 trip experience. Date: Tuesday, December 11, 2007. I just returned from a trip to Disneyland during the Christmas season. After being to both locations for the US parks, Disney is special, but while they are decorated for Christmas and the holidays it's a whole new experience. I would encourage you to check out either Orlando or Anaheim during December. Sharing that experience with other Disney fans during an event like Mousefest just makes you want to go WOW! Speaking of being with other Disney fans, mark April 30 thru May 3, 2009 to be at the DPN Westfest event at the place where it all started, Disneyland in Anaheim, California. The Meandering Mouse #92 – Meandering Mimi Tribute and BleepinFest Fun (2/22/09) 1:49:23 [823] **Headphones suggested** I haven't posted to The DPN let alone produce a show since December. I've received heaps of email wondering what's going on. This show answers that question, we say goodbye to my Grandmother who recently passed away, and we go have some fun in the parks with my buddy Q and many other DPN'ers. It's that simple. Walt Disney World Produced in association with Frikitiki Productions. Meandering Mouse Club TV - Disney Park Video Adventures from Around the World! Disneyland Paris Legend of the Lion King. Produced in association with Frikitiki Productions. In the Camp Minnie Mickey section of Disney's Animal Kingdom you'll find the Festival of the Lion King. In Hong Kong Disneyland in Adventureland you'll find their version of the Festival of the Lion King (check out MMCTV EP0110 to watch their show). In Disneyland Paris, deep in the heart of Discoveryland is the Videopolis Theater. There you will find the third incarnation of the Lion King. Their version is called The Legend of the Lion King. Each version tells a similar story but are all different from each other. The two Fesitvals are done in the round while Legend is done in a more traditional stage setting. You're probably thinking to yourself it's from Paris so it will be in French....well, it's in English so you'll get full enjoyment from watching! Nants ingonyama bagithi Baba! With Mousefest going on hiatus for 2009 there will be fewer planned gatherings of Disney friends. Well, fear not! The DPN will be holding their annual gathering at the place where it all started, Disneyland in Anaheim, California from April 30 to May 3, 2009. The Meandering Mouse #93 – Meandering Around, Around, and Around (3/18/09) 2:00:14 [823] **Headphones suggested** Meandering Around, Around, and Around Join Doug (DisneyParkHopper) as he explores one of the original attractions from the 1964-65 world's fair. In this episode we will doing another backstage meandering - this time through the Carousel of Progress. We will venture

The Meandering Mouse #94 – Meandering Mouse and Superdry's Tokyo Retrospective (4/12/09) 3:12:44 [823] **Headphones suggested** This is a MEGA TRIP REPORT done by myself and Superdry which includes live audio taken in Tokyo spliced into the format. This baby clocks in at over 3 hrs in length. The Meandering Mouse has been on hiatus. What better way to get back into the swing of things than with a heavy dose of Meandering goodness. This show serves as a trip report for my July of 2008 Tokyo trip but was recorded live in Tokyo as of this posting. We wanted to share our experiences of our last trip as we embarked upon a new one. Superdry and I talk about every day we spent in Tokyo during the Summer of 2008 in great detail while I include audio taken from the trip. So, join us in our discussion and experience the fun with us through the magic of audio. You'll enjoy train rides in Tokyo proper, Taxi rides, and even an interview with a Tokyo Disney fan website creator. This show is packed with interesting material and I think you'll really enjoy it. Look forward to more audio as I complete my Disney park world tour within the next week. Have fun and Enjoy! The Meandering Mouse #95 – Meandering Mouse and Joel's PARIS Retrospective (6/9/09) 3:14:16 [823] **Headphones suggested** Before getting to my Hong Kong Disneyland in park audio experience, I wanted to catch up and do a proper trip report with Joel in regards to our Paris journey. This trip saw me completing 10 of the 11 Disney parks worldwide while Joel fulfilled his dream of visiting all 11 of the Disney parks around the globe. During this LONG show (3+ hrs), we go through a day by day account of both our Paris city adventures and, of course, our Disneyland Paris Resort adventures. We review attractions, meals, go over travel tips, and offer our perspective up over what was one long, challenging, but amazing journey. I splice in a few audio clips from the parks to spice things up. The Meandering Mouse #96 – MM Returns! – Tokyo Monster's Inc. Grand Opening Day (9/16/09) 1:22:26 [823] **Headphones suggested** Well, it certainly has been awhile since I've produced a podcast. Life has twisted and turned in so many directions since my last show, I can hardly keep my head on straight. Hell, my old friend Burnt Toast doesn't even live on the left coast anymore. What's the world coming to? After completing my Disney Park world tour last April with my visit to Hong Kong, the world, for me, quickly took on new meaning. I'll start the show off with a short blurb in regards to why the show has run silent over the past handful of months, discuss changes going on with The DPN for those that haven't heard, and then get on with some classic audio meanderings taken in Tokyo. This show features myself and Superdry out at Tokyo Disneyland one early morning as the madness of the grand opening of Monster's Inc. Ride and Go Seek takes place. We rush into the park after the gates open and encounter a massive line winding thru the park just to get a fastpass for the highly anticipated new attraction. About nine hours later, we actually get on the attraction for the first time and, of course, take you along for the ride. podcast@meanderingmouse.com Flickr: flickr.com/photos/meanderingmouse twitter: meanderingmouse plurk: meanderingmouse Have fun and Enjoy! The Meandering Mouse #97 – Completion of the Worldwide Disney Tour – Hong Kong (10/12/09) 2:04:51 [823] **Headphones suggested** Join myself and Superdry as we make our way through the streets of Hong Kong and onto the metro system headed to Sunny Bay Station which connects to the Hong Kong Disneyland line. The one and only stop, of course, is Hong Kong Disneyland. Afterwards, I make my exciting steps onto property thus marking the end to my Disney Park World Tour. Looking back, I visited all 11 of the Disney Parks across the world in under a years time. Here is a run down of that busy year of travel: May 08 - Disneyland (2 parks) July 08 - Tokyo Disney (2 Parks) Sept 08 - WDW (4 Parks) Oct 08 - Disneyland Paris (2 Parks) Dec 08 - WDW Jan 09 - WDW April 09 - Tokyo Disney / *Hong Kong Disneyland* So there you have it. All Disney parks on Earth in less than 12 months. It's far from an impossible feat but, dare I say, a dream come true for a Disney park fan *cough* dork. Hong Kong Disneyland is a small park which most would consider a "half day" park attraction wise. What it lacks in the realm of attractions, it makes things up with some of the most beautifully landscaped grounds and surroundings. The spit and polish witnessed at the park itself is just as impressive as the Tokyo Disney Resort. However, the "newness" of this park mixed with the culture leaves things feeling a little sterile, empty, and there is much room (literally) for improvement. During this podcast you will experience most of the park's attractions with us, STORIES ABOUT HOOKERS, an edited portion of their daytime parade called Disney on Parade, and various other Meanderings. It's most interesting to spend an entire day Meandering with us at this somewhat odd Disney Park. It was an interesting experience which left a handful of things to be desired. Overall, I do have high hopes for this Disney destination in the future. It's a promising Disney park located in one of the most amazing destinations in the East. Got ya wondering about the hookers, don't I? LOL podcast@meanderingmouse.com Flickr: flickr.com/photos/meanderingmouse twitter: meanderingmouse plurk: meanderingmouse Have fun and Enjoy! Highlights include: - A visit to the Haunted Mansion (A Halloween Show just wouldn't be complete without it) - Hanging out with dead people at the newly refurbished Hall of Presidents (a Halloween tradition started by Trapped on Vacation) - Hallowishes Fireworks Spectacular - Mickey's Boo to You Halloween Parade Happy Halloween Everyone! The Meandering Mouse #99 – Tokyo Disneyland Fun and Xmas Special (12/23/09) 1:54:40 [823] ¶ **Headphones HIGHLY suggested** Merry Christmas and Happy Holidays to all my friends and fans out there. It's been an insanely tough year to trudge through for me and I was happy to be able to escape my world completely in December of 09 by traveling to the other side of the Earth to experience more adventures in Japan. This year, I was lucky enough to experience the Christmas celebration at the Tokyo Disney Resort. It was an odd thing since Christmas, itself, in Japan is, pretty much, a Hallmark / retail holiday since their cultural and spiritual beliefs aren't grounded in this particular holiday as they are in the States. On this show, join myself, Superdry (Steve-san), and a mystery guest / friend of mine from Houston (Jason) who showed up to join us from Guam with one day's notice as we explore the parks and take in some of the Xmas festivities. This show has it all...classic meanderings, great ride thrus, and amazing special Christmas Parade audio.

Highlights include: -Not so wonderful audio of Space Mt -Tokyo's Haunted Mansion Holiday - Tokyo Disneyland White Holiday Christmas Parade with commentary -Monster's Inc. Ride and Go Seek -Tokyo Disneyland Dreamlights Christmas Edition I hope everyone has a Merry Christmas and Happy New Year. Thanks for hanging in there with me as a challenging year had the podcast put on the back burner. I've got more audio to come from the Land of the Rising Sun including some off the beaten path romps into Tokyo proper so keep your ears peeled. Have fun and Enjoy! James' Coffee Blog Show – An introduction, taxi drivers, moments of joy (6/25/23) 21:49 [987] Welcome a new show to Onsug – James' Coffee Blog Show. "Join me for a monologue wherein I share what I am thinking. I expect to cover topics like personal websites, the IndieWeb, moments of joy, writing, and more!" ¶ Join me for the first episode of the James' Coffee Blog Show, wherein I give an introduction to the podcast (to which I may refer interchangeably as a "talk radio" show, in reference to my affinity for Frasier) and talk about what was on my mind: moments of joy featuring a taxi driver, personal websites, decentralized social media, and verbal monologue as thinking.

James' Coffee Blog Show #2 – Taylor Swift, dreams for the web, tea (7/2/23) 22:16 [988] Join me for a monologue wherein I share some topics on my mind. In todays episode, I cover, among other things, a tool to see how similar your voice is to Taylor Swift, dreams for the web, tea, and more.

James' Coffee Blog Show #3 – Bubbles, programming languages, use-case driven development (7/8/23) 22:54 [988] A curious mix of topics indeed! Join me for my latest podcast episode in which I discuss, among other things, bubbles, programming languages, and use-case driven development. I also talk about Ruben's blog, a source of inspiration that encouraged me to expand the topics about which I write on my blog. In the episode, I also mention the Overnightscape Underground, to which episodes of this podcast are now syndicated. I hope you enjoy the episode!

James' Coffee Blog Show #4 – Children's television, static websites, all things coffee (7/15/23) 26:58 [988] Join me for the fourth episode of my podcast wherein I talk about, among other things, children's television, static websites, grammar, and all things coffee. Unlike in the last episode, I am not drinking a cup of tea during recording, although in hindsight perhaps I should have prepared a cup (or even a cup of coffee, given I recorded this episode in the morning).

James' Coffee Blog Show #5: The Barcelona Episode (7/25/23) 27:42 [989] In this episode, recorded as I walk through narrow streets in Barcelona, I talk about some of the churches I have visited on my trip, words, and more.

No Snowjob - 4:07 [641]

Jim Fidler announces the launching of the Snowman Radio Podcast
---
The SnowMan Radio Broadcast, a satirical talk show, was produced between August of 1999, and May 2001 by Jim Snowbarger of Marshalltown Iowa. The program was broadcast over LiveStreamAmerica.com. Later shows were also broadcast on ACBRadio.org. Shows were also posted on Live365.com and a now defunked service called GiveMeTalk.com. All voices and nearly all of the music used on this show were that of Jim Snowbarger.

The Program was supposedly originated from a mythical radio station known as WWSNOW, an A.M. station which featured talk programming comprised of the stream-of-consciousness ramblings of The SnowMan. The show featured three primary personalities:
---
* The SnowMan - the self-possessed star of the show and boss of the station. Hefty Genitals - NewsMan and general fun-loving man about town.
* The program engineer and producer, who speaks over an intercom system, often harassing the SnowMan as he does his show, but who is never named.

Other personalities referred to but never heard were Nookie, girlfriend of Hefty Genitals, an unnamed secretary, presumably the SnowGirl, and the staff psychologist Dr. Weebit Mental, though Dr. Weebit does make one appearance.

The program was actually produced in a small spare bedroom with an 8-channel mixing board, several effects devices and a computer. The first 25% of these programs were produced on analog tape, with the remainder done with multi-track computer software. All programs were produced on Saturday afternoon, and uploaded late saturday

I Still Remember is the working title of a full-length documentary that Lillian is producing about Jim, his life and his music. Lillian has set up an Indigogo campaign in order to raise funds for a trip to Halifax. Jim has been invited to attend and perform at a special tribute and ceremony to commemorate the School for the Blind in Halifax on September 28th, 2012. Jim attended the school from 1974 to 1983 and it was torn down in 1984.

This trip will enable us to gather vital information and interviews for the documentary. We will interview Jim's first music teacher, his bandmates and friends. The funds will be used mainly for transportation costs in getting us from St. John's, Newfoundland to Halifax and back. Anything over and above will be used in the making of the film.

The campaign ends on September 24th and there are lots of perks for those who contribute to the campaign.

In this episode our hero recounts an experience whereas his professional career was almost ended by the neurosis and ego of a famous Malibu Diva. But in the end, the joke was on her. Escapist Radio #3 - Hong Kong Businessmen's Lunch (10/01/10) 11:18 [801]

It's a binary day (10-01-10... get it?) release of Escapist Radio Episode 3, and it's a short one – but long on lessons to be learned when attending a proper Hong Kong businessmen's luncheon at a proper Hong Kong businessmen's restaurant. This show was recorded while driving the uncharacteristic uncrowded freeways of Los Angeles County VERY early in the morning.

While today's content isn't racy or generally vulgar, those who possibly have a sensitive constitution might want to sit this one out. It's not gross, just a wee bit disturbing in the end.

Escapist Radio #4 - The House At Haunted Hill (10/27/10) 49:51 [801]

It's that time of year once again. A time when children go door-to-door trick-or treating, adults have an excuse to act bizarre and people with certain talents shine in all their glory in the bathing moonlight. Yes, it is Halloween season.

In this episode we are introduced to a couple from Southern California who, for 10 years now, have been passionately displaying their home in the All Hallows Eve Holiday motif. But somewhere along the way, their passion of simply decorating the outside of their home for tricke-or-treaters turned into a real, honest to Golem high-end Halloween Yard Haunt with professional story production and state of the art lights, music, performances and special effects. What on this side of reality drives people to do such things for no more than the love of the holiday itself? Listen in and find out.

You can easily find out more about The House At Haunted Hill at their website.

Apologies up front, but this one was a bear to edit due to some serious technical difficulties behind the scenes. There are a couple of audio level and mix inconsistencies. All are due to temperamental software, flakey hardware and a trans-coder that couldn't understand what 192 kb/ps was, therefore the show was a day or two delayed – please enjoy anyway and I look forward to your comments here on the ONSUG Forum.

418 Show #5 (Oct. 2010) 19:55 [801]

418 Show (with Peter Bernard)

Robot intro, closing the cabin door, swinging on the porch, there's the chipmunk, humans are squirrels, thinking about family and kids, white kids can be annoying, be happy with what you've got, people staring at me, I want a hot meal, cabins and tents vs. Washington Heights, squirrels– playing or mating?, maybe I should be a "serious artist" instead of trying to make people happy, Jim Morrison's shamanism, the day I died, lay people becoming interested in shamanism, Skidoo, Cary Grant, Monkey Business, organic food supermarkets, trees all colors, wanted hot breakfast, enter zen through fried mushrooms, territorial pissings, look out for low stone fences, I am not an expert of anything, I know nothing about show business, music or anything else, in NYC people tell me who it would be good to work with, the chipmunk is living under my cabin, I never understood bar hopping, here comes a tractor trailer.

Mystery cat video– please help me solve the mystery of what this cat was:
Around 10 after 7 am on the morning of 10/15/10, the birds started making a fuss and I looked out the screen door of the cabin to see a cat run past from left to right. I had not seen ANY cats the entire time I was up there but saw plenty of chipmunks and squirrels. I grabbed the camera and turned it on and ran outside. I saw the cat sitting in the dark. I tried to lure it out by talking cat language to it. When it finally came out into the light, it was larger than I had realized and I'm sort of glad it was scared of me.
Video and photos here:
http://209show.com/418/spottedcat.html
It looks sort of like a bobcat but has a long fluffy tail. Maybe it's a large house cat mixed with a wild cat? If you can solve this puzzle, please forward along your findings to peter@peterbernard.com.

Public Drunkenness in Paris (Americast #11)

Ohmygod I'm so sick, I don't know how the French drink this much. French children can like hold their liquor better than me and Deb. Well, better than me anyway, Debbie can like drink more than Lindsay Lohan the day after parole finishes.

Thank you for all you intelligent men and women who voted for me for Valentine's Day and everything. Maybe this will wake Debbie up that she just isn't trying hard enough to be like the most fabulous girl she can be. Then again, maybe I'm too hard on her, expecting her to keep up with me.

Enjoy our latest bit of genius, lovers! As soon as the room stops spinning, we're booking a flight to some island or other I think. But for now, I'm gonna go be like sick again. Blah, pauvre, pauvre moi.

And we put the podcasterizer maker on the thingie there, like umm what do you call a pole but thicker and made of stone?
Anyway so then the whole webisode ended up sounding like we were

Interview with a Rampler!
OMG Deb and I got to meet the guy who owns like one of our internet radio stations or like something or whatever and like his name is Franky Nora and he's like really hot. I think he like wanted to cheat on his wife with me but he'll probably cut that part out when he runs this on his website onsug.com. Speaking of which, if you want to actually hear the Americast the way it's MEANT to be heard– on THURSDAY– then you'll have to like check out MY site, http://AliciaAmerican.com. Cuz if anything like goes up late on MY site, heads like STROLL and everything. Actually, I don't even know what that like means.

Anyway, darlings, I'm certain that like now that we've buttered Mister Franky up that he'll like pay us a lot LOT more to like do our show and stuff and everything. Or maybe at least upload our podcasts the same week we like release them. If not, then I AM willing to have sex, but not more than like once or twice, honestly.

Like 4 instance, we do NOT think its like EVAR appropo 2 like insult OUR PRESIDENT.
However, we were reading on this liberal website that the Tea Party are gonna like win the next election bigtime, so if the Liberals want us 2 support them, they better like prove 2 us they can like WIN it, yo!
Cuz Deb and I like do NOT bet on like LOSERS! LOL ♥♥
Plus like the Conservative Princess says we can support the Tea Party but not be Republicrats!
Make us a better offer than THAT, Liberatives! ♥♥ LOL ♥♥

Alicia on Acid

My sister and I believe that we are in sole possession of this moment in history & are unwilling to relinquish that which is rightfully ours.

And other than that, I am like UNAVAILABLE 2day for like comment and stuff and everything.

Music-like sounds by Dino Sorbello

ADDENDUM: Hi, Deb here. Lee just axed me 2 type in this "IMPORTANT ANNOUNCEMENT" that she just like dictated 2 me or whatever:

"I don't know why I never saw this before when its the most obvious thing anyone could ever possibly see. HOW MANY TIMES have you been to forever? How many times have you HAVEN'T?

"Deb says we're in the air in Brooklyn but that's impossible because she's in the Dominican and I'm upstate making a souffle. LOL that's a funny word– souffle.

"There are aspects of every aspect of every thing which are incorruptible. You can tell it by their accent when they smile at you.

"I realize NOW that it is OUR JOB to skin the cat– OUR JOB OURSELVES! It's NOT up to the TV people– Darlings, we ARE the TV people! Stop acting as though you weren't animated too– we ALL

are, lovers, and THIS is our DEFINING MOMENT! From now on, we are The Beatles and the ONLY love greater than love is the love we love you with so abundantly, lovers!

Wiping the slime off

Darlings, have you ever worked with the kind of people who make you feel you need a REALLY LONG BATH after your project is completed?
Well, lovers, I work in show business so I really SHOULD be like USED 2 it by now.
However, as a human with a soul, I'll never FULLY adapt 2 Hollyweird, LOL.

This like old clueless talentless guy like hired me and my like crew?
Then like put us in a bag like cats and beat us with a bat for 2 weeks.
Apparently, that's legal if you like PAY people at the end of it and stuff.
As long as you're like completely talentless, you're allowed 2 abuse artists as much as if they were like in Gitmo!
At least that's what he told us, and WHY would a snake oil salesman ever like LIE?

♥Debbie♥ was in the Dominican, she avoided the whole ordeal.

Thank god for Deb, she is my rock, my like Philosopher's Stone.

OK this webisode has like secret references to like ♥The Conservative Princess♥ and to like ♥Andy Kaufman♥,

The latest show, Drawn Back Again Part One, is a continuation of a series of stories written in 2009. To listen to the previous episodes in this series, go to www.theunbodied.com.

It's one year after Megan's strange and, at times, dangerous mission to find Rachel's missing friends. Strange because in the course of pursuit she got lost in shape-shifting houses and met people capable of making unusual things happen. Dangerous because Smith, the thing who kidnapped the friends, didn't want to be bothered and had a funny way of torturing people just with his gaze.

In that year's time Megan has been avoiding all things strange, and that includes thinking about what happened and speaking to Rachel. But, an arbitrary decision one evening forces it all back into her memory. What happens next? Listen and find out!

The St. Paul Skyline (with Sarjé)

2010-2011
Hosted by Sarjé

The St. Paul Skyline (with Sarjé) - Theatre District (4/7/10) 49:48 [801]

Sarjé in the studio and streets of suburban St. Paul, MN.

The first show of "The St. Paul Skyline," with Sarjé. In advance, let me apologize for the uneven levels... hopefully I'll improve these next episode. Today:

Thanks, Frank! New viewpoints from the midwest of the U.S., show format/recording equipment, "a little bit about me." The question of productivity, show origin/formatting again, some shows "lost in the ether." A consolidation of shows, coming up, along with "LOST." Pause for "Jeopardy!"

Back at 2045 CST, walking/getting beer, the phrase "death and taxes." Where I live. A cat! Level Up Games. Nice night after a nice day. "There goes a cop." Old photos, show art, chemtrails, and Jon Stewart (May 18, 2007 @ Orpheum). The Minneapolis Theatre District. Anthony Bourdain coming up (April 16, 2010 @ State), the Travel Channel, Ani DiFranco. Ambient sounds at the liquor store. Architecture/drafting/construction/building codes. Back to Jon Stewart. Beer (Stella Artois, Summit). Black Sheep Coffee Shop (http://blacksheepcoffeecafe.com). Ambient sounds at the walk-up Dairy Queen. Again, really lovely night.

Back in the studio. "Castillo Blanco," and "Svalbard," also, hi Manny the Mailman. Live version of show sometime, maybe. "LOST," Desmond--trending on Twitter. Consolidation of shows--scattered thoughts--what do you think about this so far? (http://twitter.com/sarje) Goal mapping. Thanks!

The St. Paul Skyline (with Sarjé) - Theories Abound! (4/9/10) 39:11 [801]

Sarjé records in suburban St. Paul, MN.

Show 2: Theories Abound!

A note on today's show art: I mention Rochester, MN in today's show, so here's a photo taken there!

Friday April 9, 2010. "Delayed show," Severe Repair Universe, waking up with a song in your head, "Twilight" / "Boy" by U2, dream recollection, Twilight movies, mind control/conspiracy, Bono (bad Irish accent!). Night coffee, "The Big Bang Theory,"/Sheldon, annoying coffeemaker. Thanks listeners!

Internet radio networks (like terrestrial radio), Rochester, MN's tiny station (KNXR), ONSUG network, Adam Carolla network, Kevin Pollak, Chris Hardwick, getting my best friend on the show

sometime.

Experience rooms, themed restaurants/Rainforest Cafe, virtual reality/augmented reality, time cracks, “The Rhythm of Life”/YES, string theory, perception of time is linear (FYI: I realize that time is no longer used as the fourth dimension by physicists...but it used to be...anyway). Consciousness time-traveling (experienced as deja vu). Past-or-future projection experience rooms. Potential graphic novel.

Using Audacity, anyone with advice on mixing/levels for these recordings? Garden State, challenges of having “complete creative control” in filmmaking. “TBBT” is a “Roseanne” reunion show.

The St. Paul Skyline (with Sarjé) - Memory is a kind of time travel, too (4/12/10) 2:05:47 [801]

Sarjé records in suburban St. Paul, MN.

Show 3: Memory is a kind of time travel, too

Hey, it’s Monday, April 12, 2010 (first half recorded on Saturday, April 10, 2010). Annoying sound, amphitheatre, the Northeast (would be fun to visit). More thanks. Follow-ups on: “death and taxes,” “The Big Bang Theory.” Physics/electron behaviors, Law of Attraction. Accents/perception thereof, motorcycle interruption, “Land of 10,000 Lakes”/”Laws.” Ambient grocery-store sounds, chocolate syrup, and Justin Bieber query. Living situation, voice, accents/affectations, recording practices, Bluetooth rudeness. Rancid SPAM, Springfield vs. Springsteen, vegetarian/vegan cooking, revealing my hometown, Stockyards.

Quick pause, broken key, Doomsday seed bank (Svalbard). Artists/designers/creators as podcasters (response to Wayne), applying to chain/”big box” retail employers, “Minnesota Nice.” Writing a novel set in the 1990s. Grandparents, ghosts. Productivity, naps, vision, dreaming, “Waking Life,” 2006 trip to Miami, FL / lucid dream recollection. “Kevin Pollak’s Chat Show.”

Intermission. Return on morning of April 12, 2010. Duck in a tree? Bodum French Press travel mug. Thanks, Brian! Traveling with instruments, euphonium. Synchronicities, Overnightscape shows 587 and 474, Frank/Peter/birth control factory, staying up all night, the year 2007, I Ching and Tarot, depression, cleaning. 2004 in college, 2007 in Scotland coffee shop, recalling bad memories vs. good. Rush, progressive rock, Emerson Lake and Palmer’s “Pirates.” “The Prisoner.” Trader Joe’s Dark Sumatran coffee. Thanks for listening!

Sarjé and Kit converse from Minneapolis, MN. Recorded on a noisily-wind-gusty day: April 15, 2010.

The Pro from Dover – 01 (7/16/12) 50:00 [801]

Welcome a new show to The Overnightscape Underground… The Pro from Dover, with scottlo!

A life in flux and a looming major transition can only mean one thing for the Pro from Dover, turn on the digital recorder and tell the world all about it. Hopefully these little unscripted updates will find find friendly ears among the onsug faithful.

The musical bit of music at the end is from Javolenus and is called Rocky GTR chords. It comes from ccMixter.org and is offered under Attribution Noncommercial 3.0 CC licensing.

The Pro from Dover – 02 (7/19/12) 1:02:30 [801]

Installment 2 of the Pro from Dover series features audio responses to PQ's latest Bug Out episode and the debut of Mike's awesome Twin Peaks Adventure project. There's also a very dubious chain of coincidental connection drawn between Scarecrow from Wizard of Oz to Henry Spencer of Eraserhead via Dick Van Dyke's brother Jerry. Also discussed are steganography, animated GIFs, roller derby, The Goldbergs, and Google + Hangouts.

Still waiting for travel documents and dealing with a series of setbacks, The Pro from Dover returns with installment three. Public domain literary works mentioned at various points during the recording were Jack London's "The Jacket" (or Star Rover), "A Week in Waterloo in 1815" by Lady Magdelane De Lancey, Herman Melville's "Typee." Also mentioned, though not public domain, was Anne Lamott's "Bird by Bird."

The Pro From Dover - Episode 04 (10/22/12) 1:34:03 [801]

This fourth and final installment of The Pro from Dover is part of an audio project that began in July. The three previous recordings were all released on The Overnightscape Underground. At the time there was a reason for not posting the audio through the Scottlo Radio Blog but for the life of me, I can"t now remember what the reason was.

Looking back, I remember the excitement I found in discovering a community of like-minded audio enthusiasts. I continue to enjoy listening to recordings put out by several of the ONSUG people and hope to be able to begain participating in P.Q. Ribber"s fun and awesome weekly Overnightscape Central program.

But as evidenced by this current recording which was recorded over a period of three months in three different continents, I don"t know whether or not I"ll be able to produce any audio with any degree of regularity. I"m finding that things remain up in the air.

As mentioned above, this will be the final Pro From Dover episode. The orginal premise to document a series of transitions was a bit muddled to begin with. And now that those transitions have been gotten trough, undocumented for the most part, there seems to be no point to continue under this

label. I must confess, as a small satisfaction, that I was able to salvage enough audio from certain moments over this period to minimally fulfill the orginal premise.

Looking ahead, I continue to wonder what to do next on the web - with audio or otherwise. Personally, I"m really tired with the unscripted rambling that I"ve done for the past several years. Sometimes something listenable results but most times not so much. I think I"ve got a couple of pretty compelling project ideas. If I can pull something together, it will get posted here.

Until then, thanks for listening and please stand by.

scottlo calling - episode 001 (10/28/12) 1:19:08 [801]

I hadn"t realized that my first podcast, Tokyo Calling, began eight years ago this month until I was recording the opening segment of my new podcast: scottlo calling. It seems like a lifetime ago. And in many ways, it was.

So here I am in a new place with a new job and starting a new life and am compelled to again experiment with audio.

I"m afraid I don"t feel similarly compelled to write extensive show notes at present. It seems best to let listeners, if any, figure out what this is and what it"s about. I will however try to post relevant web links when appropriate.

The song played during the podcast was created by dlusionz and can be found on Sound Cloud and is titled Dreaming of the Middle East.

The book mentioned at a couple of points during the episode is "The Phenomenon of Man" and was written by Pierre Teilhard de Chardin.

scottlo calling – episode 002 (11/1/12) 59:21 [801]

Those who are willing and able to listen to this hour-long recording will get to hear how a Chinese knock-off of a classic Sony transistor radio came into my possession recently. The episode also features a few recordings of a local radio station that were picked up with said recorder. And finally

there is my effort to describe what the terrestrial radio cross-casting ds106 radio assignment, as alluded to in the previous blog post, might entail.

scottlo calling – episode 003 (11/8/12) 1:04:33 [801]

A couple of days ago it seemed there wouldn't be a next episode of scottlo calling. It felt as if there was nothing left to talk about. And then curious things began to happen.

First there was a blog post from Radio Errols about receiving a recent news paper from Japan's Kyodo news service via fax that led me to a cool old internet project.

Then while thinking about animated GIFs of exploding microwave ovens, I unexpectedly heard about the chance discovery that resulted from a Zagnut bar that melted in Percy Sinclair's pocket.

And before you could "Stand clear and keep your eye on the ball" 64 minutes of audio presented itself in mp3 format for your listening enjoyment.

scottlo calling – episode 004 (11/15/12) 56:09 [801]

In the course of recording this tribute to yesterday's mega-news about the word of the year (the verb form of GIF), an important and disorienting insight flashed in my mind's eye like the reflection of a neon gas station sign rippling across a puddle of spilled petrol on the pavement as the country radio station crackles from the office in the first moments after sunset on a warm and humid late summer evening. The insight being that the process of recording these wandering wonderings is not unlike the process of assembling an animated GIF. But then again, it's not entirely the same either.

Beyond that, everything else remains for the listener to discover in due course.

A Career In The Weeklies

2003-2005
Created by Marc Gorcey

A Career In The Weeklies was created by Marc Gorcey in Toronto, Canada. It was released on Toronto-based Internet radio station UMFM.net, from 2003 to 2005.

I was a fan of the series - it left a big impression on me. But a few years later, I noticed it was no longer available online. So I contacted Marc Gorcey, and he gave me permission to re-release the show, so that more people would be able to experience it.

I am very happy to be able to present this show to you here on The Overnightscape Underground.

--Frank Edward Nora, September 23, 2013

A Career In The Weeklies is a comedic soap opera adventure mystery.

Our hero is Eric Shea, a layabout and secretly asexual drinker who finds himself charmed into the exciting world of Toronto's weekly press. The charmer is a white-suited devil-tongued rascal by the name of Johnny Whispers.

Johnny and Eric meet in a Queen Street bar, and quickly strike up a friendship. Johnny explains that he plans to launch an explosive new newspaper called The Anti-News Weekly - a paper specifically designed to enrage the population of Toronto. He and his sidekick/companion Katrenkia Von Washing Machine convince Eric to follow them into their mad vision.

Johnny seems to have lived everywhere, done everything, and is currently in withdrawal from a severe Gravol dependency. His word is not to be trusted, but he's never had a dull moment in his entire life.

Katrenkia obsesses over Johnny, and pines for the time they spent in the Peruvian jungle together living off of guinea pig meat and wearing guinea pig leather. Eventually her overpowering shame drives her to nail herself into a wooden box of self-denial.

Eric drinks, frets that the secret of his asexuality will come out, worries about losing his mind, and works his ass off for the Anti-News Weekly.

Along the way, they meet such characters as SuperBeth the Kung Fu lawyer, Ace and Krystal the missile-firing potheads, Dave the reluctant porn merchant, slimy Member of Parliament Steve Curtis, and - of course - Baby Coco the lottery winning one year old.

The Anti-News Weeky is dedicated to provoking the masses from their long and fitful sleep. It shall succeed by positioning itself exactly 180 degrees from the popular opinion and broadcasting its opinions loudly and directly into the ears and eyes of those who don't want to listen. It shall destroy the inane, eviscerate the beloved, descecrate the sacred. It is necessary to destroy in order to create, and nothing begs for destruction more than the stale, palid hopes and imaginations of the common people. God save Toronto.

Bat Therapy - New Old World Panacea

SITFUSO

2000–2005
By Charles Daniels & Israel Brown

SITFUSO Compendium (2000–2005) [released 3/16/25] 2:32:16 [1008]

Comedy audio show SITFUSO, by Charles Daniels and Israel Brown, has been mentioned innumerable times on my show, The Overnightscape, and I'm thrilled to finally add it to the Onsug Radio archive in the form of this compendium. Israel Brown was a stalwart listener and contributor

in the early days of The Overnightscape. He was a guest on the show several times (twice with Charles Daniels), and in more recent years he's appeared on Overnightscape Central and The Exit Ramp.

The absurd, surreal, and (at times very) adult-oriented humor of SITFUSO, in the vein of Monty Python and The Goon Show, is a unique example of pre-podcasting original audio content on the Internet. Many thanks to Israel for giving the go-ahead to add it to the archive.

This compendium contains all 6 regular epsiodes, the Christmas Special, and a bonus Introductory Piece. SITFUSO's website is still up and running, at sitfuso.com, and contains a great deal of additional information about the show. You can find more of Charles' work at whoguide.com.

Enjoy!

– Frank Edward Nora, 3/16/25

INTRODUCTION (from sitfuso.com):
SITFUSO is a comedic audio programme created by Charles Daniels which is available for streaming/download over the internet. The name of the show comes from the well known computer term GIGO, "Garbage In, Garbage Out." It was adapted by Israel Brown in his frustration with his computer into the new term SITFUSO, "Shit In, Totally Fucked Up Shit Out." Charles Daniels fell in love with the term and thus it came to his mind to use this coinage of Israel's as the title for the programme.

THE SITFUSO CAST (from sitfuso.com):
Charles Daniels: Creator of SITFUSO and lord of the "wheelie things". Definitely not a real Police officer of any kind. Israel Brown: Script Editor, Web Designer, Audio Engineer, etc. Be sure that you don't get within reach of this man. Andrew Hobbs: Jim, Sketch Writer, Other stuff. Probably would kill me (if I didn't live 3 states away) for using this picture because he normally looks a lot better. Claire Daniels: The Women and Hitler. She married Charles. I think that about sums up her sanity.

INTRODUCTION

I grew up as part of Generation X in the suburbs of New Jersey, always aspiring to define myself through my creative works. I tried to do it all—fiction, movies, music, comics, radio, games, video, poetry, and every other possible genre. Looking back, I realize it would have been better to choose one medium to focus on, and I did eventually. In 2003 I started my Internet radio show The Overnightscape, and it's still going strong 21 years later, here in 2024.

However, another of my projects has somehow also persisted all these years, though many times I thought it was over with—a peculiar type of poetry I developed. Originally called Superior, I can finally say the project is now complete, as Whychock Revival.

It started in early 1990, with a set of 209 poems called Abaxial Usufruct. These were formatted in a more traditional format, but in the next few years I developed the Superior style, in which each poem is formatted as a paragraph.

In July 1994, I started OsoaWeek, the weekly e-zine of Obliviana Super Occult Amusement. At that time, I had a few dozen Superiors already complete, and I included them in every issue of the e-zine. Once I ran out, I wrote new ones.

OsoaWeek lasted till February 2003, and Superior went through several additional phases in that time: Parking, Duskaway, and Hurricaner.

In October 2003, I published the complete work up to that time as Duskaway Parking.

In June 2004 I started a new phase, Thinkfang, which lasted till December 2007. In August 2009, I published the complete work at that time as Thinkfang, and put it online at thinkfang.com.

The last Thinkfang poem made reference to wanting to reach a total of 1,254 poems, which would require 121 new ones. In February 2017, I began the final phase, Whychock (as in, why make it chock full of poems). By 2024 I'd made great progress, and I decided to finish the 1,254th poem exactly 30 years after the first Superiors were published online in OsoaWeek.

This final stretch was intense but ultimately very satisfying. I was very happy with the final set of poems, while also, I was very much looking forward to the project's completion.

The final poem continues the journey of Hemidawn the Racer, who appears in the very first poem. As I felt it might not be so easy to stop writing in the same vein, I decided to create a successor project called Weird Little Highway, which would be an audio feature on the Other Side of The Overnightscape—but only if I felt the need.

So at the very end of Whychock, Hemidawn takes an exit onto a weird little highway...

I added a PDF of Whychock to thinkfang.com, and now the project was complete—or was it?

Revisiting the entire work, I was struck at both its highs and lows. Some sections were absolutely amazing, but a lot of them were awful, and quite frankly, embarrassing.

So, I set off on a project to remove all the stuff I didn't like, figuring what was left would be pretty good. I also removed the headers of each poem, and merged the text into prose style paragraphs. I took away the phases, and instead broke the work up into 94 Cups, each representing a month of poems (with many gaps in-between the months).

After an initial edit which removed a significant amount of text, I did a second edit. I considered doing a third, but I realized I didn't want to "overcook" the edit, so I left it how it was at the end of the second edit.

This then is Whychock Revival, a work which I feel much more comfortable presenting than the full work. And as opposed to a large number of individual poems, it's now just one big poem!

I myself am a great fan of Whychock Revival. Its phrases and passages have been running through the back (and front) of my mind for decades now. It's hard for me to estimate how much other people might get out of it, but I hope that folks with a certain aesthetic, and a lot of patience, may be able to appreciate it.

There are many made-up words, and made-up names of people and things, mixed in with real but obscure references to people, places, and things, making it perhaps difficult to parse in places.

Also, while in many places I am speaking in the first person as myself, in other places, I'm speaking in the first person as a made up character, further muddying the waters.

In the end, I hope it can provide some satisfying and thought-provoking reading, as strange and random as it can be.

See you on the Weird Little Highway!

Hemidawn the racer, cracks the demishock of morn coursing through the dim. And into the arch of the former is the nixter, and for never the corner is the yarster. This is the fine design of the crying. Empty in derivation, and less on the keys than in the eye, heavy fingers upon the board, lane adored in dream. Found a pond and liked it.

To you, o master of nothing, I bequeath this feather of entity. Find it near the hollow waterwheels. Go then foolish man and seek your struggle. My gift to you is plague. My wish, fall. Neverbeginning, the simple rivertrickle dandy in its whistle. The day has come, but very long for you.

Neither the trowel nor the dame are languid. Look, the state of night far college drive. See, the girlfriend is just barely a friend, young nightmare. In sleep I know I think. A daze is my only seen in a mall with a games are good. No pretend car!

Ponder sorts of emotions in malls, flee my construct, and eat a cake from a shelf. For the stone, I, the solid liquid, never before decided a fate as temporary as this. In ways, I terminate this building, paint a good sign. Please groove forever, my lusty love, for the good grain, bulbous, holy, and blasting, stems twigs as I walk along, can't compare to your form. A mathematician in a parking lot, inside the blankety-blank heat of her station wagon. Regard the silly nakedness of her yawn. If I wanna kick a door open, I'll do it.

Anydaze will do cool focus mornings. So the waterfall falls and the window down a road. Even in the evening, I corral a lot of fears and load them into a revolver and fire into the vast wheatfields of the occult, and delight in such a wonderful display of courage on the part of my dazzle. Now there near those woods special spirits patrol highways. Gone into the haze of dusk he chessed out, as a battler. Pawns are a good thing, but a nother way. Minions of mine are silly, but docile. Never unremember unlimber simmer for the tea!

Lazy day and odd sun. Nine little pebbles remote in a vast deserted parking lot huddle together, speaking in relaxed whispers, having a little meeting. The clouds come. Thunder the darkening sky. Air the prime raindrops blossom forth in deluge collapsing onto the pavement. And the nine little pebbles have a little drink.

Dank blended heart, pleasing all morons in matters of affairs of the bit match smoldering in saliva sanguinely. Less else is nonsense to snare. Bareful bugs in neat supple vim. College caterwaul, blaming of the vane. Stupid awards in afternoon breezes.

Needed the tea am flimsy's. Trash the airport meadow. This, matter thru wonder, dazed weaver's undisaster. The drive rules, highway driving in cool weather.

Cup 2
August 1994

Through grass-lined corridors of caramel steel, helmet of wood and carbonated milk. A sharp loud noise in the bookstore, mind blurring. Melting into the arms of girl night. In pungent brightness she walked. I was crazy on coffee and ate candy. So many choices in mine mad matter, so simple and clear. Watching a television in a hotel room, drinking a can of soda in a hotel room. The air is chill. The lights are cool.

Born, met with traces, gone, full of space. Cold ceramic oracle, tickle my lowers, shower my cowls. Hail to the many ways and days of the typesetter. And the fortune of our effort is the wheel we always hear, humming in the dark vapor of the basement, a cold testimony to the electric jello that is our life. And for all the majesty of mind, for where the oldest tree clings to dust, we are now, and forever never, to abandon the flavor, and indeed savor, the water we drink.

A college hallway from before? Before me? Where exactly is this today, anyway? Wheel, see ya later. Be in delusion my friend, forget the best in everything. Time has come to do some speaking. No evening out in the end. Landscapes like to annoy you. Many folks who're too similar are gathering around me. Pretend to be yourself, smell a pine tree, eat some M&M's. Gloop mergers in Cleveland's occult shops. A formula be iffy at best. I need her doorwayish way.

Might it not have been the depravity of some other sentienthood? But then, why would I preprogram avoidance of delving into the darkerside of humanity, else that the prior form and humanity are comparable in terms of the overt structure of their corruption? Power and understanding. These are diamonds, diamonds. I wield them both comfortably, as a modern crossbowman in a winter wood. With limitation, I am perpetually compelled to erase unknowing. But the matter is esoteric and not of this road.

The coffee of your dreams is a medicated version of tan venom flavored highway gook. Try some sopping dry heavy popcorn in that damn chest of drawers. Breathe in vacuum lumber. The forecast is for rain, early at times. Suck the ammonia vent, my love. Forest crap frash delect mixim colder pennant cacophony whillip. Crows are fringe beasts of roadside perception—highway mystery birds—come and swallow this moth smear off my poor windshield, fine jackdaw! Please become very disenchanted with that cruller.

SIZZLE—for formulas are dead, and science is stripped, and reality is mad as a flower. Corrupt as my ancestor sailed, he played childish games, equal to motion to pinball the secret. Shallow bread dunk in murky stagnant brack, the tired arithmetic splattered on hallway walls, super logic durable.

Calling you on no stabler, metal as violence sang angry. Now we are in the process of travelling a road, that feeling of travel, the mysterious roads. The of into horizon near a body of water. Being thus in this befuddled transit, every time a new challenge, every time a new disaster. At highwayside's edge, my room is silent and still. At highwayside's edge, hands together so tightly, the freezing cursive tea. Neverending in driving around, I hacksaw my memory and curse the setting sun. All the wonderful days flat black-and-white. Rush of much, scamper the stung spirits, we longed for the designs of good nowheres. Relate whistling Dixie to your viewpoint on the primeval forest. Bizarre crystal formations on your left wrist are not uncommon. Aside, low maker of flimsia! To your spot! Don't deny the icebreaker of wonder, the creator of the best of it. Times has come, in a boat, dangerous since in a dream, but carrying real items. This is got to stop. And the night glimpsed in a time a life or two ago but it definitely points to time travel.

Cabinet of corners, folder of wild: seldom said the main walkway is hallway—try and retreat from a floor sleeping rug as these. Truly, into is a great. Toward a nicer pavement in the heat of waiting for the bask, lost in the dorm at college is the darn sheet/the info of the day. The the sheet was the secret of many things. What was an extreme driving was now nothing. So nature of hat?

Formerest the day one return, line a time in everyful killy. Of the one road I was along, say the way it is like a structuran. The leap of the true can trail all with the hark of a sharp bird, a say. My impressions justice of the what is no preserva, into free dear tours. What is up there I wonders.

The radar echo would indicate lifeheat. Then I watched as the building, an office plaza, was blasted to rumble by an grenadier in shiny plastic white armor. His nemesis was gameshowhost. Just kidding, his nemesis was Roosevelt.

Slabjolt me, night. I am funny in a way of hannipost. I am a stinger, they said, I am unwelder. A vague open highway from a dream or from some reality beyond my dreams. Dark, maybe rainy, a lit skyscraper in the distance. I declare?

Under the way, a friendly odd place, where broken colorful glass is there, and a land of friends is there, and a land of animals. The rainy reality system's gift, a many-aspect question, for the bright kids of yestermore. Just a slant crossing, just a bare react-fashion, just the former three, or four if you prefer. I was never grouped under those who pretend, but here all is lost, Emma.

I feel like I'm talking to a wall and I don't like that feeling. Over and beyond the frail foolish and laughable joke that is dream, is the human. That happens is humanic is High. Mankind is not an experiment or a toy or a menagerie. No, in man are qualities of which the gods are bereft. Our immediate realm was created by the High Ones, but we, that which is truly we, are from farther away.

And it's a hunting. It's a knockout. Fan and random we ambled, and came upon an area funny. The darkness not under back a little, and all of us were frightening. Can this be reconciled, this days? Time travel is an option. Reality systems can'ts betrays evernessity. Lords of Uncontrol, we, nevery and quite silly. But all I want is the picture.

Slore, I said, amn't I the best? If I was a helicopter I'd smash you all. On the Sun are a lot of spots they say. The sidewalk has gum on it, they say, decades old some of it, they say. I am here now drawing you to the time but here is a time called as follows 5:19 AM, March 9, 1994. They say it will snow today, and it seems we're in for one more good one forbvore the Spring.

Looks like we made it, our other friends lost it. In a restaurant, no one here knows what we've just been through, or the places unreal we have just been. They just sit and eat and are unaware of the major glory upon us for being where we were, those other worlds, and living to tell the tale. I'm glad as a daffodil that I'm not one of them. Order.

Force only that street, force flapjack, force mess moss up, force imps disassembling churches, force the bemuser devasta sleep, force Canada's cathode, force seen western soul beader, force deviant poise.

I am a conductor on New Jersey Transit but I have a secret. I have discovered a way to travel to an alternate universe and I go there frequently. But recently something has gone very wrong and I am having trouble getting back to my home universe. As far as I can get is the space between the trains. If I take my clothes off it's a little better but I still can't get into the train or see the outside world. Question: Is this conductor a man or a woman?

Thrice is a term about it happening three times. To see this, imagine a few bags. If a bag is put inside another bag, that's once. If another bag is put inside another bag, that's twice. And if another bag is put inside another bag, that's thrice.

This day this disaster. Blendblast, car benenen. Spinach pasta's yumyum. Not in the maze of a life, but the bane of a company. Talk we merry, bus was merry, spark. Ending away, and I liked it, and a phone call mall.

Nervous system melting, surroundings collapsing, perceptions folding, life reeling, grass wet and too cold, moon stabbing me in the mouth, a wet plop of pasta slams into the dirt, eyeballs tired and reluctant, clear plastic cassette case shatters and cuts my foot, I'm driving and I cry for no reason, tension in my neck and I don't know what to do, flooding damages my stuff, nervous tapping on a towel as I eye myself in the mirror, damn light on the tower too bright, an eerie fog for real this time, I must be. Sometimes reality gets abolished for a while. This might relate to the story I'm going to tell you.

Dismiss 1979. Where is the time I was into? Where is the time I was into. Walk away the all the day. Moved in suproccult may hem the daughter. The time was the young stupid thought my time was spent in. A train station in a dream isn't such a bad place. Seeking in the dark day matters little.

Be at overpass, dammit. Geese are independent.

Our feelings for others are not good! Play pinball, widow! Up and insert through rain slamming the late afternoon! Like drinking paper—not a funny joke! To be here all day—not too likely! I think I can remember some of it! So you the best of set—or the time is near! Go and be with the one you wish! Net result of all the confusion is the clearest clarity of all! All of us are unbeatles!

Slanting tint the sine, torrid flat damp shackle. A blurry flash a rush of cartography, sevening nining lightninged. So silent city outskirt in silhouette, clangings forlorn into worn wall. Above the city it's goodnight in the night to meet the blasted incongruity hence, roaring with rafters befallen. Smile the lowly autochthon, feeling nerveshot octagon. Many an amazing crash pad anarchy, peace of the turnpike in night's minutes, forgetting so much more.

And wasn't many innit a reandy hats? Ah, knowing some jear? Humorous isle, place for wonderis grout. Just rememrelax, hon, just kill when it yes free anchor. Lord, know the way of Lop. And in a tiny, miniscule grens, I found vuwy.

Far, the drain stone lighten. Unlapretend and handy, the merely snapping concrete mantas in an a parking lot excite you. Porfore, I salute the pink glass of Diane for a yes happy two hour. How'd it crash, that bright hypercycle of loony. How'd it crash—I'd been away, I'd say, I'd been rotten. So stand lightly the porch and fail to fresh-cut grass and fail to helicopter.

Beer, yeah it's a game, know? Shiester Dude, as your fame your handhold pal? Okay so there were deers last hay, deers who wouldn't quit. That's a laugh, byte boy, that's a shame. Record, and record well those noises no one knows where they come from from across the abandoned mall. I was—sitting at my table, and from out of nowhere a warrior tiny panda popped into my hand, and what he said annoyed me some. "I thought I'd seen the last of you ugly giants."

React, lumbore, to my insane attack, Jared. I stole her a hundred years ago so what? The fun path in 2281 is a place we like to visit—all rubber (like most things then)—soft and comfy. Humans know how to live in the 23rd—finally got the hang of robots! So friend, do not fret, your sweetie regards you little in her greatlife, and we let you live out of pity.

Fianly, you amuse me. For when the black, dark gray, red, yellow and green chariota took us to Benningford, the fog revealed your lifejoke—Liopis!

Ever thorn, and in embrace? I wander peril and portray the spray of ice in vapor form. Through gates of bread do jumpy ravens dance like laborers and bite. And if you want it down those stairs you have to do a dream in a gym class of old.

Canada was it, give me a taste of the yogurt of patriotism set aside. Lending odd junkiness in earnest debate, wrong a dufus in Colorado. With me, the omni tyrant, things abounding. But in times, get it.

A little hole in the base of a pole at the mall at a food court. What state? What matters! Utah, Cleveland, Minnesota, Philadelphia—all exit caution, all embrace life. So try and eat grand in glass area, of amusement park or museum. And bears and deer wander close.

Driving, night rain, city in distance, below. Tropic trip impending. Gore, girls who're excellent all around, the concert awaits. Into the night, stopping at colorful overarcades, thrill and ultrathrill. Finally there, and the reality surpasses the fantasy. From here on, things just kept getting better and better for real.

Sitting by a windowby a parkway by a place, I am in no state to write here, and as I jam in no way to bite here and it was in the hallway and it was broken and I got a lot of food and soda out of the vending machines and these people were doomed.

Door, now this is a good one! How'd it'd show? I am now at a train station, thinking. No! The mind is gone, and that's not wrong, my odd. Great, y'know, if we'd seen them before, but here outside it, we might see them again.

My way was truer if delayed, I'd say. Was it you by the lake train day place? Hide many was through a lone card in a deertree. Put down lore as noth, dear not. Hum's tech if ask the tramp can mark torpor knack. The was nood.

Grander bastardizing passing and shaping the entire landscape fake letter nevpunck. Assy typeface, can they be human? Circled idiotic markings—the best can a letter be a general type like this. The ultimate task I must tolerate the (ways of the) Empress to be full. It was nine tonight and the light went out on the black ocean.

A mansion on a hill surrounded by woods, circular illusory wall, day/night, humans in mansion, bears in woods. How am I next? But something is being kept from me, something big. I'm being held down. If I don't do anything about it, I'll just flounder forever like I am now. If I fight I might get some clue as to what's going on. I quite agree.

February 8, 1989. I sit here, under attack, confused, slightly manic, GREAT. So—I need to do work. But what? First, turn off the prototype zonebook. Ok. I can tonight do: Go to the office, sleep there. Or stay here, sleep here, get up early, goto office. Ok. So I should do stuff but I'm not in a very good state of mind. So I will drink tea, restructure catalog, fight; reverse the attack. Ok.

I have a feel of security. I have an up the road on foot in Autumn, with the bag. I am have a Manhattan day, walking a lot, dreaming, losing. What a was what—let's all file away, let's it the day was fine. Cool.

Cup 5
November 1994

With the dawn of November I await a rainy New York City. Drinking stale Alka-Seltzer, garbage pail in my lap, looking for something, frozen from a night ride in my doorless Jeep. Tonight's topic—the success of the shuttle bus phenomenon. And that's like all there is.

And was at observation highland at northpike. Hide and an irk was word, high up in her dorm. The standard person is waiting. Sure future is past and cannot enjoy. Your funny religion has spunk. I am gone.

Lomp has not arrived so forth. Lemperneths scramble drunkenly here. We've crushed sleet day, light rail excluded, and rewards aquarium hazeday.

Paint your life with such blind flair on a canvas of nothingness. Seek justice and tons of pleasure, the prison of imagination. See the city in a different way than most, apart and aloof, going somewhere. Never understand the value of convention, inside your washing machine spirit. Right now there's so much to stimulate you.

Derla my dear, did they arrive here on chilly skyscraper roof night now? The shocking gang, getting ready for their evening flight, ancient and monstrous. What are you? I thought you were kidding. Vampires and werewolves have nothing on you. I watch you transform and fly away and wonder how I could have ever gone out with you.

How can it walking and the green car inside the mall, night, closed, cold, looking forward to radio, novelty the main attraction life. He is a fool and now I'm walking backwards, back to the train, back to the former knew jobs. A heavyweight is on me so, and a memory is upon me and a year ago it was so and it was Utah also.

The yowch cast nostalgia, flash from past and past lives, paralyze this now doing to be future snaps. Lately I am have been going along and doing, just fine, jester had a lot, now I have some. The yanch of cast, was how I did, and it was riding a motorcycle and it was either time travel or reality shifting, and it was true. Weird overcast sky, and a feeling I can't describe. The burden of such a history is hard to explain.

This is the time for it, man. This is the place. I was just wondering about you. Are you okay. School in the movie—I blast my own road away—or what was it? I'm talking awake, no talking able to pierce my veil of vacuum. A weird thought—to return there. That the place is not as it seems—or rather—that the act of comparison can alter reality. Eh. Not the end yets. It ends.

Being woken up by Lucky licking me in the face, then getting up, and also the weird electrical phenomena and fiends outside and also, the rusted metal seat I was going down the street on, and also, driving the car off the porch to see the fiends and also, the going to road #4 to see the witches. I have all these cool new superheroes. Writhe in vook?

Drave is the with all the tools for it. We stood after a defeat on the morning after by the road and it dawned on us. There was no good in the slaughter. The five dancing sisters, glowing in their youthful perfections, so happy, so proud. They're still okay. A cardinal lands and grows to immense proportions. Of all its red feathers one is redder than them all. "Take it", it says. So I do. Now I have a big red feather, but so what? My life is still destroyed.

Bank across the street, swimming in afternoon's desire. Snowflake melting as I remember, remember her back at the hotel. Warm and warm, and good. Please I go back soon. But who is the other? In the bank, who is the girl in the bank who I know, who is mad, and in the bank? I hear on the radio of the snow today. I think of driving tonight—tired, shaken, nervous—mine lover waits for me. This friend on line. I seethe frustration into passersby. Throw myself slam back into seat. I wish I had a bottle of spring water, water for to pour over my face, my head. The streetlight's on, and courting snowfalling. Green retina stings, blooms of summers lazy days drift, mind of aware. I my eyes close and say "Christ, come on." Winterswimmer.

Precious seconds tock thru the door. Waiting into out to. When I arrive, meld a moldy teabrew. Never de-hark my crossbow intentions, pal. Never do it when I'm around, pal. I'm everything in the world not seen. Torpors of young gals, too bad. Can you craft a thousand knots in the shape of me? Or a hundred gloves? That would be nice. I am your friend and your lover I think. We're both so weak we'll be squashed wunna these days. Demolished in our tracks. I want more from this experience. I want the escape always, but of course I will learn, I will better myself. In any case open the case and remove the globes. Why?

Cup 6
December 1994

I'm on Tabasco and she's on codeine. Sometimes on cable I flip past a rodeo. Ten minutes ahead of travel.

Hi, ask!? Time to sleep. Um, yeah that's it. Weirdness. Losing it. Find was yes indeed specific. I have to really think forth explode!—you're in here. It was a lot, and now, on that raining street, that balcony in an autumn of wet fallen leaves, they say the secret is perseverance. All the revolving wonders of an endeavor—places to eat, places to be, places to wait. Wonderful feelings. Where have I gotten to.

To think of campus, that it's still with me, a few select memories, but what a feeling. The danger and weirdness all seems nicer now. Experience, it's more than you can dream. We all juggernaut forward, and it's massive and disastrous for us all. But just think—it's still there. Visit.

Now when I brush my hair I awaken and neutral on rain. Sleeping far away, so warm and feels so good. Knowing, and back from the Rockaway Townsquare Mall, was the blast from wonderful that pleased me in shock and blowapart awareness. That was then, and it's been used often, and I'm dwelling on other things, and I'm not in that office anymore, and I am working.

Foggy. Post-sushi Pepsi, pumpkin stormcloud, I am having difficulty. Shear. Oh my god This was not It! Whatever. Like a crab, open the window, let cold air in, rip the box apart, stab the maple, play the tape, yell at waterfalls. Three-can jackharpy. Two-diskbox yamma-joba. Yet we stand here in the rain in the junkyard in the past and worry.

Climb. It was you standing at the edge of the field, everything just so, all neat and pretty. Wonderful day, wonderful scents in the air. Standing at the edge, you gaze over your private domain in such satisfaction. Then you see me there, crouching down by a tree, by the edge of the field. Sorry.

We have a lot. We laugh about whiskers. We're cool walking around the city at night. It was another time. Standback—how many feelings do you want to torture me with? Always something about a train station, about transit, about going somewhere. But where are you going? No matter where you go, aren't you always gonna be home that night? I know, I know. But you aren't a loser—this is just what it means to be human.

The gamble: was not such a bad idea: it just failed miserably, yes. Reward. My flight imperial and business power. Keep on moving, getting somewhere, you my friend want to be somewhere else. You do have a choice. You do have significant control over your destiny.

Foreign and strong, my will and my mind are strategic, for you and for them, and in my own timeday. Was a good setup, war always has its benefits. Found unclear a diagram of your store. Found okay. Leader, many tether, high monkey and weather. Followed, once was respected, no crowds in this town square. Zay, forget about it.

Ragajag everything is okay. Man, how much? I've been all over, I've been underground. The wonder of the hologram, I've a name for it. Sle, have not a filter, green were singer, blast-reign and jingle-assault. Up and over! And re botambic and coconut lifeway. Peril. There are waves. Findout. There are clearings.

However, you do have some redeeming qualities the orange dayroad helm. Fine I said was her atmosphere and I was cool. Don't underhave enmity, Georgia, was Josephine the Tinker was bad. Too many bad movies in this town, gotta find another town. Don't get too comfortable.

In the offices, such a time. Youth and danger? Just a stepping stone. Keep on. Time has passed, and I'm getting a sense of time passing and of history. I always think about the past eight years now. I am ready to blast into wild success.

Cripes! Sled Dog Anthony is in trouble. Be a friend, all ye. Find his savior, the Wallmaker in Citrus Pass, the Mopey Avahl Mortin. Pick him of the row, save the guy who all the kids love. Be a friend. Be a friend, all ye.

Cup 7
January 1995

Fear, and I enjoy thrills. Oh shopping, in cold parking lots the thoughts of the day, the thoughts the life. Classic rock, the bloodstream of consciousness, stuff, plans, finding your place in the world of coolness. Clearly, not everything anyfine.

Getting. The and it was bridge wonderful weather, weird Manhattan spring and that girl. To think. Dreaming and the past, how different are they? We adore so much, yet when in concord trees, and the treehouse of the cool kids, we are at piano lessons where there is evil afoot, and it was the secret way which was rather trespassing, and there were dreams in that area and I wonder if that's what it's like to be a ghost—to be obsessed with locations.

When. Looking ahead, I want to see that which I can cherish, as with that in the past. Right now I have gained a perspective on the past five years of my life, a forging period. I never knew I had so much growing up to do. The light brown disruption, the splash, the primordial mud trembling, exploding forth, nourishing that portion of the mall like nothing else could. And all who caught it, all who were marked, were changed forever. This was the change of pace, this is the start of you are a good one, Mallahay, I like thee, and it was spinning on top of a skyscraper and you weren't supposed to be there.

Sloone, was combat, was grape amber strawman. Leedence, was tiger duckling, was shooting star weaver. Zaikas, was falling patient man, was nothing. You Fouyde? Banishment!

The lending of an ice cream sandwich had my psychedelia for 10 minutes in May, Judy, and was a corroborating God lover in Seychelles. Brandy, fast food is ambrosia. Grin or die. Carlo, remove this demonic entity from under my desk.

People? I was one, here in the wood, we had Ahalhia. People. Derive cursive floralities to snow Dallas, winter window, the desperate journey of four confused teens, and the little baby antelope who binds them all together. Helf, and I'm back in the stupid studio.

Ling, the safety, the glory, the glass factory, the sweet liquid shop, the antechamber of a school, full of amusement. The older ones have higher matters. I'll just drift. Whatcha doin'? Driftin'.

Solidify my desire, o wonder man—your talent and art does more than I can. Windows overlooking a canal, would make it final. Rhyme is goddess was and is never to be, that bridge in Bound Brook.

We called your cousin out to play. My Marlboro watch and my Mickey Mouse watch. So we got another rainy day. And to Wisconsin we went on a bus. The Truckworld Diner just wasn't for us.

Forehoard? I can't stand any more pony tail pony tail wonderfulquestionhoods. Muse, muse you bastard! Muse! I wasn't in that one. If I try. Walkway goddamn hallway goddamn place. Wreck phony people. Dimension. War, yeah it's a diversion, who'd want to know there was something worse. I am he who calls. I am knowledge dude.

Cough drops are smooth, the power to go on. You're a girl and your cousin is a girl. I am night time, amber light, amber night. Let it all go. Cool in the darkness. You fool.

Fun from being in the day, the coolness of magazines and games when you're a child, restless in the supermarket, thoughts remain into your dark and perverted teens, revault hum adulthood, settle into the jigsaw life-remover, but rejoice as you go back to game in the Third M.

Ring down was a walk down the street, once-a-year kind of light conditions, magic days, sought long after, tennis courts, fantasy. Nothing like lotion, atmosphere thick with magic, talking about girls, talking about monsters. Love with more. Paradise with guns and wargames.

Ah yeah that's a good way to go now there. It's a street, see? Fire and ice cream, beer and gasoline. Luck. Soda water for you, findout, raise the saliva flag. Tread powerful through grassy nowheres, Amanda, sharp like an osprey. Creation and the while, I am with you. Like before.

Cup 8
February 1995

Go to level twelve, retrieve the wand of power. Dark sky massive flight, Sunday destruction—killflay their deity. Foolin', jigsaw circumstance, massage of emptiness, a bolt of heaven. Down for real, ignition in skin, a cold rainy street morning afterward. I'll take the outside.

Light blue diesel Volkswagen Rabbit—you had to break down in Pennsylvania, didn't you? Waiting for a bus on a misty morning is no good after only one hour of sleep.

4:10 pm is a time I like. Orlando. The guy with the funny name—I saw his business card—Rob Snowman. I care not for valuable cards. I want to go to the Luxor. Slave 1, Boba Fett's ship. Iodine. Witchcraft store in New York. Edison. Pubes. Farthing. Swandolphin.

Fallaback, Hanson, the days of smoke and swimming are done with. Strange needle tonight, the friend of a friend and his cool walls. Discovery night, and you're trying to worship Freya. Predatory car, magic branch, Lord of the Mall. If it weren't for constant competition, things would be pretty dull around here.

Getting crushed is okay. Did I tell you, if I wanna kick a door open, I do it? Doll, you are my Bianca. Huh? On my Manhattan rooftop at night, look and way out—flyers. Flashmemory, from my past life in the '50s—a den, a playroom, fishing, woodworking.

The difficult ape land of iron I say, swinging and slipping you, into you. Away from its, down the cool indoor artificial river, lit green from beneath in the darkness—and I don't know what's next! Cynthia was. I don't know what it was with Cynthia—I think she has super powers. I think she's from the future. Why won't she share it with me.

Day. Stupid company! Was you slowly my get you I'm knowing you for goto. Aquamarine tick tock, guitar diorama in your sneaker heel, a figurine of Susannah in the014re too. Went to school in Arizona dream, loved the blonde. Woke up before I could buy a valuable New Jersey tray. Truce in speed, aquamarine highway now, black lines blur, I am known.

Do what you are, honey. It's a world of strangers. I am going soon. When days were of ago, find me jaunting the avenues of eld cities. When flying motorcycles are for real, I'm there. Please let me go to sleep.

Through these dank fields, did we all amble, chomping on shields, dining on bramble. The light of the morning, a massacre made, remember the warning—in fog we do fade.

Be still, riot control agent—deadly poetry Mongolians arrive.

I cannot bretend to hampa, Dean—een wuslot for, see, if I go up wixkedstreets, it'll cost more, yah? Nemm neeb? Making sense was it, youa, and how ilta was she? Formilapome camtic efferfoil can it brerben can it up, up old hi, hihi, hi. No right now it's NOT able, how feara and froma, ligote fora, this is reaj. And again, it's on a ferry to Brooklyn, but when?

She came in as a blurry vision; an oasis in the terrible night. My mysticism turned to shock when she revealed her true face. A weapon passed to me. I struck her. She just took my hand and led me down infinite pathways. Now I work at K-Mart. Container is more than container.

Comma J, the code word for the attack. The details were scoundrels, and our faces were none to match. Scuse me man, has the day to die arrived. It's not always like that boy, we have a paranormal girl with us, none of us will die, she will kill them all, so relax, you won't even have to fight. I remember languishing and meandering on windy hilltops—I don't have to work, I don't have to fret. This place is strange—got here in some peripheral wisps of ultramagic on the battlefield. I know that the longer I stay here, the farther back in the past it'll be when I return. So I'm waiting—waiting far enough so that my knowledge of technology will allow me great power there. But I can't wait too long—they will have to have some established infrastructure for my plan to work. I can't mine iron ore with my bare hands!

I tell you, and then you know. I am of mountain roads, I came down years ago. The funniest thing—about those spaceships—I know all about them—you're all going to be surprised when you find out what they really are! The evil fairies of eld, now intoxicated with technology. A very dangerous folding into.

Time last is it about. Punkin, nickname for the kid, was kid is you. Spider's arrow, drop done dank, simian sclar. Been in attic, foul of brain raking, happy after-rain pungent girls, to do it all again, was do it nonagon. Thor, weasel, birth control pill factory. Fake woodgrain blast of light. Son of music, the drapery of waste, yes I am cursing. Can we talk.

I am tired. Things are slowing down. People are pushing me around. Thinking about asking for help. Watching pirate movies, losing my mind. I am not me. Too much pressure but what do I do all day, into a wonderful sunny field, with plenty of friends, animal and human, and I love. A clockwork bowling pin. New Brunswick, the houseplant. Fuggy camera.

I got 455 of these? Drop the metal into the breeze. Jigsaw old technology, humming of wasteland, was it achievement, the bird stone. Dry rich people. Audiencer millions. First time letters have met like this. 455 is fine. The struck my chord. It's over.

Twas my who am they, itliza of am trinity. Fork, close to forcea, and to yalno to pray 'em. During. To limit us is, to ling ling form U, tired. Talk the food of the Gs. Many many. How'm do that. Um, unpopnatular. To again, fearjo, justa just just, nowmay lopog uffinc. Bomb.

Flirtations unjust. Damn good decaf. Misty facade. The open black and colorful object of scrutiny. Looping. Xmasevil. Little gremlins. Little meandering dye. The liquid world. The fountain of meeting.

God forbid. Lempold Industries—the dirty secrets, the reporting. I got a... the freedom of warm weather... not having to wear a coat. I am not joolking. What wum—there was a woman—she to you I kould—no vever no so fever. The art, dould it fine. Mine, fire has a spine. Formula. Did you think, all over, the plan of the birds and it can, life in your tree. Borad. Lust and predetermine. Ilgor could.

She bamboozled me. Believe this. See, if. Not working, smoke rising, song singing yours. Big superhero yeah, just another other. The day, the days, he was. Out of focus, out of focus. Film school. Gotta.

Jackdaw Cloth, come keep me company this evening. The scariness of the cyan jack'o'lantern. Little radio towers on all buildings, what the hell could it mean. I am another one. Creamy lights within the fog, fear in a foreign place, girl in a uniform, the promise of outer space. I am uneasy as to the dawn—it is small.

Dude, bewildered, figure out your finances. What who ya got, you know this is just a phase. Millimeter mine shaft, the torch of tude and osity. The phrase, head spinning, of weird love. Flowers abound, and you know Jessica. Famous flight, famous railroad achievement, chalk of fear and overextending yourself.

Shrewd off, dummy. What kind of a creature am I, oh it's okay because I'm New. Tulode, did we talk about mica? All afternoon? Florida hotel. Wish I was in New York. Enough time. For again. We are stammering, who said we were smooth. And over, a painting lashed to a chain link fence. And we don't understand the art in it. Loony Sean, in the darkest hour, the fray is eroded, and my piñata is old.

More on that in a minute. The beauty of shirt, am I avoiding my adulthood. Trying and crushing. It's for the birds. I am misty, and seasidey, and long ago, and crossbow game, and gone from here, forest and pajamas, excuse my sawdust. True and exquisite—sawdust or stardust—we all have to drive latenights—it's not a barrier. We hear the red light of black bird morning, and whistle to a newborn day. Whether it is hot... there is always something... that comes next... those of us... who have trouble playing the game... our misery is sometimes our greatest joy... and when we get wet in an unexpected way... we can live in the moment, much better than you.

Wantingmore. My home is called that. Not Fallingwater. Wantingmore. All tickets out please. Contrarian. When it is the last snow, we drink tea in the observatory, and design elevators and marketplaces. Sting.

The west today, a quiet train, to have an enemy four thousand miles away. Certainly, flower. A fragile childhood aspiration. He wears glasses, is sensitive, and loves comic books and superheroes. Have we forgotten how to think in a wild freedom, unshackled, not self-aware, not jaded, not cool. We have lost it. Just think about it. That Obliviana is hard work.

March 1996

This Superior was erased by a computer freeze. It was of my weekend of emotional beating. It was about a cigar store, a crazy German woman, a trip to New York. Shall I repeat it.

When you and I were alone and by the water... I was young and I didn't appreciate it... To who we jump, we talk about crate. My felt hi, pomp true and dienful. For the wax whistle is temporary... You I they will build a statue of... It is always there, if your throat could think, would it love it when coffee was running down it? I am a mind... believe you have to pay a price... but is it just a myth, can you have it all?

Dumbo to me is the human vitamin. Fork it over, escalator, this three-hour lunch break and I am in an abandoned shopping center. Take a walk on the moon, amusement style. The master key, got it from my locksmith friend. I've always been special.

Give me some truth, Ellen. Again the foreign elevator, too much mental interpreceur. Um, Heidi, why? Don't answer. All wooded dimensional and blue arc. Save. Rain on the blacktop in streetlight. Hot and muggy relationships ending too slowly. The taste of beer and feeling disgusted with myself. Again, we go on, the white and cool arcade and deli, and I... find a way... in the suburban night... and I am wooded.

I can't imagine you sewing. Thayhoc was and an artichoke flavor. Go home, do you go way? We've your life in straw. Day in other city, inside library, see sunny street outside, in a dream, the way is frosty. Again, the many identity, flying to a climate. Get me there, yet we are underway.

Liam, to tackle problems, Roman stupor and the bakery. Time flavor, time whatever, time to kill with friends, getting into trouble cuz it's the only fun. Socking. Marvelous. Hanging out with that chick, it's rainy, you had to hide in the woods. Hey where were you. Aw just... going for a little walk...

Grunting saliva she said yack or smack. Carefully described dilapidated building. Smother, doc on dingoes on TLC. Forget me. Knew it. Parking deck. Your first one. Knew it. Forget it. Forgive me.

The challenge—to bop till you change, chain link fence destiny, the hoverers come. Mall sideways... the stores pay less rent... you love a girl who works at the comic book store... Did I mention the conductor's coat? Never mind. We are formula. Try and erase as, um till rent is due... and... whine of a train... but still unsatisfied... who is the me who waves the sword in the rain when no one is left...

To be me, just I knew about it, um help me. Call me coffee. We are... have money and in an airport lounge... talk about witchcraft woman... and Cuba... The time for going is here. Do I say that? Much more losing to indoor pirate ride ahead. Can you base it all on loveless? If you got a problem... the problem is the problem... not the fact that you're alone at night...

Is it intensely personal? I know. If emergency exit... but you know that the mundane is the rule of the day... But we are cool... and I am a cool person... and I was at least the best in... who knows. Be me. No I mean be me. Do not see me. It is my history. Going away. Coming back. Playing sports. Butterflies in your stomach in the car, so many times, what is it all about, what is the use of expressing confusion, even if literately? So other people know they're not alone. What a cliche. You're not alone.

Airports... why am I so fond of airports... the idea of going away... you do the same thing every day... so the idea of going away... We're talking quantity here. Blasting. I wear sneakers, black sneakers, nothing else. Maybe slippers at home, but nothing else. Okay. Tis the season to be massive. Was what that? Haha, great.

Through the yesterday sillily, york no bird. Liode Fur, you are charged with the two of you, word puzzle and glee. Glee... You know that reminds me... all the old were young once... bet you didn't know that. You know every day is a new day. That is it too. But what I am wondering, here, an object, pure and inhuman, and it might represent me. 1969. I turned two in October.

Obsessor of low character. The mastery of film special effects. Yeah that face, an ugly face, an ugly personality. Reading a punk history. Train is losing power... losing it... And where I am. It is all so... what is there, but me making observations? It seems to be happening a lot and for a long time.

Imagination and escaping from the everyday. Messy apartment, hurtling towards it, fifty miles away. I have cigars and pasta there. And a TV. So... I had the idea to live in fountains... all naked and beautiful, make a world, like a theme park, all out of fountains and beautiful things... going to the supermarket on a cold night... the feelings... alone... but did it feel all that different when I went with Kerri? Planning on buying coffee. Paycheck to paycheck. My writing. Talking about myself. What else should I write about? Oh this is therapy, it helps me, to get these feelings out. It is helping me now.

Before I knew it, New Brunswick. The fire and the haze, the walkie talkies, look at her. Such a lot of past to go over. And I gotta wonder about the truth. Who am I really? Who... Man, my college days, receding evermore into the past, 1985 to 1989, a different time, a different era. Falling asleep... no, I must go on... stay ahead of schedule... Des Moines... falling call... lost real motored.

Is she real? I don't use her name. But I wonder. How many people are real? The cleansing of an old, old soul. Softness... her body... THE GATES OF PLENTY ARE UNLOCKED... my mess... dam... barren on one side... full and resplendent beyond imagining on the other side... Yes I am good. Now I am good. It has been a long road. And now I can say... I am good. A puzzle.

Each vernal equinox, never just ultimate, naked exhilaration returns. Evelyn, jolly, eats cornflowers to satisfy Mary's enmity. Do you know what it's like to realize that Jenny—dear, deluded Jenny—as an investor?

Good forever and the tennis, hard rock fairy bagel mania... the think you're cool... yeah gold shoes gut the government... you are thrilling baubles, is what it is all about. Jersey Avenue, what's that all about? The you know, I am acting as if I have knowledge of the future, do not belittle my wildness.

Go late night. I am not against wood grain, ha, money and drugs and GOOD LOOKS. Ha, whatta we know? Good night. Drive. Garathy Plom. And kinship. It's a well, the theme is super liquid. Pollsters corrupt farm girls... did we not do this... art galleries in strip malls... If commemorative dream rugs are weapons, we are stripped bad again... bad mazes... Druid... minor TV star in 1984, is it all the harder to read about the young stars of today... living with super liquid...

Did. Hot decaf. Youth... woke up and I was still young... happy construction ride... Knock thus over... Think!... whee!... beacon, wrecked, fizzling library. Popularization of the computer before the personal computer. Chain link cobble stone. Be. My studio... others like me... not enough talent to soar... so I sup on a friend's boat... it is hidden. And I play those early video games.

Shockingly aware that Murder One, episode 17, is on tonight. Chemistry II never happened. Looks like it never will. Bribery? Incremental? And dark sunniness. 7:54 AM. How many of these have I been through?

Dulerhuperscear, of? Bark. Myth dove gannage. Feelo. Apla? More elcean more. No... no more fake words here... a little guy... mystery of his girlfriend... he's so secretive about her... the name of the mountain... drama of the crab... what is what I wonder... imbecile... and Laneco, Phillipsburg, I bought incense, who know when it was, she touched me on the shoulder, who am I. Clearness. She is available.

Climbed up the radio tower and lived there for some time. Eight girls from the local college idolized me. I demanded a pinball machine, and they had to employ a crane to get it up there. But it never worked right.

How in being human... the same routine every day... how the same thing can seem so different... depending on the state of you... I remember with great affection the times after work on a Friday... take the E up to Davidoff Cigars... smoke one and walk over to the Letterman show... see what's going on outside... play some games at The Broadway Arcade... walk through the brilliant night of the new Times Square... then on to Penn Station and home... okay...

Forcing a rug into another time... the tuition money was wasted... and I was studying emergency exit signs of mass transit for the month. We all got psychological orgasms with the Russian video game. To think of how mundane it all was... but then again... I like mundane. Ah yes. A hospital and a dorm. Look. Stories of brave sea pioneerings, and me, in the comfort of the train, looking out, feeling complicated feelings, writing Superiors. All the articles in all the magazines out on the newsstands today. Even if I read them all, where would it get me?

The second day of spring. Dear myself, I know how you always romanticize past periods of your life, and I'm sure you'll do it with my present. But remember... no girlfriend... messy apartment... financial instability... a move on the horizon... The idea is that at some point in the future, I'll probably pine for this time in my life... and idealize it... forgetting all the negatives... but I have to say, this is a rather charmed period of my life... cuz think of it... if I had a girlfriend, a neat apartment, all my bills paid on time, and a good home I'd stay in for years and years, would that be good? Um... you know, it might.

Fear, Jolly, Whale, Come, Jagged, Monster, Detergent, Hair, Predator, Clock, More, Feel, President, Ruler, Charge, Devil, Daisy, Mean, Mustard, Growl, Door, Storage, Cassette, The, Junction, Rock, Jungle, Opera, Palindrome, Score, Dial, Poor, Playboy, Luck, Jingle, Eastern, Arizona, Canada, Rent, Play, Dome, Sherbert, Licorice, Tame, Jaw, Beaver, Crawfish, Lobster, Rapids, Waterfall, Bridge, Raven, Dentist, Amble, Coarse, Judge, Butt, Screw.

I wonder, here, if she is feeling it... a nimble new euphoria to tantalize eternity, reality and mystery of stars... Nothing gained, nothing lost. When you brake, you have to start moving again sometime. That is the time I was into.

Finally finished Atlas Shrugged yesterday. Got rid of a lot of junk on Sunday. Getting a new apartment in a month. Forgot my broken umbrella on the train last night, didn't try to retrieve it. Looks like I'm moving forward, dropping ballast, growing up, on the train, but soon I'll probably be on a bus.

Inner conflict, ya hear it all the time. Late for work, knowing that deep down you're smiling. Bookstores of youth, science fiction and occult. Questing... wandering... even seeking in supermarkets, a spiritual mission... other things on hold, not as important... look at people in cults and new age type programs... a month or two into it, they think they have found the answer, they can't believe that they went through so much trouble in their lives, because the answer was so simple. They smile and look at the unenlightened with bittersweet condescension. While they themselves, a few months later, are back to their problems, the quick fix philosophy having run out of gas, as it had to... and they devote their brainpower to coming up with justifications and evasions... anything to avoid having to say to themselves, "I was wrong."

Lyrically, were hotel, crimes of mischief, never get arrested. Torn away from TV, walk to her parents' house through a humid backwoods, what you're there. No way are you ready to pretend, I said, and it was... the Middlesex Mall... spend an hour with your haywire mind... killing time, spending money, avoiding the self. All the malls in a day... what an idea... but is it possible? To hit all the malls of New Jersey in a single day?

All the malls of New Jersey I can think of... Woodbridge Center, Menlo Park Mall, Princeton Marketfair, Quakerbridge Mall, Bridgewater Commons, Rockaway Townsquare, Livingston Mall, Short Hills Mall, Echelon Mall, Phillipsburg Mall, Cherry Hill Mall, Paramus Park Mall, Garden State Plaza, Bergen Mall, Riverside Square, Brunswick Square, Headquarters Plaza, (Flemington), (Brick?)...

Wherefore art thou, Conductor Girl? Yellow soap with teeth. Your own, finally, your own personal waterfall in your room. Does wonder for the air, for the health. Rivers, creeks, waterfalls, all kinds of moving water... it has become THE trend of the 2030s. I read all the magazines about it. "Faller" is the one I like best. Haha, sitting here in my cubicle at the video game company in 1982, I read the May 2034 issue of "Faller". I feel like the coolest being in the universe... just casually reading a magazine, anachronistic, and gained through time travel. The thrill of feeling that a time enforcement agent will step out of the wall at any moment and yank the damn thing out of my hands. Wherefore art thou, Conductor Girl? I know I can get more. Me and my friends... we figured it out, it's... we can't go there ourselves, but there is a device in the future... a manufacturing device... and it is unknowably complex, and sending things back in time is one of its functions, Conductor Girl.

May 1996

When there is, she is, let's start all over. About me, I have a bad attitude, or a bad strategy about it. Vague memories of afternoon sci-fi movies. Second guessing is the pits. But there's a fine line I define then. Love on the Internet. About it. No more, nothing more to decide. I have a vision, and it enables you to be other people, and it lets you cut loose, and when you get used to it, it's over with, if you can see. Amusement parks and waiting for calls. Pride as deadly sin, but without pride, you'd just keep calling, every half-hour, till the end of the day. I'm not saying it's bad to fall way down, I don't know it, but I am saying, a distant smell of wine, sometimes you are never going to wind up on top, and then why not just jettison the whole package of the situation.

Thinking about adult, the ideal. Calling boating, golfing, travel, being rich, gambling, being skilled, good facade, it seems like an ideal. But what it is? Abandon a train of thought. Tired and driving to a dozen strip malls, loving the mundane, a day without a center of gravity. Here are bad words. I am in a bad place. Go away, game. Him, that would be me, standing far away, and it is fizzling. Here I am, knowing it's bad, and I am stalwart and I decide to finish it. The robots got us the drugs, it was just funny.

Went to home of gods yesterday. Couldn't quite hear what they said about the vice president. Please murmur, rocker cascade. As I said, I'm not doin' too good these days.

Where you become PART of the game, the woman sitting next to you smells like static electricity, mud and bad stores. Sang the wham and trying coal for the first time... the freeze is Judith and Missy, and... corporations are seen by weirdoes, let us go to the rock, in, in, but that is that and we should go. And we should go and there you go.

Fun, I said, for fun I would climb, I said, I would join the secret agents in their deserted base, babe. And cool hats. Fascination by the near-moronic, taking drugs and being like a fountain, by it, sitting on it, but unable to distinguish myself from it. Pieces of a shattered glass... our lives are all like that... nothing left to do but clean up... nothing to do, nothing means anything... means everything... even contradictions fall on deaf minds these days... and to be in a supermarket! Mannikins who use all their energy to build a fake reality, to tell themselves that everything is alright, when everything is falling apart around them. And... and they say it's ME who has a problem, that it's my OWN mental problems that's making me perceive the world like this, that they're just so "FINE", and I'm like, what, a "NUT" or something. But they are all brainwashed. I see the truth. I see the real way thing are. Why me? Why am I, of all people, blessed to be aware of the truth? Maybe that doesn't make much sense. But to admit I'm wrong would be tantamount to suicide of the ego.

I am someone who has many fantasies. I have a very vivid imagination. Part two. I have this thing about the woodland and young people, and being young, and having fun. We say "frolick, youngsters!" With a suggestion of the spice of magic and the occult, and maybe a little computer science as well. Not only that, you become PART of the action. Jam in a virtual rock concert, where YOU are the star of the show! Help pilot the starship to fight the aliens. You can do it! Slay the dragon! I am thinking of a city street now.

Having fun in the woods, caprice, untethered, intoxicated, magic and freedom. Boys and girls in love with the great big question mark the world around them presents them. But such a state is very hard to achieve, the baggage of too much getting-along in the real world, or something. I was wondering whether those woods, and those mischievous young people could be recreated... digitally... with folks maybe not so young playing the parts... What is there to lose? That is a wonderful vision, and I will pursue this notion. It is another piece of the puzzle that is Obliviana.

Bad calligraphy photocopied onto goldenrod paper, folded over, like a little magazine, I know this is your work. Talking about the status of the elves. Fearing dragons. I like you. A rainy backwoods, financial tension, but news by cellphone that it's okay, and here I am with you. Little trap door deep in the forest, leads into my luxurious underground hideout, where we can watch any movie.

Knowing laughtude and cloudhood, jestingheard. You, little cutie, in my brain, in my brain, the way you look, the pattern of you, into my eye, into my brain, you're in there. Thought about hotels, yeah they're closer to heaven than home. Idea of "too many people". Idea of "thriving". I am unknown, I mean much. The turtle is as he does, the World Turtle, and so I am.

Was having jinktude. Ninctude. Nude. Humid dream Broadway, abandoned offices, there with a lover, there with messages to deliver. The way to dress, raw power in engines, New Jersey my darling, how many pieces of ass do you house? Unthoughted. Thought about night clubs and they are no good? Where I have seen. No more betting there are the rambling stairways of nature there. Been... stupid allowance, stupid aspiration, been, cannot, you know, ascending sound, foreign and good, we are totalled, getting you, for more trembling goddesses, the stout and jolly mistake or military.

Though you could cut the grass, that would be, you can't pay for it without your own money, we used vocals, your own. Timer Jennifer restart to mail master link, too was fraught in keen bewilderent, Lamp. To lamp, a lamp, by howitzer and lamp. This...

True to form, true to form. The time has come to write of experiences. And I will write it. It has come to this today, I said, and rain is such a mirror of emotions it's not funny anymore, or it is winter by the fire, but apartments don't have fires, and it is driving late at night and the song is over and it's a loud commercial. What I said. What I was. What I am. My psychic powers awakening, but I know the dangers. Deep, frightening powers, but I've been through that, and I can deal with that. And it is okay. Crochet, making something, turning yarn into a thing, I think it can work. And I'm drinking wine out of a Carolina Panthers coffee cup from 7-11. And I'm working on it in my mind, the poem I will write for her.

He's a theorist and he can think on his feet. Thought of in shower. Combat with smoke detector. Went ballistic from shower steam! Turning around, waiting for numbness and chaos, but suddenly it changes, suddenly you're there, bright and amazing, and it was so simple... Events like rapids, some kind of ignition, explosion, rough around the edges, but beyond it all, a kiss, and the feeling that something is working... Then the maze, a puzzle and a task, and it's a breeding ground for darkness, and the big theme, is that the universe is fucking with me, presenting me heaven, just to have the fun of yanking it away... Now, in me, a cautious hope, and a slow removal, of rose-colored sunglasses, to see there is a rhyme and reason to this, but I know it'll be a devil of a road to travel, and worth it. But I was wrong. It was messed-up, but it all seems to be making sense now. Such a multifaceted stairway, all right anyway, no more.

Talk... call... communicate... funny... talking to Venus, what was I thinking? Room in the basement... for family games... funny... beers and video games... years later... not my life, thoughts of a previous life? I am big. There is what is just you in through and through and we are back on the road, me and her, the one who is the one who is not going to call me and it's. .. back to the year... fun and getting... the... big... did I talk about big... ha... doing it again... knowing... just another thing.. . literature, can it be possible in this state of mind? Gotta shave... going away... the day is here... every day is here... what do you want... there is nothing... stupid to say there is nothing. .. being there... humanity///all about the strength to face things, lacking that strength you get mental. I am not mental, I am sane, but you might not think so looking at me? It is cool. This is just a time in my mind. It is just... I remember Mike's security job in Pequannock... have some video of it... a guy tried to steal a rock... I am Mr. the ankh the ankh... Logan's Run... playing it in the emotionally disturbed class... the game. .. great memories... great autobiography stuff...

I have a mug when I brush my teeth, and it was... I was drinking from it... to rinse or whatever... and a thing landed on the rim opposite my mouth... I couldn't focus on it... and then... I saw it was a weird insect... a fat little fly... maybe a moth... and there it was, for a brief moment... just me and the thing... and then it flew away...

My Dear Denice, Losing it... losing it... I like to hear the bird in that tree in the morning... but this morning all there was was a crow... ominous and nasty... I tried to talk to it but I wound up sounding like a hoarse dolphin. Thinking of you... it's like we've been together for a year... year... funny, three weeks ago I thought it was all going wrong... like reality was playing a terrible joke on me... it was bad. Then before I knew it, we were on the steps of a church and I got to know you... and I saw... I saw that the universe wasn't being mean to me... it was just shuffling me like a deck of cards... and it dealt us us. That is what I am thinking... and I am in the glow of the monitor... and I just talked to you... and the towers in the distance are blinking red... and the fan is humming... and it feels good to be here... knowing you are there. Love, Frank

I am perhaps no longer not a god, Whirring. Go to there and... it is a sunny and rainy street... to buy comic books... suburban yearning... that is what I say... and I cannot be here and... the truly way... amusement parks and video games... talk about "real life"... and it is the stimulation of the mind... and I am rising to the challenge... we are all here and it is... it is an opportunity to be part of something wonderful... like starting up a video game company in 1980... and going to Disney World full of hope... full of dreams of exhilaration, a future of unlimited success... that is where I am, and we will all look back to 1996 as a time of magic... clearing away the haze of Generation X... a new time, a new place, promise, a redemption. I am Frank Edward Nora, Lord of Obliviana. And wonder—we're coming back.

Hippie bookstore venom of the best raven statue, peace and love and Vietnam and mysticism. Yellow gold, deep and inviting, cigarette butts are cool and reassuring, and silver and solid, a mind is a field behind an office park, and it is all frisbee and new, fruit memories punch in the belly, no curtains, just a day that is sun and rain and happy and sexy and talking to trees. Gigabyte hard drive, beaten up by commuting, little goals, little shows, people with their beliefs and their genitals... and their chattering all about technology, and I am whispering secrets to the uncut grass.

For all of time, a clock is friend, going down to the stream, waiting for friends to call back, cellular calls, she is made of cells, but it doesn't ring true, cells, little tiny animals, zillions of them, and one her... it's a spiritual universe... cells and DNA and science... a frightened kid clutching a stuffed animal... science is the stuffed animal of the collective mind of the 20th Century. I had a dream years ago about a parking lot and a tunnel that goes to the mall. I still remember that dream. I am not experience any cells right now. I am one, whole, single. I am not made up of a zillion little animals. No matter what the little scientists mumble at me.

Flowing a word into an exit, highway exit, pure old televisions in abandoned supermarkets, knowing California and London only from magazines and movies, we are like radios, she said, and I didn't understand her. Talking about the metric system and cigar boxes. There are three forces, she said, and I didn't get it. Get at it, she said.

There was a precious moment before, in reality, I had my old red robe on and nothing else, a few days growth of facial hair, and my hair wild and unbrushed and I heard the doorbell and I answered it, my hairy chest exposed, and I faced a woman in her fifties, and she said something like "We are visiting people, and talking to them about important questions in their lives, like if the Lord loves them, and if he does, why is there such corruption in the world." I stood there, I must have looked like a real psycho, and I paused... I've had a lot of fun talking to Jehovah's Witnesses before, but I wasn't in any state to do so. So I said "I can't talk right now", and she said "I understand." And I closed the door.

Water. Coming from the computer precious resource, big and small and she is on drugs and cannot tell the difference, Dwayne. Shooting monsters on the screen. Very precious the age of the viewer, and we are all going there today, it is a temporary setup, like a Halloween hayride, but this is different. Coming with me? I have a collection of granite cores, my father is into granite cores.

From here to knot yessing the town the town, forget it, I am mapping K-Marts and Caldors in the back of my mind while in prison, I am travelling the sting of the aisles of Toys "R" Us, I am there in my mind and I am wandering, massive dose of coffee working its way through my system, disorienting myself, spending money I barely have, and all of this to avoid reality. But in time I got past that. Being for the benefit of Mr. Pibb. Soda parody album.

Being for the benefit of Frank Edward Nora. Surfing, surfing, I am not surfing, and I am watching them play pool at college. Turn on fan. The feeling of a Sunday. Longing. Caffeine withdrawals and rushings. Cool new toys and video games. If I am the one to bring the thing, let me go back to the sentence, falling and, for again, confusion, but and I am coming to the point where it is good and falling and fun. Sue Technology is here. A log cabin of discomfort. Fear of this.

Scumbags. Funny, you do this, you don't care, but you ruin another person. Interviews on TV, how much do you care about that which goes on beyond your little sphere of activity and influence? Glisten, bright little thing. Some goodness left in the world.

Werid, maybe a month, and such is sun. Locking around, stir me up, city is dead and alive and lazy you are lazy. Porno underbrush, strumming an impossibly complex string instrument, we are amused like chiefs. But now it is a walk to a train station, and it is SO good. Real backwoods, corroded camera feminine dance, luck being the thing, ending the tightening. Coarse hotel feeling, wooden CD, romantic and American and free, nature is the expression of man's light, and I am cuckoo.

Three being and the impression junker. More true by the second, it is a few days for the company, but a night with a girl and a night with just you and the mall for you. I see video tapes about to fall, I see birdies. Am of a pinball mind you know. Am loving three Pittsburgh calculators.

Preach. Of blue metal canister. And of great, sunny days and of wandering. Objects persist, that is their way. Look. Gray plastic is good. Coffee is good. Pilgrimage, pocketful of nickels, driving daddy's Volvo to 7-11, late night, get coffee. Power strip. In bed alone and lusty. White walls, barren of tools, and I am threatening paper clips to defy the dance of the mystery, and I am knowing you, and it is dreadful the lack of space and it is thoughtful the finding of cassettes and for you I am not youing you. Degraded, denatured, the road is fixed, and I am following your footsteps, and it will lead to a great place, a great life.

Brand. Waves of manufacturing I am aghast at the thunderstorm of dice. Video gods, sky pure as roofs, quite an alloy, temperaturial combat, said it as I sped on. Quango, quasi non-governmental organization, saw it in the dictionary. Quant, saw that too, cool.

Little girl in the woods, all alone, her only friend a squirrel. Years later she falls, into the underground paradise of the squirrels. And she lives there, happy, talking philosophy with the squirrels. Bunkbed made of drugs, orange wine and ancient music.

Menlo Park All. Here it is, all I remember of the old Menlo Park Mall. They tore it down and built a new one, but the old one is still in my mind. There with my mother, a fountain by Macy's and a pet store, I was very young. An arcade, a record store, I was going on a road trip by myself, just starting to love The Beatles, looking for the song Penny Lane, but they didn't have Mystery Tour, so I got Abbey Road, and I listened to it on the Interstate and at the airport where I was wandering before that and the end of She's So Heavy was so confusing and I am not sure. The mall, a place like The Cookie Machine, good smell. And going there... the orange and brown tiles... and the mirrors on the edges of the ceiling, and a stairway going down, just for employees, and the curved sides of a bank or something in the middle of the mall, and I kind of loved it, and I have much more to tell.

Door, gotta see door. For. Fanciful with a battery. Cigars and sexuality. A sweet memory, we are full of actuality. Beclouding is ruinous. In books find more than they tell you. Earn a free game in pinball and just walk away, leaving a pleasant surprise for someone else. What about it.

The more, a street, it is childish bike riding, and is alcohol and prostitutes in a car, and it is a blooming occultism. Thor as pure, hammer as above corruption of the real. And I think Thor could be so Disney. Walking around all clean in Tomorrowland, firing the imagination of generations of kids, and it is a good thing, and what does the real Thor feel.

Forest long real fear, rest orph-eye. Toon Nixon and the burrowing vehicle of sci-fi. Falling, grand young poet, dare he be mundane as he always will be later, the tragedy, as a car salesman or in insurance. It means he failed a test.

Soon-Foot, future character, innocent 1970s TV future. Sitar Glenn Miller classics. Four friends, succeeding together, theme, four gods. Chicken fun, chicken characters, stripes and drinking glasses, computer. New black-purple marsupial body decorations of the future. Quiet worship of the nude. Over in a clutter of moonshine.

Tome, he called it, and they all referred to it, a book, and it was big and old and there was something magical about it. They talked about Tome at the bowling alley/video arcade/skating rink, and then I asked about Tome. Young and loose and comedic. Obsession. Chances. Up on rocky hills, she wants to dance naked and her friends might follow suit. Let me go Mom, I can clean my room later.

Too true, being vaulting human interwender, hapless and dwindle. Sophomore. Jake the faux marble, Jake the young wet hunger, computer illustration program, alarm clock patternjake. Book of Matches World memories, then today, know me super gum.

Through ice thrice. Car blink market fallingcrumb the doll, lensing dingbats and coffee people. Laughing pleasure no jealousy, woodlog architecture real dreams. Go beverage, way away to a cold city night, and very tired but a refreshing space station morning. That is the morning, working at amusement park, meeting sexy daughter of famous rich guy, not a good time to be a dork, but you have that space station.

If you hoo-hoo got shears, try a cinnamon see-girl. And am walln. Dream, Disney World taken over by Warner Brothers or something, the ride perverted and ruined. Ride like a ski lift, changed for the worse. Talk about ribbon. Fault candleward sputter. Alias, alas drynight and trynight.

Fire of mind, all kids have it, ready for anything, that much is clear. As kids we like lugers as the coolest guns.

Talk about snowdrive. Coral ice cream cat dream. About the TV mushroom alone, pine movies, treasure and creation, two mundane cigars, here. My storage in Iselin. Pasta dinner please. Grumpy, trying. Moose day, crow summer brunch, tadpole video friend, the normal. Venus and meaning. War Scott the doll. Impressions knowing impressions. Tubular. Antihero.

Born. Fundle, green word, applehim and appleher, dear be, unthink, passion for college days, sweet Twin Peaks honesties, preening gun. Another poet, parents man, a new way, computerized magic, mystery fun for the mailbox nobodies. Like. Like. Talk about enclosure, metal beep, final animal.

True the yurktid milestone. Mara I know you. Tempted, dismantled, dialed back. A hundred birch beer partners, pretty free spirits, in Arctic nonsense. Due, begranted, very hoveryarn, an everyday World Trade Center drama.

Bye. What do the young people do? Bye. I am on your porch, a have a magnifying glass. Do it. I am a phone call. That is how I describe myself, as chatting atoms. I am complete.

Did I play an adventure game? You and I are the same, but lust will keep us apart. The eagle and the archives. Talk about valuable paintings. Weird feeling TV Sunday. Vanguarding on the right side of the issue, or so you think, fighting against it you distance yourself from it, you think, but really you get closer to it. Computer animated railroad, I am with you at night at the electronics store, we are dressed in orange wand.

It was tough to just turn off the TV. Back to writing. Sorting it all out. Lack of time is just lack of scheduling. I was in bedroom and I was in warmness. Love is good. Talk about running water, falling water. What is known as wizard, what it is, just retreat with the lure of vending machines and artistic things, what should youth be all about, call it that. Do the walk, parking lot walk, and let us be in jungles of blandness and I am struck with coolness tonight.

Absolutely foldedness today. The words of the mind, lost in humanity, drinking diet soda to the empty clock, anti-meaning we are corrugated, that means strangthened by our foldedness? Playing Asteroids, 2600, bedroom, thinking lazily maybe it would impress a girl that I could play it well, but that was long ago. And seashore. As having it whenever, I am cool. Now the daily experiences destined and slated to be vague nostalgic wisps of emotional pleasure/pain. Having to be at one time, call me a monkey making his own bed, sleeping in it.

Lest. Kangaroo itself and a soul of girl of window is fine. Bad let. Ugly under the shoal. Dissing. Going. Anough. In the end it is the drama and passion of smart people. Way, I float, that is of materials that are not identified from nature, like wood might be.

Important individuals are here now. In the shadow of silver. Grasping for interestingness, hey hey. Mysterious violence of the pentagram and the riverboat. Falt granularness. Dask vibration. This is freedom. Take. Digital equals disappointment, until the next century. Talk of red vehicle.

Blackjack of today. Influences and factors. Haha, 1996, seems like such a long time ago. That is the secret of andacing ages and days, living in the future, obsessed with the past, but enough roads to handle as much driving as you might want, and consciously right now I don't know what the hell I'm talking about, darn it. Enough for today, got me scrambled, got no more in me, but a lot anyway, 8/4/96 was the last day I did this, eleven weeks ago today. Fluoride examine your zipper, just wake up every day and deal with it.

Out on bread calling as bee. Okay rock shop western shop let me be in this world. Cold myth, girl in hotel, dialed dog ways have am istameer. Curve of hold, quarrel bird. Take me gem, daily burglary, we are as dont.

See this, a spirit long ago knocked out of the world, connects with a kid, and seeing western shops and rock shops is filled with an insane desire to come back into the world. The shops are so cool. He can't help but yearn in wild stretching to be real, to be in shops. Kid is vaguely aware of spirit, unable to help, has his own problems. Appeals to gods from the desperate spirit, one has mercy, and lets the spirit be real. In the shops, the spirit is thrilled, and the thrill of shops is never lost, the spirit is a happy one.

Door into unknown, making a spontaneous attraction, like a nerd Walt Disney. Blasting the envelope wide open I hope I don't become an accountant.

L Fierce like to go to the beach. Foze Dayharn has time jellies. Ashison Yobell spearheads the protest of the Snock-Assad Act. Hadrian Fozzcolt as the Dean of Torpor. Storyliner Hexo is a tiger turtle star of children's stories. White faze observed all light as a worse blindness.

I am proud. Close your eyes and think about a car journey. If you can't get to New Jersey from where you are, think about where you are. The buzzword is "stuck". The closed door is yourself. Ah, go bite an elf.

Tiger temporary work, lamp dainties carousing in the FedEx mailbox. Blasting fossil teeth. Plainsboro jogging trail, promise not kept, but a good winter bench sometimes. Lip. Mysteries of the tongue, edufilm got snickers from lusty teens a few hours ago. Time continues and, regarding the boredom of gold foil, and the smartness of anachronistic elevator operators was apparent. And a stationery store guy said I had a very gentle voice. Immortality means you'd have 128 great-great-great-great-great-great-grandmothers hanging around.

Itself? Poor dull bastards. Questing after the nature of oils. All things considered, oils are fun liquids. The first person to knock over dominos. TV shows in my youth in the seventies featuring the world's largest domino layout. You know? And they show it all being knocked over. Something like that can fire a kid's imagination real good.

Gamtard the hated fashion designer. Identify yourself with celebrities, look for similarities, empathy engages. Dead of night in a strange apartment as gummy. Felmdalvno the typecast gun chick. Punk. All about sire.

O passion of the Jukewand.

Roman Kinsolving, a name, glop glop, talk about the field of puppet birds. Used bookstore attitude. Commuter railroad attitude. College video game room attitude. The CDs in your apartment are scattered like autumn leaves. Stampglintotch. Bet that's the first time those 14 letters were sequenced that way. Over 64 quintillion possible 14-letter words, after all.

I want to be clear. Intense emotions can distract you from the unpleasant thing you have to do. People always bite off more than they can chew, don't worry about it, it's a keystone of being human. But I want to convey a lucid thing. As general manager of your emotions, you might flip out. You can do this. Take comfort in this ability. And I want to make sure you decide to do the right thing. Trying to be concrete, this one is as weird as all the rest.

Amazing, a pornographic tongue. Wonderment in wind and country home, thriving on comfort and all that is historical. I am skeptical. We relate to computers like animals. And I exist in hobbyist get-togethers, a punchy goddess, waiting for sensation.

Hither. We can may clear the frusturbance. Talk about a conflict with some good in it that's been happening for years. And that is blunt. And that is thought. Another obtuse symbol for what's really going on. What's really going on.

Made his reputation in fantasy gaming, think dungeons and elves, berserk fighters and brilliant wizards. Computer screens as portals to a time that never was. Another time. Draw random lines on paper, and the kind of drawing they make. Come together, my suppressed genius, have a shot at the force that is preventing you from doing everything. Behind all that bright kid bluster, the culprit is probably still inability.

Oval other people. Pay Nancy. Fear of the graphics. Meaning of meaning. Without deepness who we are. Audio tape strewn on a highway, meaningless. Manipulation through the exploitation of adaptation. Hearing yeah sure. Fun all sorts of little coincidences. Powerful-sounding sequences of words. The dark, lonely world of lust unrealized. And fear of unconscious bad things getting out. But if you don't care it doesn't matter.

Time travel means we haven't got past all that. The joy of seeing a jet take off is that the jet is alone and not connected to anything and is getting away. People are stupid. How much of our lives is occupied by parking? People are cool.

I have as art a question about meaning. I hear crickets at night but I've never run across one during the day, where are they? There is the human mystery, it's the best story.

People who get carried away collecting things, they say it's to make up for something missing in their lives. Come on, missing like dancing on weekends? Palhubot, said getting up, just nonsense, and it is. I'm not aiming for another being all computery, and that is it, your computational life. Nonsense without a cause. Going and going for the flunt yesterdayed. Classic like fetterchain, she and aspect of a worn wooden statue, the wear and tear a sign of beauty, ex turtle shell I am saying. And a drug store in a dream. For low record store going, the drinking in of it all, knowing, and the humanity of it all, and the reality of it all is strong. I am being, saying, what understood in, call library, call a library for the hundreth time, you probably know someone there.

Keen. A train station stays with you. Pore, compare fish and human, stockpile of photography, success of tobacco, and the stark romance of analog media. I was processing all the junk that is thrown at me every day, and let us think about it. Getting better, like a piece of metal hammered on the anvil, taking shape, getting refined. Love. Talk about chaos. How much clear plastic. And going. Driving places. The highway system. That which is consistent in all these things.

I remember from Monty Python a character called Angus Podgorny. 800 numbers, 800 numbers. Lovers. The crap buttons on the remote control. Weird union rules. Pipe smokers. Let it all go. Humming tech. Silver worlds. Shiny somethings of thought. Undeveloped minds blasting out at the college at night. Human power in the woods. Yearn, lust, create. Brochure. Temporariness. Pillbottle arena football. Phantom wristwatch. The feeling that it's still there. Sense of time. Time bus. The foolish road signs. Come and meet. Manipulate others, manipulate yourself. Drink water. And a snowy, dangerous drive in a blizzard, no brakes, or very little, and the fun of college. Just writing, just.

The power of digging. Other friendness of other people. Talk about T-shirt. And the courage of language, thinking, library, drawing cool things, and the seeing of the nothingness. The Breeders, listening to The Breeders. And the bulging of the music, too much recorded now for anyone to ever hear it all. And of movies and of home movies, and arranging it, and the resources of yesterday. But metal puzzles in the seventies. A new aisle.

Fear top. Another ceramic. Enough of the genre. Understandwood. Plush. Beacon. The rush of the rest stop, the confusion and the clatter, of it all. Wood in vision, all the woodgrain seen, patterned in the mind. Mushroom basement recreation. Kids. A lot, comic book store tomorrow, lacking of it, you as knight, and it all is coming and hiding. And it to be cool. No I am writing it all in sequence. Bid.

Counting, the mask had, bright and ingongruous on this eh town street. For the junk, been, truth, jumping and all the bus songs and I just love a nonsense word "anfer". Found out "syllabub" is not a nonsense word.

Time before to yunugu, bulu device, school stage, crashed rocket and after a bad phone call. Yah, I am feeling. Beans and bowling alley and Tori. Frozen seltzer. Feeling differently on the bus every time. Look at the remote control I want to. Losing stuff, losing little bad feelings, and growing up and that feeling of tiredness after a temper tantrum like I haven't felt since I was a kid. Put it bluntly. I last ate meat in 1987, but I still remember exactly how all sorts of meats taste.

One fourteen ninety-seven. Wow. Talking about just laying right down on a cold college pavement trail. Give it a break. Got along. Been. The sunniness. Clocking the calm and secure warm interior, like a nice house, exaesthet, PATH system morning toothbrush. Haha, my own um, means something to me, and numbers, lazy smoke she was kind.

Superior being, great blue down home implementation. Cardboard memories, prightly brinted, calling to the way you use language to convey the more. Trust. Band reje, lacking thust. Yeah it can be cool to be outcast. Humanity on one side and a library on the other. Distant humanity. Bubble, live in a bubble, we all live in a bubble. I like a mind. I can threat pix treat gunner frest nestery volur. That is nonsense, but it makes a kind of sense, and I wrote it with passion. Have a cracker in a car.

Thinking, and it is the deepness of the humming of reality at the mall with music and coffee. Ha ha ha, reincarnation, the people working at the mall, what were they in their past lives? True forest. Answer the rubber band. Chat about airport. Consider zeitgeist. I am literature microphone. Just like a pleasing sound, free to combine words as I please. Rubber buttons, lash of cold, pointlessness of silver, street to fear tickets, loving New Jersey. Before we settle into the end of history, let us rustle the leaves.

Just undersharp—buy taut see store, sunny, not busy, hippy kinda energy. True. We are gonna go up to the mountain and have fun. All of this. Fire borne of cave, secluded for a long time, there are meadows and roads. Back into clatter like reincarnation I use wandering as a salve. Happiness of alternate bathroom.

Right now it's that night of the O. J. Simpson civil trial verdict and the State of the Union address. 9:44 PM now. Clinton's droning on, and we're all still waiting for the verdict. This morning, I woke up and looked my digital alarm clock and it said 10:34, and I was pissed that I was gonna be so late to work, but when I looked back at the clock, it was like 8:24 or so. The only plausable explanation was that the first look was hypnagogic imagery, which I have been having lately, but in the form of looking at a sheet of paper and reading stuff off of it. But I recall the first look as real, implying that either the clock was malfunctioning (very unlikely) or there was some kind of time disturbance (perhaps more unlikely than the clock malfunctioning). The Swiss Army watch I got for Xmas has been malfunctioning a little, but only when I wear it. And sometimes I look at the clock at work, at the second hand, and it looks like it's going backward for a second. This all points to a weird relationship between me and clocks.

Fleer is some kind of trading cards? Linking, bad country music and the guitar pick used in rock music. Just funk Somerville train station, nearby parking lot, head through alley to comic book store, but it ain't there no more. Seep. Let 'em think. Pine we said. A blast, diner in Madison, memories of Drew University, haha, aha, my college days, aha, how I have canonized them and I am happy with it and if I had soft time travel I'd go back there for a visit.

Yeah that dimension. Plus. Talk about classic PONKE and the gun and the elevators at the Contemporary Resort. How to conceive of hay, fake persons, the thrill of the feeling of coolness in the early eighties. Like in movies. Far the wund cretend verry and am koole. Grew, the clever copper foil that is fish and treeleaf, was hunder and I was possible. Caught a phantom, almost the scent of beer, and it brought me an excitement, and I realized it was from the promise, the horizons, the hope that college and its smells of stale beer held. I could use that sense of freedom now, and I will.

To the a sense of speed and atmosphere, fascination with the past, is that the immutable can be idealized well. See Wonder through that idealization. Walt Disney was into scotch in a big way. That is what I read. Yeah snow. Blinking, flashing, yellow security lights, red tower lights. I have this vision of these people, of a time and a place. This guy I met reminds me of this vision. Just a kind of summer inside ahouse thing, amusement, being young, and... a lot of it I can't put into words just yet. Was at Fortunoff before. That might not mean anything to you. I look over at my guitar and it makes me feel a little good. It holds promise, I can't yet play it, and I have had it for a few years. Bought it partly with money from selling my PlayStation. Yeah, and here I am and I am listening to The Incredible String Band, The Hangman's Beautiful Daughter. Being the wristwatch made of mist, a potent phrase here and a potent vision but what does it mean? That the information we need is with us always and almost perceptible? I have a vision of a shopping center in Somerville. Like I was a ghost, going back there, to a place I haven't been in years. Me and my dad and my brother used to go to a sushi bar around there.

The Walt Disney World Explorer CD-ROM, smoking John David MH65 tobacco in my pipe. This has been a wonderful diversion for me of late. Smoking a Matacan cigar now.

Was days? D bad question. So, I am in transit. Haha, be. Cool. This is music. Or the is music. Be. It is the feeling that on the edge, just out of reach, is where it is all clicking. But here it is, just a vague thing in someone else's emotions. Yeah, speak of game, blown up, highway, highway is real.

Like on Broadway, at college, film school, that time of my life, seeing it, I... in Phillip K. Dick's book "Valis" Paul Williams, the author, not the singer, is mentioned. And right around the corner from college, from the Tisch School of the Arts, I met Paul Williams, at a long-gone store called Gemstone. I was rambling, praising Das Energi which he signed. Reading "Valis" these days, it's so weird... I know I read it back then, 1989 whatever, but I don't remember much of it at all. Where was I? 1:16 AM. Listening to Bachman-Turner Overdrive, greatest hits... like...people... waking up...

What is can I yell blue not not. Bland line. Last one of the night. An attempt, subject: to distill. Sex and pleasure and also great immaturity. Trying to act more mature than you are. Great music, only you don't know it's great yet. And this feeling, this jaded feeling, feeling like... like laughing in a condescending manner at the nature of the experience of being young, but your smugness is suspect. Diluting soap to make liquid soap. Prepare for reality to slap you hard. Laugh and smoke. Calculator games, nothing but calculator games. The toll-taker with the pigtails and the guy yawning with the crowbar. I got $5 worth of quarters and the arcade's empty. It's a Sunday, and I muse, failures and apartments of the past.

Popular umplossibel the disney world. 44-44 a balance. Tookroone T. I been ebe, jullison toonberby. Real of Meaning. So now, airtrip to the Walt Disney World, mall the day before, was what it it. No bo no so. The crud, the of goon. Boee POW pow. Nossagain. Bad, self-review: bad. jujd. Ommdird.

And that which I glimpsed in a grand wooded college is here. Was is clocked amplifier. Downpour, past slash, as miserable in the moment. Construction site, memories of school, the punk feel of the nature of reality. I would like to help you. Bust it. That smallest economy, the one in your head and your bed. Jingbat jingbath, of primal spa, stone house, flight of fancy photographic. Topic equals bookstore spirit. Measure as word a work should mean a thing as pleasant as the pronunciation. But oh, that has been the case.

Stop. Yock, these little knicks and injuries to the flesh of the hand, the arm. And me, annoyed at my ability to start seeing fairies. And going to a bookstore to go to the bathroom, and I bought a typography book so as not to seem to be abusing the bookstore's hospitality.

Having a typography argument with a rock band. Umper didi, the sestered. That wasted reptile, baseball robot frustration, CD-ROM company that was a failure. Rock band, comic book, CD-ROM, all these companies that the young start and they fail. For yoster for see, like ballet in the asphalt, say blast it. Ga goo goo. Soom day dear tea during junk jast. I see an orange toy on the roa. Blast. We are too durmid. Tee slight the thee the bight the I am slight the I am delicate.

I feel that shattering glass mountain in your tales of family woe, haha. Jimmy is a punk tailor is Ye Olde England. Mall parking lot, that silence, there are lot of things you should be able to see in mall parking lot, but you can't. Far away that is what I fawn over.

The clearness of everything. Here it is, memories of going to a mall in Pennsylvania. Meaningful to me, meaningless to you? I'm talking about freedom, being able to go to wildly new places every day. All in search of a deeper truth. Radiator under sheet, could be changing colors at a dizzying pace, so long as you couldn't see it through the sheet.

Can words make an openness? An outdoors? Wow, I got this coffee over an hour ago and it's still pretty hot. I like rain. Probably the enjoyment of memories is greater than the enjoyment of the originals. For example, I always think back to my time at Drew University, from Fall 1985 to Spring 1987. I recall that I was insecure, troubled, and immature, as most people are at that age. But the nostalgic memories leave out all that. And why not? Older, we can finally enjoy our youth, without all the distractions.

Talk about running wild, falling that feels good. What is slapped as wizard, that is it, just recreation with the lure of vending machines and artistic thrusts. What should you be all about? This is a unique Superior. Based on Superior 589.

Is all this intense feeling an illusory conceit? I sit here, rare sinus headache, raining outside, listening to Pink Floyd's second album, working on Obliviana, and reminiscing about things in the past, and I have this feeling, and I think this feeling is important, but is it important just to me? Is it meaningful? William. An evolution of the English language. The fascination with mythological creatures. And seldom-heard tunes evoking emotions from another place. Yeah you gotta be strong to be cool and not fall into madness. Ping.

Feeding American cheese to Ginger, my favorite cat of all time. I would fold it and fold it, till there were bit-sized chunks. She would meow for it and I would go in the kitchen and get it and then go into the TV room and sit down and she would come and I would feed it to her. We did it so many times. If in the life she is in now she gets a flash of memory of this thing, it should warm her heart.

I was at the mall earlier, by a pet store window, looking at ferrets. A mother with two kids comes up to the window. One kid asks "What kind of animal is that, mommy?" The mother kind of shakes her head and is confused and says nothing. "I think they're raccoons," the kid says, "baby raccoons". The mother is still bewildered. Meanwhile, there's a sign right there that says FERRETS.

Vagabonc, biting a CD, trust, and do not explode in a craft store please and, do burrow under the food court, and that is a good diversion. There, on a rainy gray mountain hilltop, is candy that is old, and to eat it is no big deal. Pissing in a train bathroom, laser beam yourself into a stadium, start sparking, and lay down and shoot sparks all over.

Hi hi. I can do doorway, I can feel, in the vastness of my pastness, a Wonder that is a little Wonder in itself. Damn, this is a puzzle, this magic of youth that I keep snapping back to. I was there, 1986 for example.

Experience of love, staying up for 30 or 40 hours to make a photocopy little magazine, in the basement, in one room, everything I need to produce and print the thing, this was the situation with ZOPE magazine in 1991. I was in a state of whatever, slowly stabbing into the world, whatever, I am and have been working on something very big. And the wind is kicking outside and it makes me want to go outside. But I have to keep on writing.

Do crosh me. She is near you. Bayou. I am of trying you. I think about a bear. Yeah yeah it is cool. Black Monk Time, great album. Stunward you carry me. Joking haha two girl laughing. And I watch this. Fan I care about this. Float be the freshing showerclean. Rock climbing in younger days. Flock of sneakers. Be me. Haha, know said that. Do. I fan dollowward.

As the a dawn of a new try. Parchimento. How much do any of us know about missiles? Kids love the ideas of missiles you launch and blast and destroy something. Heavy and numb in our quest, we are polite but we are juggernauting through the backward flow of time, till we reach The Waterallidge Edge. Slam.

The expression of the devil is sitting next to me. I am pondering economics. I am floating over the cityscape, Emma. Powerful of pinball vibration, tried being fast and the ancient rock. Dime. And pike the flame of the pave love on the turnpike. Study the dark rushing. The flash of sexy outfits and jewelry and makeup and expensive cars, and the misery of life along the highway, and it is past dusk, my friend. Yo!

Pastensive issues, smell glue and see a redhead, neither is a narcotic. We have this sky thing, all about up, and it is over college town record stores on rainy Saturdays. And that is a hopeful vision. And I dream of a train trip with my father, but when I dreamed this is a mystery.

Of barely so, airy museum atrium, and new girls, friends of a friend. Ball, drive along pungent semi-highway, lie for Fruny on Friday and toss a can of paint on a defunct fire engine to enrage the billionaire's kids. Dove into a sea of cash. Stole a tropical trip, loving paradise, the money is running out, I have no way to get home, and I have no one to turn to. Got myself into this, gotta get myself out. And the way out is crime.

You gotta cross-juxtapose Christmas Trees and superspeed, such as a train. Lean on one thing or another. In a general store. Such a way to slash time. I am bored and I am dancing with failure. A point of reference would be quite valuable.

We're bound to have weird conversations when travelling the New Jersey Turnpike. Off to another wave. I have found an amazing thing. It is the escalator that goes up to the monorail from the Grand Canyon Concourse of the Contemporary Resort Hotel in Walt Disney World, Florida. Oh yes, and it is 1986. They had like film with clouds exploding and stuff.

So Leo, got sopping fast brink of transit. Are dark holographic business dream. Seed here, being inventor, slap of erotic thunder and little refridgerator. Buyer is cold. Stage far away, getting gone, I love a chain as a trademark weapon for me, superhero.

Dank sunny monday, solidity, I am in a faded field. On interstate I yearned for mall, here now, the what it was is very gone. I am far above it, and I am solid.

Okay, spice has connotation, downhill glide, the myriad of sensory input never to be called back again. Why we do what we do—is it really very much a mineral deficiency? Morning, theme park yesterday, tired of asking, about who we are, yet counting the seconds till the next disaster. But the counting you don't know.

Problems, and how in quiet moments they are growing but we ignore them. For that I am, I am pasting invigoration on sky and tree. Pile of junk and clocks, be my friend, you are one of several people I know. I am strange in some ways, and I travel on unknown subways, and I am seeing the funny secrets. Yes, an alley in a comic-book-getting corridor of my youth. Energy, punk, of the moment, living, forging cool works of fiction and art, and I love you. I hope we're going the right way with a stick.

Whatever college clever witch, beyond our indulgent play, financed by parents working in soul-numbing misery, a truck is coming, and it is coming slowly, and we are sneezing, and we are at arcade, and we are cool, and we are talking about The Beatles, and we are both experts.

Pissing on ice, hi. You're not really stunned. I found something on Keeving Drive. We usually look at real estate at night. I have some artistic cinnamon. Following. The cousins have other grandparents. X is swollen. Daddy, sliding doors. Dating user. Chase heat. Meerschaum Whenever, dwarf.

Sword thrust into ground. Hanner-oriented (far) Comething. Walkin' tall, pissin' me off. Weirdest fucking oilrig. This is an idea I did did behind last year. Not good enough to start it 5/19/97. To sing of the jolly amuztrajgur. I was gone from over there. E/S/I+G, a simpls code. Simpls code. We, who terminate, were phasers, and this bottle can bark. That last sentence was computer generated.

See, he is obsessed with a cool building and she says he's trying to avoid real life. She threatened me with a knife. But all these girls of the past are meaningless.

A dear sensation, wanting to smash someone, but just humming. She was very smart, and said that ghosts don't exist, still I wanted to embrace her. But a scumbag flirted with her. And I had just started listening to jazz on my walkman. And this guy had a keyring shaped like a penis.

Smart young computer urban tales, spun in a quirky manner. Tangential. Breaking off a part of the chair that was a bane to me. 3:03 PM. Haven't been on a real train for awhile. How about a silly silly train trip to Princeton? Not enough time in the day. And I'd have to go all the way back to Manhattan to get a bus home. People. Photos of people. Time we devote to sorting out the past, also to generate new history. A blast, a feeling in a car, and a mundane taking-out of garbage to the dumpster. My personal history, I am fascinated by my past. Things changing, things I have been through. And all the stuff I have from those past times.

X is famous. Dear, we can sense that we are ever struggling to process what our senses are telling us into something graspable and comfortable. To hide from reality. We can see bits and pieces of gods in most faces. Driving down a rainy roadway.

Folks are broken. Big ideas and a tree. Air conditioner, conditions air, bread rolls and butter in nice restauarant with piano. Yet are things very much okay.

Now this is an unusual vear. I must of tock a misty understood like beforehand. I was in food court and I had potato. Yeah, road, stay on it and not get distracted. And even so there is so much I could wanna do with just a subject like turtles. And I would coffee and mall.

The brain, and all the associations it has with words and sounds, and that is too complex to understand, but we can feel the pleasure of it. Tape recorder show about animals. Canonizing the 7-11 experience. The love of driving around at night. Doing stuff as the day happens. Day happens. I would say that a little sane thing to do every day would be welcome.

Blast the digital wristwatch, Henrietta. A freedom of cardboard boxes. As a kid I had some kind of special feeling about a gas station called "BP". And I thought that minicomics had some kind of unseen potential. But chaos gets the better of it all. But I used to love the antiseptic, theme-park-like version of the idea of chaos. And I am yet yearning. And I am fascinated by the thought of winter.

Austere living, like reading a comic strip over again. Parking your car, or being in a car that's being parked, or being in a parking lot. It is pathetic and comic, weakness. The disruptive people in (whatever). I have no need here. Let the neighbors have their gardens.

Yeah let's go around. That feeling of there being so much to experience, and you wanna popcorn yeah wow fall all over the place. Fly and drive, don't know you got a gas tank. Don't know you'll run out of gas. Spend some time looking for a refill, that's a good one, but no one does it.

Ficticious city. The end of an era. A child drinking in the wonderful promise of the future in EPCOT in the eighties. We can map and edit these happening, I know I can. Casual good looks 1980. Computers are just getting going. Cigars are not popular. But a dream statue, holding a true burning flame high, not at all related to Statue of Liberty, and a blue or black lake or ocean at night and the light of the fire. And the bright clinging to science, many centuries of information, and hoping and feeling and not being there. Seventeen years later. I need to return to those roots happily.

Proof of bookstore, surf guitar interdimensional trip. Stress reliever, fucker, this day much that has been with us is gone, and a new day. And many voids to fill. Fill or be demolished by. Wow, if I'm still childlike, I walk in New York, Penn Station, video game stores, Theater at Madison Square Garden where I saw the Howard Stern "Private Parts" premiere and also Tori Amos in her RAINN concert.

Free we are here, girl that I knew somewhat. That I showed written down "Dark Forbidden Freedom" on Broadway. We took the Long Island Railroad at random and had peanut butter and jelly sandwiches by a road or something, and I was in a movie she made. In her apartment, talking on a bed.

That CD collection, fall for metal video game tunnel, and real tunnel with music and people. Tea. Bright time, brighter as time goes by. Magic. A seashore sand and Kim has powers.

Try. That realm of perfect places dreamed of all the time. Special and pure, and I was playing Venture at Drug Fair. Buy little electronic games. Things in your room, yeah you're the best. Had a gift theme as a kid and have a lot of such stuff? Flying down cathartic corridors, leave it all behind, but is it such a good idea to leave it all behind?

Oboe, not much of that in life. Poffee, pigar, pomputer. TV I gonna do? Blasted some words. Foolish Obliviana Vending Yamp. Okay, I got some scratch-n-sniff stickers and I wanted to use them to teleport to a bathroom in the Contemporary Resort Hotel, in Walt Disney World, in Orlando. They had ghosts on them and smelled like licorice or something. I thought that if I smelled one in that bathroom, I could then smell it in New Jersey and somehow teleport there.

Inches to the other side of a storm, pungent rockwork, wires and sky melt together as a beverage. Valley of the analog technologies, photography section of the bookstore, always guaranteed nudity. Flashity. I am a war.

Pinchollection, Pluckemin underpass gas station. Precone songs, more important to the insensate vegetation at roadside. Action figure at comic book store, Fords, hoho supermarket! Bills all over apartment, trinkets, yeah I got those. And here in 1998 I'm playing Gauntlet on MacMame.

Explonaked snap and roar of slush. Yo ho, home from college, some girl's room, friend of a friend, only there for a little while. And the flight and the power lines, pow, imagined power and excitement, know it's not possible, not knowing that it's very possible. Playing Duran Duran songs and The Fixx songs and yearning for another place and time, yet we are in such a time. Yo, in your movie hide the microfilm in a little toy Jawa Sandcrawler.

What are we doing X? Though, heavener corail, like in heaven a railroad in case you can't walk any farther. Pow, that's a weak 7-11 at night with jerks, that is why you are cool in his and her eyes. Be pride, have a lot of brevity in your analyses of computer operating systems and sun as the jester. Been good, no structure, yeah you just one people acting to know. Gung ho.

Stop Motion Animation. Finch elude mazework. Waterforris. Now that's fun. Gentle piano crap, stop being so timid, so fragile. Who works at stupid store, and on a retalted topic, working in a place that's a real bad idea and is not gonna last long.

That is my dueling style. Hey let's not mean that. Talk about laboratory heat, yo, you and other fantasize about each other, you are in dreams. Ha! No more cold coffee! Department store Santa memory, real or dream? If it means a lot to me, what does it matter? Like gas station in rain in granparents' Peugot while publishing doomed magazine? Far away to the Hoteast, bingdilb, blidgnib. Totally Coal. Doest, the most do. Feel, ice cream in Metuchen, train track hello, been away, cold ordeal, old lighter, science fiction, cardboard box, cruising. I am in here, corncob pipe, a lot of mind, history of Obliviana, and the launch is coming. Purity of Superior, not mentioning specific things. I see gold, spell it emvelope, olden war musket and war turret, cannon, big feelings, big stuff. Or maybe just a more dimensional wallower in my own little world.

Tea on subway, talked to the glass art guy, felt a skyscraper shine downtown, climbed a cool thing, was at a videogame street thing. Advertising, job at advertising agency, feeling of free art with money. Lost in strip mall, lost in myself, big hill, big arcade, super pinball feelings, coffee high, all these things. Then home again, apartment, mess, a lot amount of undone things, and this is not even me.

I would explore entertainment locations. Amusement parks and such ilk. Fogged, blurry windows to Primal Wonder, yet windows nonetheless. I see a lot of fun, ways to spend money and make emotional memories. My work is not yet known.

Barter and raggedness, legendary personal memories, you-centric in all things. Free tight knowing, you slide down the guard rail like a little ball bearing, a little silver piece of perfection. New Jersey. Roads. Hello. Hello. I am here.

I did Frey her. Some kind of New York City thing, I have found it. I had erf. So they showed Hardware Wars on sixteen millimeter in the gym. Ruin, stairway and bathroom and locker room, in my mind. Man, being a nerd... gotta be good for you in the long run...

I want quality smacks. Dude says yeah he got ID, only he hasn't been born yet. Time travellers have a real piss-poor attitude. Yeah, laugh at my two gigabyte hard drive, friend. At least I still have my humanity.

Whoah, yeah I've had good experiences with the American West. Small doses. Missoula, Salt Lake City, Las Vegas, San Francisco, Los Angeles. But mostly I'm in New Jersey and New York every day.

It's just you and that pinball machine, the same dynamic as meditating and staring at a candleflame. Yo. So what is right and what is wrong about interaction with other people? Solo. Right now, I am at the right place and the right time to make a big impact on computerized entertainment.

I far what I love was Uce Iffer the gun chairboon. Ski place arcade, extremes of chill and courtship, warm failure, I still can't get past my flaring helplessness at home. Imagine relationship with her, the god who wrote that one brain application, cool or asshole? Wow, in mind, life with that girl is kind of beyond anything. The dream thing, wow, so grand, and you can't have it. You really can't have it.

I have to shiver and think of sedans. I got, go, yeah I have a thought. It's ironic that I have these magical memories of Penn Station from the early nineties.

Arbor sweet thing, mine is adventuring, I love people who stop working and think. You hate department store sting, mediocrity full of elevators. Seeking life that doesn't suck, it takes some time to test out a new way, hope is in that time. Be not Elf, Vampire, or Klingon. You can stare down the department store. That is where truth is.

Glacial decorating, yeah, personality, she painted a circle on her auto. It's great deep wood, pinslash young equipment, it's minus the computed shave. Dear lucky coordinate, I bash ticket booth, I fly over boat ride. Glowering, not that's cool, get that mystique, that bitchiness. Cork and glitter, defending the stupid "yeah, I'm gonna be much more famous and rich than he".

Clicks, awesome museum and awesome girl, awesome winter day. That is wacky, playing Atari, fireplace going and sister and mother are there. Curve-Tone-Air, drawing her, hippie Slinky be by the pool. Theme basement, jungle theme, a little bit gambling theme, dad had a girl down here? Play the dice, that girl is gone, stained glass shotglass, several of them are gone.

That has my computer vanilla. Yeah, the young she drinks iced coffee mall parking lot? Bring. Some brought over some good magazines. The drinking, new herbal beverages at the 7-11. Wow, the possibilities of a wall, who we are, the mind of the celebrity, yo, we have the silly ideas. This is crisp, yeah, remote mountain top, ski place, no one around, and playing the swamp level of a handheld video game.

Bill, what a common word. There are people. This young people say the building is fucking lame. But it has a history. Yes, some decades back, wonderful events, wonderful history, awesome. The kids see the husk of it, marble walls and worn brass ornamental crap, but it was awesome at one time. All of this I have made up. Visions, imagination, at Union Square a few times in the past few months, it gives me a weird feeling, like I'm missing something. That part is true.

Rufus, compel me. Las chicas who like the blues of Robert Johnson. The EPCOT Beaver, roller coaster guy. So far, we could the cranking toy store, Maxfield Parrish kids, I would ride the subways, check out subway art, and not be the bright-eyed student. Communicore is gone. Tell me Rufus, tu eres cool? I saw a TV show about mica. I was a castaway, I experienced coolness, I came back.

I was of origins, not of school corridors or twinkling. That is the brightest part of lust. We are talking to cats in a warehouse, snowing so bad we can't drive, there is a great sense of quiet. Think about a forest a thousand years ago, pow, the little TV set has a humid mind.

Another here, I have to tell the truth, that we experience our own pasts mostly as fantasy. Shimmering memories, you know it wasn't that good when you lived it. These personal myths are intensely pleasurable.

Dense and two, the stupid talk about compuerized living, yeah, two-hundred years ago they had to walk through doors many times each day, like us. The promise of entertainment locations in malls and strip malls.

Yeah, welcome to the ranks of the smart people. A sudden breahthrough, electronic in nature, hook it up to a tree and you can talk to the tree. "We don't care at all when you kill us. We get reincarnated as cats."

Tuck in the ashtray, that is not my art. I was languishing in a corn museum, I learned all about corn. Clip, a little clip, clip, got runes from a bookstore and was a mall fortune teller. A totally ruined rubber band, and it's always here. I love corny planetarium people. It is always the restricted, the out-of-reach, the untouchable, which can glow with the adorable fire of Wonder.

We are riding a monorail in a place as different from Walt Disney World as it can be. There are some towns I would like to be in, yes, I mean the simple, childlike pleasure of being in a town. I yearn for things, I worship my past selves as gods.

A few forces of nature. In 7-11, you want to know all things, and no things. Anyone reading this in the year 2090? And you desperately cling to the culture of the Twentith Century? I am to be of your century, my work will be associated with the first decade, the zeroes or whatever we're gonna call it. And the next couple decades past that, too. You know this.

Alight on park grass, she saw, sunny confused park experience. Park parking lot, strangers toy with supernatural dice, I might have powers, I yearn to make it rain. Magazines in the back seat, I focus on door hinges, symbolizing passageways into a new place. I run and climb, we play on playground, it does rain, we act like kids. That silliness, that is iconoclastic, that is serious. Bax, little toy rock demon, me and her, wet and holding hands. We are cold in the air conditioning in the K-Mart. We dawdle by the doormats. They are symbolic.

Carousel about a brigade. Yeah that thrust, that travelling, a cool summer night, some kind of subtle festival, and you think, I've been in places like this many times in past lives, and in future lives will I also be in places like this. Little kid has cat toy. We have a city map, and many weeks and much money. You are away, I bought a notebook and a pen, I went to skyscraper observation deck, wrote a complete short story. And we flew to a new city, on the advice of a magician, to see the beautiful ice on everything, beautiful ice storm, somehow she knew it was gonna happen. A lot of yearnings, places to go at night, being there. I wonder if it is a phase, but with my system I can fully...

Our ability to be comfortable in the face of the mystery of our situation. Slowly wake up from the haze of childhood, where is this place? But we can numb those questions. So we have this numbing ability. And we use it.

What is a lot, so a few decades of sensory data, it must sidestep the issues of breakdown and shakedown, as far away from a bad crime drama film as possible. I see that typewriters are junk now. And the blank feeling of going to the movies, like there is more to life, like wild forests a few miles away. Yeah, kids in the forest, and the big attempt to do what life has to offer. Putting it all together, it is massive and far from understandable, life.

Yeah. Everyone has their stories, their strange life experiences. Claw claw. Chaos management, that's a big thing in life. The hottest few hundred people out of hundreds of millions. And they're all screaming. We don't know what's going on. There are all these people in cults.

Claum. Claum. Little restaurant at night in the Village. I'm just saying I've been to such places. There is super mystery in life! Super! We really don't know. Of code of at yonderful frontier.

Tinkle pure musical feel, way of the tree, sint, railway youth, major plans, plundermate, early computers and puzzles as little objects, dreams of great creative works, pure and innocent tresspassing, the dream kept alive. It is called Aerie Obliviana, this new thing. And wasn't there, I had an idea, Some Berry Basalt of Brine, something similar, in 1990?

Fine typographical obsession there, into pavement flaws to defer the personal flaws. The girls, and guns and cars, and the reading about distant entrepreneurs and their dreams, and those that never came to pass. Commercially viable hovercraft, okay. I can't tell, was 1953 long ago or very recent? Um, most people have philosphies where they define the world in a nutshell. Like, stupid ones like the world is just some alien's experiment. Lots of losers from high school are still losers all these years later. But the dreams were and are pleasurable, hedonistic, very satisfying. Yes, she is sitting there in the waiting room, and magic famous there are seeing nothing go by, and a great yellow graphic design book cover. Erotic Eagle, Dusk Overland, end of Parking, new here at Duskaway. To think of kids in the Sixties into ragtime music, that it was so old then. And the meaning that a dream of mine from several years has to me, not possible to share that feeling, at least I wouldn't impose it. Yeah the dynamite of that word, impose. 1/13/00 8:56 pm. M3 bus downtown. Got on by Rockefeller Center. Saw "American Beauty" before at Virgin Megastore. Damn cold. First time on city bus. Storms from last night still affecting me. Earlier, I shattered a fluorescent bulb at work.

Rooftop Railway Fugue. Shatterfirj Arcanas. Hompinaha Hoptobo. Nioctresni Arcade Parlor. The Lintimpee Arch-Rald.

We want to go on vacation every day, every hour, every minute. I was standing on the snowbank which may have been kind of weird. Roasting coffee beans down at Photon in '88. The dungeon games in the flickety flames as the fliskatine area. Ranald Comforter, Jeveller Dauntles, Dean Toace, and Fromi Paft. That good kind of tired... the world responds.

7:57 pm. In my pocket earlier today, in the pocket of my black button-up shirt, were three items that were cool together. Redemption tickets, maybe about 20, orange in color, from the Broadway City Arcade across from the Port Authority Bus Terminal. I got them last night playing a new game, Namco's Quick & Crash, a shooting game. Also I had the game Cosmic Wimpout, consisting of 5 dice in a plastic tube. I got the game this morning at The Compleat Strategist, a game store across from the Empire State Building. I almost didn't go, but at the last moment I veered off my morning commute course and took subways S and 6 over there. I was the first customer, at 10:30 AM. The third item was a laser print of my new Obliviana gameboard, dated 2/1/00. Yeah and also it's pretty interesting, my current bus tickets (which I buy in sets of 40) have 3/2/01 as their expiration date. 2-1-0 and 3-2-1. Cool.

Have to talk about mall in the rain, instead of staring at a candle flame, meditate in the interaction with the mall instead. Say the word “lost” something, and it is like a cool, remote kind of saying, like the subject is apart from everything. “The Lost Archer”, for example, as a title. Who is this guy? Complex wood beam system, looking up, ceiling of old building. The dreams of the dreamer, and the endless fantasies of the realization of the dreams. And colder weather and warmer weather. Creams of the dreamer.

Okay, a truck stop or a diner type place. The calling of the cardboard message. The big block of hard Bazooka gum after going with my mom to pick up my sister from ballet class. And the toys and awesomeness of 1970s suburbia. Yeah and a couple or several diners from memory.

Desire and distraction. A pure smell. Waving the hand, your hand. Getting caught up in the moment, too hyper maybe. And the streets after the parties, and the ruined promise, the unfulfilled potential. And the complex delusions that keep us moving. And watching very cool TV shows.

The arena rocks the mind, the steadfast home of personal fantasizing. Locations from the past and the hopes for the future, in sparkling True World aspect. Real World. Original World. The euphemism electrified. More likely spiritual in nature. Entertainment. People are fickle bastards maybe in this field. Our world is narrow, and that is not so bad. Perceiving them as miserable, as don warehouse outside lights in the tight night.

Let's get the tag of the stores. And the muffling debilitation of not knowing some things. The artifacts of the native cultures are cool cuz it's so unreachable, and your feelings about it will never be struck with the less-sparking reality of them. So train, hanging with the people never seen before or again. Night depression to mall and arcade. There are so many losers that it's too comfortable.

Space laser music and spaceship games. The space place that will last only so much more time. Innocent culture. Sincerity and the naive is damn useful and valuable. Quiet tree. Religious graphics pollute the visual landscan. Thru several windows the last few times for an over-familiar route. A record store called Beeky's or something, at the Quakerbridge Mall, is not there anymore. Hanging out in the virtual Mercer County of my mind. The very weird mind maps. Okay, meeting to solve a problem. Seems like we can squeeze but the barest amount from the sponges of present situations. Later we wish we had squeezed more. Oh, hi.

And a great hello to the bead game Fonjo, the, uh, new game that's gonna be comin' your way from Obliviana. Still in development, just wanted to say hi from here in Superior. Fonjo, you're gonna be great!

Talking about the Hudson-Bergen Light Rail, it is a cool little railroad. I look forward to its extension to the Newport Center Mall, Hoboken Train Station, and beyond. Stuff to look forward to, good to have in your bag of tricks. Every day things are a little different. The feeling of thrill, and the finding of the yielding to a want somewhat. How easy it is to forget a coolness after a few days, but to keep reminding the yourself is hard.

Scrutiny of a nostalgic whim, to revere a situation in your past, but while experiencing it, the previous version of you was not so thrilled as you would be now to relive the thing. It is distance, I say, that makes this so. Inaccessibility, that it could be so many ways. Reality always disappoints, one might say. Past and future are our personal paradises, for sure. The big questions fuel us in our fun and fumbling journies. So let's keep on being silly and radical, it can only be good.

Drew University, I went there from Fall 1985 to Spring 1987, and I went back quite often even after I transferred to NYU. I have magical memories of the place, and a number of major "story arcs" happened with me there. Demon Wars, Anything But Monday, 209, the roots of Obliviana, and girls.

Aldo Fonatics, nervous excitement, the lost people gather, allowed themselves to be dependent on their reflex reactions, kind of being jerks to people sometimes. Feelteams Daxodalf. Another wostalf pangton iltiflid. Ashton and Awother, unexpected songs. The good luck of experiencing natural wonders as part of the background of your daytime.

Morris County Mall, vaguest of mall memories, I sought and found you yesterday. The indoor mall part I found demolished. I went to Bradlee's, and also Radio Shack, the only store still inside mall, its short area undemolished. And I talked a little to a Radio Shack guy about the destroyed mall.

Loner of the barren west, the sweet vagueness of miniature golf, Penny and Timber. Fancing Hawthorne, kilometers yet to come. The Sorry Latino, where am I? Weird Luck Charms, paraphernalia in the key of neat. Seeing potential friends that we'll never meet, in the key of relief. Tivian Towhead Belomancer, character of forlorn transit and manic bemusement. There are files seen in dream states.

Childhood dreams, the enchantment of them, an unbroken phase, and now I'm 33. Hanging on, and the long time has brought me here, to a good situation. Yet the enchantment must be broken, the magic has to be harvested. In calling something "over" I am not at an end. All the wonderful delusion and dreams, visions and plans, are here, outside the slumber.

Today, right now, we're out of soap. Is this not a reference to Zope? His name came from a lack of soap, a little less than 15 years ago. And ZopeTV is in suspension, and do I have time to work on Zope in 2001? 15 years ago... and Anything But Monday also.

Today is the first day of the new Millennium. I have no job, no health insurance. And I have broken the spell of the childhood dream.

One more storage, stash away the wonderful things. Things that sit unseen for years anyway. A really fresh start, we dream of such as this. But a gentle upheaval, and I'm blessed to have it. But I need confidence, I need to stop being afraid of success. I know, success would break the spell, that was why I feared it. Now the spell has met its natural end, and this event has opened up many vistas for me. And my head is swimming now, but I have to find the confidence.

Do we want to think about misty revolution. I touch notes of music, striking nature. Week after week, and no answer to the secret of everything. But a delicious interplay of deep and robust playful distractions. But hot and depressed in the mall, yet there are moments of real joy.

The rantings of a cyber culture pundit in the glimmering dawn of the mid-1990s. Time marches on and ideas need to the thoughtabout in every moment into the battle of future. Here is our Earth, we are crazy critters, our culture in 2001 is looking backwards. Want to build something lasting that has followers. There is notes, crest, overhill from stimulation to saturation. Lot of video tapes to watch. The ceiling getting hair washed at salon. Joy of rainfall, joy of mall stroll. Music is every direction.

Left neon wet, cigarette teardrop, preened and insulted. Think that techno music is tribal, drugs are windows into the universal place. I think screensavers shall revolutionize life. Car horn, drunken stumble, sexual gunshots. Wake up and you're older.

Far and awash with escalator dreams and thought, the damaged territory may be only desolate and not hurt. World is not horrible. Trying to find a book in a bookstore, maybe the answer is in a book, or a book could be the spark for the answer. All those tarot cards.

Fine and dandy, relative things, relative goals. The puzzled present you, at how the past you didn't appreciate a cool thing at the time. Get dressed and everything and go out, into the world, anyplace, any store. Driving, frustrated, coffee, and depressing walks through malls. Yeah, the fabric of the game. The mission and the powerful hero. And the frequent amusing thought.

Duskaway keep on going on. Hear about new available product. The dear mental image, the quest to get the thing. The powerful haze of youth, denial of harsh reality. The slow waking into being kinda old, and having a whole lot of stuff. Make it better.

Crushes on female superheroes. The dark game on the think, the mind is a wild one, travelling all over the map of the good and bad. The highway rest area, the imaginary ice chip volcano. A marriage of the elements and special times at health food stores, the striving youth, and of dreams of magazines. Yes worldwide impact, the famous in room, the cool old movie posters. The atmospheric place, old wine corks, spray mount cans, lovely smiles. Several lists. The dark side of the 1980s, indulgent, shallow. Just the dream of driving motorcycle thru misty rainy noplaces. Us against the world, our random idiosyncrasies like super hero powers, kind of a mutual admiration society, plugged into a bona fide zeitgeist. And what is the value of people hearing about it and thinking about it long after it is over? Do we want, like in the the year 2500, some kid to discover the magic of us and go like whoa this is cool and get into it? Or is it just the spur of the moment, or just making money.

The power of pre. Of being before the thing. Think that playground was upside-down. Seeking, seeking, personal mythology, own little world, own biggest fan. Arm and horizon, fake military feel, whipped cream TV, river smell. Conclusion, arrival. The challenge completed, satisfaction.

The potential of that time viewed from this time. Is it a waste of time to indulge in thoughts. Do we have a goal, do we have a plan. Randomly go to that mall, part of the plan. Resist if this thing is falling apart, so hidden and free.

Dripping interweaving motorcycle, slicing the reality of time and shards. A zillion atomic bombs on video. Box has molded place for device that is missing. Waiting on line for some kind of autograph. The obsessions of six years ago.

Should probably be a drug addict by now. I am an observer and I wait. To think of my state of mind in the past, always just about to break thru with the big idea. But if you can keep it up, it makes for pleasant living.

It yarshwennic below a happy dancers collegiate. Shaky hands, short of breath, blurry vision. Cryptic with nothing encrypted.

That is better, us American kids preoccupied with all things British. Silver wires, talk about silver wires, English accent. That is cool, bringing them places, getting a new look at things, and standing on top of some place with a view, and the other side. The urban night, cold outside and hot in coats inside, sweat and freezing air, and electronics stores.

We are more powerful children of the age. Just gotta rip open a time portal sometime. Gotta confront the kids, sitting around and talking about their grandiose plans to change the world. And I think, I wonder, should this be a world where everyone is a hero of the age.

That the night is untamable is clear. Yet we can build an outpost to observe and interact with the night. We can build a better outpost. Let us wend our way thru the vast heaps of cocky young souls with unsharp minds, you like the bodies.

The old free grand ice weed, color and possible. Misty catcher, dark tree child night, shelter with mechanical audio machine. Dark fiber optic amusement spectacular, hitting the mind like petting a cat. Freezing train platform at overcast morning, thinking about warm friends.

Hunting fun in a huddled night fray, crafting dark skinny dippings into the ice way mellow. Boundaries, a few streets, bike ridings and school bussings. The party, vapid lounge, are they also pretending to appreciate it. The magic tricks, could he have real powers. Think a book series of science fantasy might be real. Book about reptiles not amusing at this time.

Sold out to the warrior clamp side. Obsessions and dioramas, the used bookstore as ultimate cathedral place. Pure explore, pure city, all about the cool stores. Evil people in their evil nests. All slippery, cannot draw any conclusions, must take the next flight out.

Deep in the heart of obscure entertainment product of the past. That lifestyle, the junk of the previous time, getting into new facets of it all the time. Old time sexy stuff, campy, weird, zombie and robot and gorilla.

After the time of glaciers and obsessions and college, trying to find patterns in the sprawl, and being old enough to be parent of one of those college occult weird seekers.

Smashing pinball pachinko and little bulldozer game with plastic pellets, and spinning wheels of prizes and plastic mustard container, old and dirty. She is extended into some kind of psycho dimension.

Cat under the table, the magic reference place, slant and slash light, pop into dimension here, feel the window glass, blatant quaint village scene with red snow, blue hats.

Pile of misunderstood lockpicks, the pathetic and confident are all over the place. The place to hang out, old wood, firelight, good times, not forced, not a themed place, but a real place, and do time travellers flock there, is it any better than a theme restauarant.

We have a mystic power in our gaze, and it's a sexual palace, and a rollercoaster glance out, the four dimensional flap hatch of us, a wild frontier airport for the scoot of nothinghood else. We are fire in our place, we am books, fixtures. Pretty hood marketing flavors.

Someone talk about polo but I think it is for people with a lot of money. We are gonna meet some people from 1994 working on a virtual world's fair project. They are enthusiastic about it now, but it's not gonna succeed at all. They will have moved on by late 1995.

People are gonna watch with amazed eyes at our punk desires. They call it prurience, they call it bad. But concrete dust is in our lungs a little.

Get over it, the textured hotel lobby that was all yours. Lemon tart town walk, three stores and a holiday decoration. The copyrighted music of your life. The disillusioned snow breakers. Weak broken red plastic snow block fashioner, anxious to leave and check the email maybe from a lover, a savior, the best.

Ward keep away from the wheat field in racing game, that you might be convinced you are a character in an amusement, poorly organized club from thirty years ago.

This vision, always a number of people, maybe in college, open to exploration, going to weird places, old malls, cool stores, making up games, and all that. Supernatural, mystical, fantasty. This vision, people wanting to explore, idealized, frozen in time. The real ones, not like the idealized ones, with other concerns in their lives, other things to think about. And not continuing with the mystical exploration thing, most of them. What this vision is all about, ideals, places, times. Maybe something deeper, maybe the real world, the original world. But the fire of this vision burns ever brighter in me, why I do not know.

Adapt and fool the you. Want to find people. On the subject of mind surfing. The dead web sites. Forgotten dreams and plans. Under the walkway. Remembered places and people and events, these reflect the light of the original world. And the ideal of the face-painted chaotic-good savage-hero.

Almost too much study of this off-balance realm. Something like 16.4 million years of human experiences every day. Am I experiencing it all, and is it entertainment.

I am really in a daze, I don't think straight, I have to sober up a bit. Distractions! They are everywhere and pretty cool. Gotta straighten myself out. Denial and daydreams make for a pleasant muddling. Wanna get sharp. Wake up a little.

The fences are soft and mashing, you. Got a bottle of something in a vision, that is the grassy lawn of youth, violent feeling of beekeepers in the neighborhood. Free train stations, the rainy light night, laptop and things to say.

Vapid library reception desk, vague and growling. To recall places and situations, weak friends lost in gust. Shaking my head, closing my eyes, uncomfortable memories. Scary as time goes on, the grand design made visible by constant analysis of past experiences, and it's incomprehensible, but seems to be meaningful. And I thought the answer was just around the corner when I was in college a decade and a half ago. And also now. Me, me are contain a lot and I am interested in it. Constant daydreaming. And places from the past. Is meaning derived.

Gotta say that fear of being an innocent player in some drama. Mental techniques to soothe the pain of the stupid world. One day find sub-levels in the subway stations and another universe and all that jazz, sci-fi story, get lost in it. Weird tiles on the walls, yeah for real, they have cool new tile murals at some N and R stations.

To muse on memories, I talk about that subject frequently, and puzzled at the semi-sour vision of role-playing games and hobby shops in the late 1980s. Like steampunk and furries, kind of lost the magic of like 77 thru 83, 78 thru 82, like that. Getting cryptic, vision of a park in Plainsboro, NJ, worst place I ever lived. Stream of conciousness writing, the thrill of romance, icy itchiness, and the mournful sound of distant lawnmowers.

Creative collaborations have been a source of some bitter memories. The world of Mac shareware and software back in the late '80s, early '90s, and then later the high-minded CD-ROMs of Voyager and the like, all faded away now, and kind of forgotten. The whole spirit of the mid-'90s, pre-Internet revolution, with CD-ROMs the big new medium. And the techno-shaman type spirit of the early-to-mid-1990s. What the hell am I talking about?

The pyre of the computer mazes, dark tan hallway is with ferns and office smell and we have to go, freezing air and go to the seaport museum. The decorative eagle has no camera in it, we are not going to be afraid of the speedboat, and the poster of the speedboat, add some girls in bikinis and sell it for college dormroom display, along with faded eagle graphic, pub sign.

Ha ha even the most adult and expert are idiot. Back to the nostalgia, wow, bittersweet with emphasis on the bitter for 1989. Sleeping on the floor of that photo studio, driving down to D.C. to see a girl who was through with me. Graduating college, and for some reason went to the West Belt Mall later that day (now called the Wayne Towne Center).

The anger about the cool car is just jealosy and is it so bad? Good feeling, good anger, emotional circulation like blood, get it moving. If you are the one with the car it's like a coldness in that regard, of emotional flow. I just want to say, I just took some Alka-Seltzer PM and I'm starting to get incoherent with the writing.

Foalflake, baby horse took her first steps, and the squirrels and chipmunks watched, and they were awed. Sturdiness, this phosphorescent Christmas, its heels nipped by Californianess, we are truly married.

A pine tree from the old times is in my mind has no shape or form. The restless, sun-dappled freezing daytime. Mirrors and windows and angles and strikes, frozen water called ice.

Return to the Yellow Denim Arcade. Tennis Road, Sleuth Radio, Xtreme Pet Birdhouses, Creature Called The Yale, Full Bandwidth Coffee.

Electronic retailer said may we have caprice and theater, strike apart the wood homes of the smirking air things. And glide down to slow down into the bare lost ruin of the smirking ones.

Going where was, under tiles in discount clothing store, pulsating weird conduit, and damp grass in front of CVS in a kind of rich town. Sleeping a random afternoon away like cats. Monster sci-fi vehicle, giant airplane thing, whole city inside, is coming in for a landing. But an airport a world away has pretzels and bottled water and computer magazines.

Being that I was a cartoon dog, I already know how to talk. My daughter in the dream was a celebrity daughter. Shooting Ouija boards with shotguns as jam bands play, my 48 parents dance a winch pulling dance. Spy a traditional UFO in drug induced vision, organic produce on city street 3.

Thrill of walk, me and her, why is there a heavy world to make this fail? Clear green plastic and quiet, discounted computer games still too expensive, door beads but they're little dice, fan is on. The outside world is such a complex system dancing in such unbelievable precision that it seems dead and inert. But the spark ever seen, several times a day, elusive but the sense that if you just grabbed it... you could rip away the curtains and see the real deal, the cool world, the hidden awesome original realm.

Where is the Jark of Coal? Care about field, when the secret's revealed how do you know it's real? The big game, we are people, we don't know the mechanism behind it. When each of us goes behind the scenes, will it be clear, easy to understand? Driving around in Cranbury and Plainsboro, younger me, head full of foggy frustration, Thinkfangs jabbed at world, and the frozen milieu of the rail commute winter.

Just all sorts of human interaction, he does not want to join in, wants to remake the world so he's comfortable with it and rules it. Nine Pebble Detector on! The Nine Pebble Detectors team is on the move, in Wintercindie's Balinese hovercraft, with Magic Smup driving. No one knows the true origin of Magic Smup. Some say he was a garden gnome stolen by college students, and was brought to life in the dorm by watching the first episode of The Larry Sanders Show, on Betamax, where Larry does a live commercial for the Garden Weasel. Lazy day and odd sun, nine little pebbles, remote in a vast, deserted parking lot, huddle together, speaking in relaxed whispers, having a little meeting. He realized he could copy the powers of heroes when he was near them, almost matching them. Afterwards, he kept a small fraction of the copied powers even after he left their vicinity. But his power mimicking came at a cost – his clothes were colored four different colors. Imagine an X and Y axis converging at his navel. He is hyper and silly like Charles and is in love with Wintercindie, and never stops believing she could

love him back. This story was written by Frank Edward Nora on March 3, 2020. It all came together in his mind during his morning shower. Then the dreaded Hoops Fenderzocko, the green owl magician hand puppet with a copper top hat, bursts through the hovercraft's window, and with Cwickalty speed, draws the Three Billy Goats Gruff on everyone's chin with his El Marko. With insane laughter worthy of the Sidecar he grabs Doc's mug, spilling the sweet grape elixir all over the multicolor-garbed hero, and jumps back out the window. Insurance the Devil Girl, with a black and red outfit, whirls around with her pitchfork and shoots a blast of barbed wire supersmoke after the puppet, to no avail. She had once been a god's intelligent sword, eventually granted personhood by that same god. Many adventures later as a male superhero with teleportation powers, an interdimensional accident reverted Insurance to sword form. A devil girl named Lemon was able to use infernal sorcery to restore Insurance to human form, but as a sexy devil girl like Lemon.
Wintercindie, who had been napping, is jolted awake as Magic Smup spins out while turning the hovercraft around to try and catch the mug-stealing puppet. Luckily, Hoops can't resist getting a pretzel at the pretzel hut, as the hovercraft bears down on him. He darts away at the last second (before paying) as the hovercraft crashes into the pretzel hut. The team jumps out the hovercraft door and pursues the green puppet on foot. Doc wonders aloud whether they should just let the puppet go and continue on the pebble mission. But the chase is afoot. The team bounds through the streets of the city, and spots Hoops entering a bowling alley, pausing a moment to finish his pretzel. Inside the alley, with the sound of pins crashing, and the smell of beer and junk food, the fiendish owl is nowhere to be seen. Until... what? Hoops is atop a ten pin, a bowling ball headed his way – a sure strike. With a nod to the team, he jumps down, picks up the pin and puts the mug in its place. In the nick of time, he escapes behind the pins, as the ball comes crashing down and smashes to bits Doc's beloved Mannheim Steamroller

Cinnamon Hot Chocolate mug. The clouds come, thunder the darkening sky, air electric with its initial drops, and then the deluge, collapsing into the pavement, and the nine little pebbles, have a little drink.

ANALYSIS: The nine pebbles poem, CELLARS EXHAUSTER, originally appeared in Frank's Abaxial Usufruct collection from 1990. / Wintercindie and The Laser Bee are characters from the Fuzzy Daupner song "The Mexican Hovercraft", circa 2000. They appear again in lyrics never made into a song , Laser Baffle Rag, which includes the Charles Nelson Reilly reference. / The hovercraft being Balinese is a riff on the idea of a Mexican hovercraft, and is inspired by the lyrics to the the song "Trans-Island Skyway" from the Donald Fagen 1993 solo album "Kamakiriad". / Magic Smup is a character from an experimental "Ramp Fiction" audio piece Frank created for the Other Side of The Overnightscape, first appearing in episode 1508, from 7/3/18. / Doctor Almost is a superhero idea Frank first talked about on episode 900 (8/8/12). Flea Devil Solitaire was invented by Frank and first talked about on episode 1506 (6/26/18). His job is inspired by Frank's experience as a foot messenger in NYC in the '80s. / The superhero Cwickalty is inspired by "Cwickalty's Banjoose Pike", a supernatural road mentioned in Frank's failed sci-fi novel "Severe Repair". / The idea of a puppet stealing your mug and you chasing him through a city was the basis of a proposed audio game, Mug Chase, Frank considered making for the Amazon Alexa system – but never pursued. The green puppet concept is partially from the idea of an automated puppet show at the Nightstation dark ride in a mall concept Frank has extensively discussed over the years. / The name Hoops Fenderzocko is partially based on the audio-animatronic owl "Hoot Gibson" from the never-made Walt Disney World ride "Western River Expedition". Swapping one guitar brand "Gibson" for another "Fender" and adding the "zocko" for extra name power. Also inspired by "Hoops McCann" from the Steely Dan song "Glamour Profession". / The copper top hat is kind of random, but relates to the slang term copper top from The Matrix. / Drawing Three Billy Goats Gruff as opposed to a goatee. Inspired by an article Frank read in Game Trade Magazine about a fairy tale game. / El Marko was a popular brand of

magic marker before Sharpie became the marker norm. / Frank has recently remarked on a seemingly deranged homeless man in the Sidecar Seating Area in Grand Central Terminal who often laughs maniacally. / Devil Girls Insurance and Lemon are also from Severe Repair.

On the universal night audio trip, let's get moving. Walk out the door, the sky is overcast, some kind of late afternoon small city street. People are walking away from a street fair that has just closed with big orange foam hats. Next to the street is a field, the ground is wet, must have rained earlier. We walk out into the wet field, the mountains in the distance beckon. Someone in a costume is walking the same way we are. The mountains are fake, they are just a painting, a backdrop. The costume is full of bright colors, bringing to mind a parrot, or a pirate, or a rag doll, but seems to be in reference to a type of wandering adventurer. There is a gazebo here, but the explorer is walking away. To enter the gazebo, press one. Or to keep following the explorer, press two. But I know you can't press them right now so we will turn around and go back to the town, the normal town. Let's go sit down at the outdoor seating area of the restaurant over here, it looks kind of cool and interesting. It's called Magic Smup. Kind of a quirky name. It reminds you of the word shmup, short for shoot 'em up, a video game genre. But in this case the smup part feels more like a reference to fairies, Smurfs, or other small, whimsical fantasy humanoids that just want to eat and have fun in peace. With a little mischief thrown in of course. You will order some beers, and we will now talk about the world. It's getting darker now and the city is lighting up. I love a sense of possibility the bright signs in a city night seem to radiate, like anything could happen. What, isn't this supposed to be ramp fiction, the story of you, an adventurer, or was that you back there, the multi-colored rag doll explorer, from another dream? The beers come, We ordered the sour beers, this new sour flavor, didn't you have some a few weeks ago, and weren't too impressed at the time, but now you're been thinking about it, and want more. This is the story of you having beer in a whimsical town, all the jolly people skulking by with scowls and sadness, as they are not happy with the life they lead in this magic town. Can we help them? Can we put on a puppet show for them, to help them forget their pathetic life. But we need to set forth on an

exploration, we need to find the museum, because tonight, Thusday night, is the night they stay open late. They may even have a sleepover night tonight, where you can stay overnight in the museum. But we probably would have had to get tickets in advance. And I think you need to bring your own sleeping bag and other such things. But we can still go and hope for it to be a magic museum with magic fun times. But hold on – can this town have a real giant backdrop of mountains at the edge of it – it doesn't make sense. What could be holding it up, it was a huge flat image of a mountainous terrain. This is all meant to be a place you can be in, you can live in, but it is just a phantom thought, just an audio paragraph read by the woman computer voice, your friend in this most excellent trip. We finish the sour beer, after having some kick-ass onion rings, and are feeling good, and pay the bill. Off to the museum we go, it is called the Museum of the Inhibited Smup. It is all about a smup, like a little goblin kind of guy, who is inhibited in life and has trouble enjoying the magical hijinks. Each room, or exhibit, features detailed dioramas of the smup and his difficulties in life. We just find the nearest door marked do not enter, and rip open the door and run into the darkness within, into the basement of the pointless museum, where there is one last exhibit. It looks very old, and in ancient writing over the top it says, "Ramp Fiction, Magic Smup, read to you by the computer woman". It is a scale model of you, listening to this, hunched over and enthralled by these words, as the real world, your real world, is shown in a backdrop of the exhibit, and you are there.

I know you were wondering what this whole Nightstation thing was all about. That's why we came here to the Weasel Village Mall. They have a great Nightstation location here. They built it while they were adding a wing to the mall, so they were able to integrate their trains into the architecture of the mall. Going high up by the glass ceiling, on a winding elevated track over the food court, and even looking down into some of the stores. So it's right over this way. I hear they have a new trip that just got released this week. Let's walk past the statue of Lamar the Macho Chemist. And I hear they're opening up a Magic Smup restaurant over there, but the hoarding isn't up yet. Wow, see, look up there, that's one of the tracks, you should see a Nightstation train coming around the corner any... oh there it is! The black and red hot rod train! I love that one. Maybe we'll get that one. I wonder what trip they're on. At this location they have six different trips, and they are updating them all the time. But of course the old trips go into storage, but sometimes they bring them back, or set them up at other Nightstation locations. One that I loved, they had a few years ago, was Bortle-Scoville Cyber City, really almost felt like you were inside the movie Tron. But the sets and the projections were kind of rudimentary. I mean, the large, boxy shapes that are associated with cyberspace were easier to build. And their techniques have become much more advanced since then. But I heard a rumor they might be bring it back totally rebuilt, like redone from the ground up. I really hope they do it, but of course there are so many new trips they're working on. And... right around the corner here... there it is! Yeah I know, the line is super long, but I made a reservation, so we can go into member's entrance, since I'm a member. The entrance area is always so exciting. The trains going by on three levels, it's so cool when you're on a trip, and you're so immersed in the world of the trip, but then in the middle you pop right out back in the queue area, it's kind of disorienting, and then back into the trip. And also, what they built at this location, really a cool idea, is there's an interior train station inside – where you can

stop, and hang out. There are some observation decks to look into some of the other trips, a snack bar, rest rooms, and an arcade. When you're ready to continue your trip, your ticket is coded to make sure to continue where you left off from. I know some people who just hang out in there for hours – and they don't seem to mind, the Nightstation people. Oh wow, there aren't many folks on line here, great. We should be able to get on before too long. And see that panel up there? The front will slide down and there's a little puppet show in there. You know, the recurring Nightstation characters. There are all sorts of little details, and you could come here every day for a month, and some of these things, you might just get a look at once or twice, it's really made for people to keep returning, it never gets old. I think that was one of the concerns the investors had at the beginning – yeah, at Disney World or wherever, people only go there every few years. But at a mall, say, you want repeat business – so it can't be boring. But Nightstation made sure, not only do they add new rides often, but each time you ride it, there are secrets and hidden things, so that no two rides are ever the same. Let's go in, shall we?

Sleetgosm Numizmonia Fenderzocko Conrad Moops. A poem saying hello to a game. Fonjo the bead game, later Fonnjo Foon, never found its way... Duskaway 56 said hello all those years ago. Now with the end of Whychock Revival looming, my show The Overnightscape, with episode 2113, is saying hi to Weird Little Highway, a projected audio feature on the Other Side, the place all these vague worlds can continue, if they need to continue at all. Zope, Severe Repair, Superior, Beublin A. Richardson, Fuzzy Daupner, Weasel Village Mall, Nightstation, Tree Bag Ask, Mazenweed and The Puppets of the Van, and all the rest (see Whychock 1213, above). What a mess, but funnel it all into this new feature. No pressure, as I said, just what needs to be continued, if anything. The Conrad Moops.

Data Peru, Epistle To Dippy covers, we perform in parks, do zero things, but do many (mini-adventures) in-between. Formal performer arcanas, reclaim the delusion, all the cringe and derange, it's all a treasure of the health food stores of the past. Is I a genre, in town? Wovoer1, spun sly, like Mockingbird in West Coast Avengers, orch-pop freaks and prop quail eggs. Older garbagial, Nuke Piper Cape Home Video, intense, messy, and meaningless experiences. Back night, like puzzles, upside-down highway—Hemidawn's gone cyberpunk now, all neon and '90s tech, with what he's gathered on the spirited hatchway trip—craving that crash into wonder of dark night as the race day is nearly gone. YU got mission laser mouse, a dime or so east, suchaweirdweek. Snarls-O-Club, Hemidawn eases into the city like an infinite macaw that stepped on a landmine. Indoor ponds of every variety, serious groovy communication. Some interlude of cocktails and flexagons, zorptoxhoo bean crews, crying in the dynamite crisis rain. More alleyways, zany every nova weirds, erogenous ethereal draperies. The pebbles have had their drink, Conrad walking away, Gnoboslast opens. As reflections of a massive video screen ad for finaltestcream.com intermingle with Zope graphics on the glossy surface of the red and gold dune buggy, Hemidawn seeks the edge of the metropolis and espies an exit ramp in the distance, as an old faithful erupts nearby. Almost worth stopping to check it out, but there isn't anywhere to park, and the tunnel is curved, so stopping could be hazardous, on the off chance anyone else is taking this exit. As the tunnel finally ends, there's room to park on the roadside, but Hemidawn wants to see what's next. It's right around the corner, finally coming into view, and yeah, hey, it looks promising, this weird little highway...
